BEFORE YOU BEGIN

All information is based on the latest product information available at the time of publication. Kohler Co. reserves the right to make changes in product characteristics, packaging, or availability at any time without notice.

Please leave these instructions for the consumer. They contain important information.

NOTE:

1. Observe all local plumbing and building codes.
2. Flush the water supply pipes thoroughly to remove debris.
3. The highest working pressure for spray is 0.5MPa (5 bar). If it exceeds 0.5MPa(5 bar), a pressure reducer is needed.
4. The highest water and environment temperature is 60°C.
5. Please keep handspray away from heater, or it may get damaged and cause injury to the user.

INSTALLATION

Put the Washer (2) into the Shower hose (3) connector, screw the hand spray (1) to the Shower hose. Connect another end of Shower hose (3) to the water supply.

NOTE:

If working pressure is too low, Flow Regulator is not recommended.

CLEANING INSTRUCTIONS

All Finishes: Clear the finish with a mild soap and warm water. Wipe entire surface completely with a clean & soft cloth. Many cleaners may contain chemicals, such as ammonia, chlorine, toilet cleaner etc., which could adversely affect the finish and are not recommended for cleaning.

Do not use abrasive cleaners or solvents on Kohler faucets and fittings.

To dislodge debris and mineral build-up, run water through the showerhead. Firmly rub your finger back & forth across the spray holes in the showerhead face.
