

3962 BATH SPOUT

BEFORE YOU BEGIN

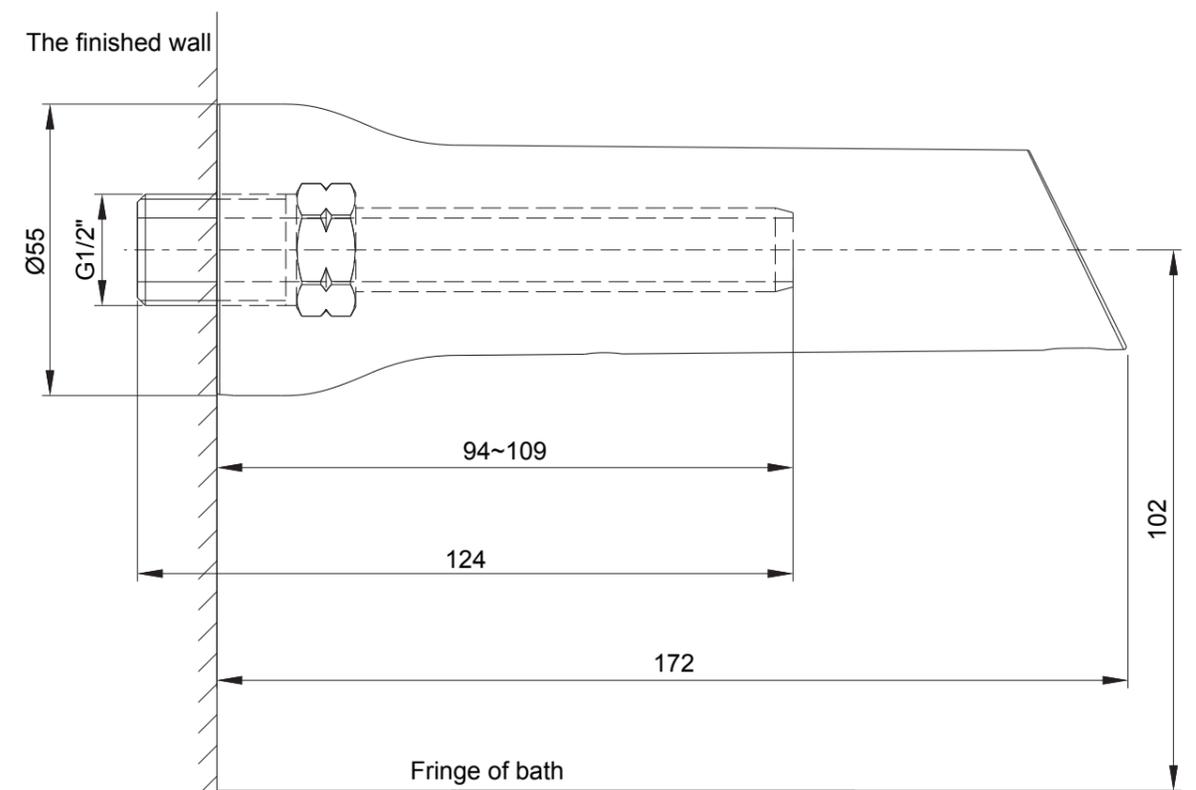

All information is based on the latest product information available at the time of publication. Kohler Co. reserves the right to make changes in product characteristics, packaging, or availability at any time without notice.

Please leave these instructions for the consumer. They contain important information.

NOTES:

1. Flush the water supply pipes thoroughly to remove any debris.
2. Shut off the water supplies to the fitting.
3. Observe all local plumbing and building codes.

ROUGH-IN DIMENSIONS

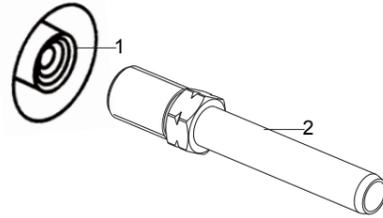

INSTALLATION

How To Install The Outlet Bush

To perform installation, installer must provide G1/2" female supply fitting(1).

NOTE: The supply fitting should be not beyond, but below the finished wall less than 18mm, and be vertical with finished wall as well.

Apply tape or thread sealant to G1/2" threads of the outlet bush(2). Install the outlet bush onto the supply fitting. Secure it with a wrench and make it extend 94~109mm beyond the finished wall.

