

KOHLER®

INSTALLATION INSTRUCTIONS

CONICAL BELL VESSEL VITREOUS CHINA ABOVE-THE-COUNTER LAVATORY

K-2200-G

BEFORE YOU BEGIN

NOTES

- Use these instructions for above-counter installation. Please follow the instructions that apply to your installation.
- You can choose between a wall-mount or countertop faucet installation, depending upon the setting and styling you desire. We recommend a wall-mount faucet.
- Prior to installation, unpack the new lavatory and carefully inspect it for damage. Return the lavatory to its protective carton until you are ready to install it.
- All information in these instructions is based upon the latest product information available at the time of publication. Kohler Co. reserves the right to make changes in product characteristics, packaging, or availability at any time without notice.
- These instructions contain important care, cleaning, and warranty information. Please leave these instructions for the consumer.

ROUGHING-IN DIMENSIONS

K-2200-G

Fig. #1

Roughing-In Notes

Fixture dimensions are nominal and conform to tolerances in ASME Standard A112.19.2M.

(T) Pop-up drain 229mm.

(S) 356mm (Based on 305mm riser which may require cutting).

* Spout must be 127mm long (min.) for adequate clearance into lavatory when installed with centerline as shown.

** Spout must be tall enough to clear 76mm rim height and provide a 25mm air gap per ASME A112.1.2.

TOOLS AND MATERIALS REQUIRED (Not supplied)

- Sealant
- Template (supplied)
- Safety glasses
- Pencil
- Scissors
- Tape Measure
- Hole Saw
- Keyhole saw or saber saw
- Drill (1/2" dia. Drill bit, or larger)
- Screwdriver

COUNTERTOP INSTALLATIONS

Position the template on the countertop.

For Wall-mount Faucets: Be sure to provide sufficient spout overhang into the lavatory. See the roughing-in notes for minimum spout length information.

For Countertop Faucets: Pay special attention to the spout and handle fit clearance when locating the faucets, as noted below. Use the template to locate the faucet spout hole centerline on the countertop. This centerline is recommended to provide adequate clearance between the edge of the lavatory and the spout.

Check for adequate clearance between the backsplash or wall faucet spout and handles, and lavatory. We recommend clearance of at least 25mm between:

- The installed lavatory and the faucet spout,
- The installed lavatory and the end of the faucet handles, and,
- The faucet spout and handles and the backsplash or wall.

Refer to the faucets installation instructions for required clearance, and mark the preferred faucet hole locations using a soft lead pencil.

Trace the template on the countertop using a soft lead pencil.

Fig. #2

Cut out the opening by carefully following the pencil line.

CAUTION: Risk of personal injury or product damage. Large lavatories are very heavy. Get help lifting the lavatory into place.

Temporarily position the lavatory in the countertop cutout so the "Kohler" logo is visible. The logo is located inside the lavatory, near the rim, and should be positioned near the faucet.

Verify proper clearance between the lavatory, faucet, and backsplash.

Remove the lavatory from the countertop cutout, and return it to its protective carton. Do not stand or store the lavatory on the drain surface.

Fig.#3

Drill the faucet holes.

Install the faucet to the countertop according to the manufacturer's instructions.

Install the drain to the lavatory according to the installation instructions included with the drain. Apply a sufficient amount of clear silicone sealant when you install the drain.

For tile, wood, or other porous materials, apply waterproof sealant around the cutout area of the countertop surface. Follow all manufacturer's instructions and warnings. Allow the sealant to dry before proceeding.

Use a 50/50 mixture of isopropyl alcohol and water to clean the countertop surface around the cutout area. Wipe dry with a clean cloth.

NOTE: Install the adhesive sealant when the temperature is at least 10°C. The preferred temperature range to apply the adhesive sealant is 21°C to 38°C.

Loosely apply the adhesive sealant around the entire countertop cutout so it is alongside the cutout hole. Adjust the placement of the sealant before removing the backing material. Cut off any excess seal material. Carefully remove the adhesive seal backing material.

Fig.#4

CAUTION: Risk of personal injury or product damage. Large lavatories are very heavy. Get help lifting the lavatory into place.

Note the location of the "Kohler" logo. The lavatory should be installed so the logo is visible after installation.

Carefully position the lavatory in the cutout, and press down firmly.

Fig.#5

Connect the faucet supply lines.

Connect the drain assembly.

Open the faucet valves, and check for leakage.

Clean up with a non-abrasive cleaner.

Fig.#6

IMPORTANT CONSUMER INFORMATION

CLEANING YOUR VESSELS LAVATORY

Keep your vessels lavatory looking new by rinsing it out thoroughly after each use. Do not regularly use abrasives on the lavatory surface, as this will eventually

scratch and dull the surface. For stubborn stains, abrasives may be used sparingly.

USE & CARE

THIS TAG IS FOR REMOVAL BY HOMEOWNER ONLY!

Treat your decorative product just as you would treat your fine china. The best way to clean it is to use warm water and pat dry with a cotton cloth or soft sponge. **DO NOT** use bristle brushes or abrasive-backed sponges. They will scratch the decorative surface.

For occasional cleaning of stubborn deposits, use **ONLY** the following cleaners: apply the cleaner, wipe gently, **rinse off any residue immediately**. Pat dry or wipe gently with a cotton cloth.

LIMITED ONE-YEAR WARRANTY

Kohler plumbing fixtures and fittings are warranted free of manufacturing defects.

Kohler Co. will, at its election repair, replace, or make appropriate adjustment where Kohler Co. inspection disclosed any such defects occurring in normal usage within one year after installation. **Kohler Co. is not responsible for installation costs.**

To obtain warranty service, contact Kohler Co. either through your Dealer or Plumbing Contractor or by writing Kohler Co., Attn: Consumer Affairs Department, Kohler, WI 53044 U.S.A.

IMPLIED WARRANTIES, INCLUDING THAT OF MERCHANTABILITY, ARE EXPRESSLY LIMITED IN

DURATION TO THE DURATION OF THIS WARRANTY. KOHLER Co. DISCLAIMS ANY RESPONSIBILITY FOR CONSEQUENTIAL DAMAGES.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so this limitation and exclusion may not apply to you. This warranty gives you specific legal rights. You may also have rights which vary from state to state.

This is our exclusive written warranty.
