

37340-9 IN LINE STOP VALVE

BEFORE YOU BEGIN

All information is based on the latest product information available at the time of publication. Kohler Co. reserves the right to make changes in product characteristics, packaging, or availability at any time without notice.

Please leave these instructions for the consumer. They contain important information.

NOTES:

1. Flush the water supply pipes thoroughly to remove debris.
2. Do not remove the plaster guard from the valve body until instructed to.
3. Install valve 16088 or 16089 according to the rough-in dimensions of 37340-9.

ROUGH-IN DIMENSIONS

INSTALLATION

NOTE: Install valve 16088 or 16089 according to the rough-in dimensions of 37340-9.

Loosen the screw(1), and remove the plastic guard(2) after completed the finished wall.

Slide the escutcheon(3) onto the sleeve kit(4), and slide the sleeve kit onto the stem(5) of valve. Press the adapter(6) onto the stem of valve. Remove the plug button(7) from the handle(8), and loosen the screw(9) in handle with the hex wrench(10). Press the handle onto the adapter. Tighten the screw(9) with the hex wrench, then reinstall the plug button.

The illustration shown is the correct position of the handle in the closed position.

CLEANING INSTRUCTIONS

All Finishes: Clean the finish with mild soap and warm water. Wipe entire surface completely dry with clean soft cloth. Many cleaners may contain chemicals, such as ammonia, chlorine, toilet cleaner etc. which could adversely affect the finish and are not recommended for cleaning.

Do not use abrasive cleaners or solvents on Kohler faucets and fittings.