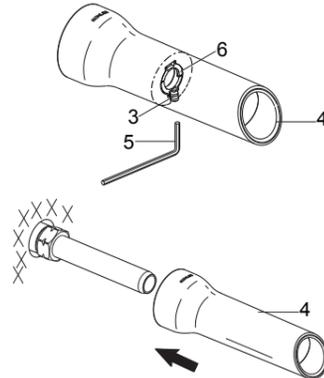

How To Install The Spout

Loosen the screw(3) on the bottom of the spout(4) with the hex wrench(5), make the outlet bush can be installed.

NOTE: Do not fall the clamp(6) off.

Apply a ring of plumbers putty or other sealants to the spout base. Install the spout kit onto the outlet bush, adjust the spout kit to the setscrew hole downwards. Be carefully tighten the setscrew at the bottom of the spout kit by the hex wrench provided. Remove any excess putty.

OPERATING INSTRUCTION

Change the aerator(7), if needed. Press the bulge(8) of the aerator on the underside of the spout, remove the aerator, then install the colour aerator into the spout.

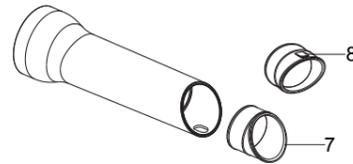

INSTALLATION CHECKOUT

Ensure that all connections are tight. Ensure that the handle is in the off position.

Turn on the drain and main water supply, and check for leaks. Repair as needed.

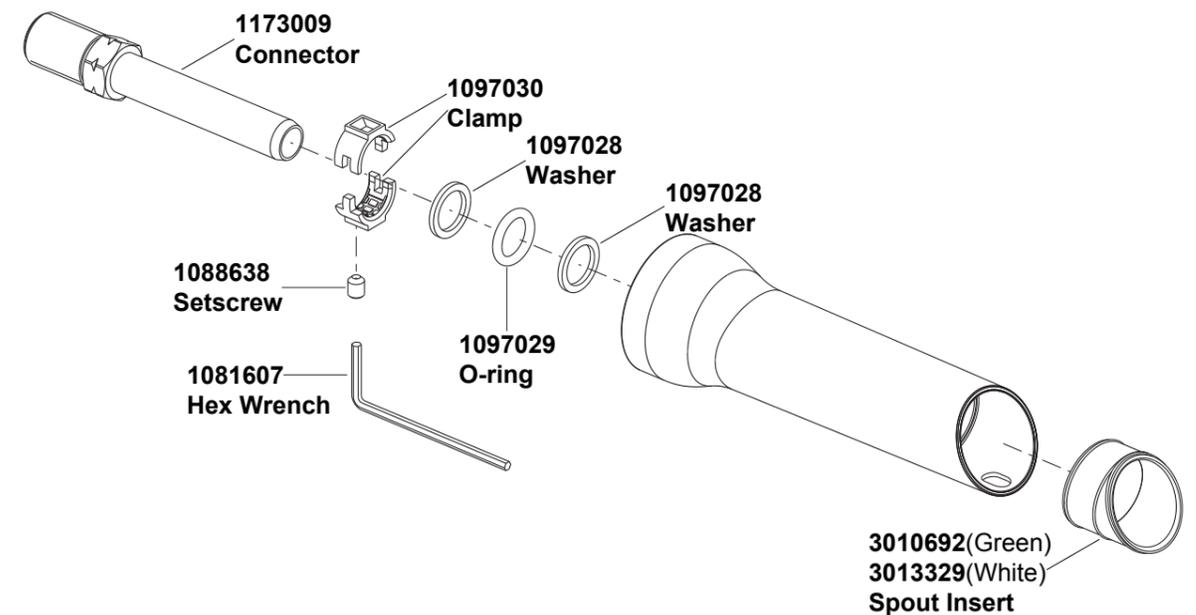

Press the bulge(8) of the aerator(7) on the underside of the spout, and remove the aerator. Run the water through the spout for about one minute to remove any debris. Remove any debris from the aerator. Turn off the water supply. Reinstall the aerator.

CLEANING INSTRUCTIONS

All Finishes: Clean the finish with mild soap and warm water. Wipe entire surface completely dry with clean soft cloth. Many cleaners may contain chemicals, such as ammonia, chlorine, toilet cleaner etc, which could adversely affect the finish and are not recommended for cleaning.

Do not use abrasive cleaners or solvents on Kohler faucets and fittings.
