

A modern Kohler shower door with a frameless design, featuring a brushed nickel finish on the hardware. The door is set against a wall of large, rectangular, light-colored stone tiles. A showerhead and a handheld shower wand are visible inside the shower area. The door is partially open, revealing the interior. In the foreground, a white towel is draped over a wooden stool, and a small glass vase with purple flowers sits on the towel. The overall aesthetic is clean and contemporary.

新綺多吉淋浴拉門

## Features 產品特色

### Limited door swing

Door swing is limited to less than 2mm, below industry standards.

### 安全不晃動，淋浴有保障

晃動幅度控制在2mm以內。

### Quality PVC seals effectively prevent leakage

Innovative integrated seal, tightly bonded to prevent leakage

### 良好密封性，有效防滲漏

創新一體式膠條，確保與牆面和玻璃間緊密貼合，避免滲漏。

### Easy-open shower door

It takes only a very light pull to open the door, even a child can open it

### 輕巧開門超省力

開門時最低只需要12N力量，相當於2瓶礦泉水重量，小孩也能輕鬆開門。

### Effective against impact test

Has passed the 30 Kg, sandbag impact test, ensuring there will be no burst or displacement in case of accidental impact

### 抗撞擊，防爆裂

通過30公斤沙袋的撞擊測試，確保在意外撞擊下也不會產生爆裂或位移。

## Premium materials 優質材料

### Seals

Quality PVC seals effectively prevent leakage. Super-thick finish on hinges prevents corrosion and rusting.

### 密封性

KOHLER淋浴拉門採用優質的PVC密封膠條，密封性好、韌性高、不易斷裂，完全密封，避免滲漏。

加厚的五金鍍層，可防止鉸鏈腐蝕、生鏽。

### Quality materials

KOHLER uses aluminum material that meets the American 6063 standard. Up to defect free content ensures a smooth, glossy surface free of pinholes and dents. Stringently selected material (HRC 13-15) with maximum thickness of 2.6mm performs well under pressure.

### 優質材料

KOHLER淋浴拉門選用符合美國6063標準的鋁材，無暇的表面光滑帶有光澤，沒有小孔洞和凹痕。嚴選HRC 13-15鋁材，最大厚度為2.6mm，抗壓性佳。

## Architectural grade tempered glass

All KOHLER shower doors feature tempered glass certified by CNS. Tempered glass is made by heating flat glass to just below its softening temperature and suddenly chilling it with jets of cold air. The resulting tempered glass has outer skins under powerful compressive stress and an interior with severe tensile stress, which makes the glass five times stronger than ordinary glass.

Should breakage occur, the glass disintegrates into small dull fragments that are relatively harmless while regular glass will break into sharp jagged shards that could cause injury.

Tempered glass is widely applied on architecture, automobile, train, vessel. To ensure your safety, KOHLER shower doors are manufactured in compliance with CNS 2217 and CNS 2218 standards, which strictly regulate the appearance, warpage rate, impact resistance and fragmentation state of tempered glass.

## 建築級的安全強化玻璃

KOHLER淋浴拉門選用符合國家標準CNS的強化玻璃，將玻璃加熱後於表面急速冷卻，在表層與中間層形成永久、均勻平衡之壓縮應力與引張應力，使強化玻璃之強度可達普通玻璃的5倍。

當強化玻璃因外力破壞而碎裂時，會成不規則豆粒大的顆粒，減少對人體的傷害。

強化玻璃多用於建築、汽車、火車、船舶等，根據CNS 2217和CNS 2218標準，強化玻璃在外觀、翹曲、耐衝擊性和破片狀態皆有嚴格規範，安全有保證。

## Hinges

To ensure the hardness, load-bearing capability, corrosion resistance, KOHLER shower doors feature durable brass and stainless steel construction. Have passed 100,000 life cycles of open-and-close test and salt-spray test.

## 五金鉸鏈

KOHLER淋浴拉門選用經久耐用的黃銅和304不鏽鋼材質，通過10萬次開合的疲勞測試，確保硬度高、承重力強，且通過酸性鹽霧測試，耐腐蝕力強。

**Stability and easy installation**  
直拉桿設計  
比斜拉桿穩定性更好  
安裝更方便

**Stainless steel hinge for durability**  
不鏽鋼鉸鏈 高檔耐用

**Seamless sealing strip forms a continuous, tight seal to hold in steam and water**  
一通到底的膠條  
完全密封 杜絕滲水

- Contemporary and minimalist design fits your various bathroom styles
- Premium hardware for durability and sturdiness
- 10/8 mm tempered glass

- 現代簡約設計，適配不同衛浴風格
- 優質不鏽鋼五金件，堅實穩固耐用
- 10/8mm 強化玻璃

# Cleaning & maintenance tips

## 關於保養的貼心叮嚀

In addition to considerations of quality, careful maintenance and cleaning of your shower doors is also very important.

除了考量產品品質，實際使用後的維護和清潔也非常重要。

### Glass/Filmed glass

- Wipe the shower glass dry with a soft dry cloth or squeegee after each use to prevent water spots.
- Occasionally wipe the glass with a soft cotton cloth and warm soapy water or neutral detergent.
- Keep the shower door ajar after use to reduce mildew growth.

### Aluminum/Stainless steel door frame

- Protect the metal frame from exposure to sunlight.
- Do not use corrosive liquid or abrasive materials to clean.
- Do not use sharp objects to scrape the surface. If the surface becomes stained, wipe it with a mild detergent and water.

### Handles & Hardware

- A soft, dry cloth or squeegee should be used for daily maintenance.
- If there is a stain, clean with a soft cloth and a stainless steel brightener or toothpaste.

### 玻璃/貼膜玻璃

- 每次使用後，請用柔軟乾布或玻璃用橡膠刮刀將玻璃擦乾，可防止水漬殘留在玻璃上。
- 偶爾使用柔軟棉布和溫肥皂水或中性清潔劑擦拭玻璃。
- 使用後請保持淋浴拉門半開，以減少黴菌滋生。

### 鋁材/不鏽鋼框架

- 避免陽光直射金屬框架。
- 請勿使用具腐蝕性的液體或粗糙材質進行清潔。
- 請勿使用尖銳器具刮擦表面，若表面變髒，請用中性清潔劑和水擦拭。

### 把手與五金件

- 日常維護請使用柔軟乾布或橡膠刮刀。
- 若有污漬，請用軟布和不銹鋼清潔劑或牙膏擦拭。
