

PROPANE: GET THE FACTS

WHAT IS PROPANE?

Propane is a popular, affordable, clean-burning fuel. Odorless, colorless and nontoxic, it's a gas that's normally stored as a liquid. An identifying odor is added so it can be detected. It's known as liquefied petroleum gas, LP or LPG.

BUYING PROPANE

Propane is sold through more than 6000 retail locations in the United States. Supply and delivery programs can be customized to fit your needs. Find a local retailer at usepropane.com

REFUELING OPTIONS

You can skip the trips to the gas station. Refueling propane is easy, with solutions delivered right to your door. There are three on-site fuel delivery options:

BULK TANK INSTALLATION

- Lowest propane cost
- Refill your own cylinders on-site
- Owned, leased or amortized equipment options available
- Best when operating 3+ pieces of propane-powered equipment
- Your propane distributor monitors your usage and refills your bulk tanks as needed

ON-SITE FILLING

- Slightly higher propane cost
- Your propane distributor refills your cylinders on-site as you empty them

CYLINDER EXCHANGE

- Highest propane cost, but lower than gasoline cost
- Your propane distributor monitors your use and exchanges empty cylinders with full cylinders onsite

SERVICING PROPANE ENGINES

Servicing a propane engine is very similar to servicing a gasoline engine. In addition to the KOHLER dealer network, most OEM equipment dealers are qualified to service KOHLER propane engines. Some regions or areas may require technicians to have special certification.

WHY **PROPANE?**

LOWER COSTS

Commercial users who switch to propane report immediate fuel savings.

FEWER EMISSIONS

Using propane helps reduce harmful emissions compared to conventional fuels.

EASY ON-SITE REFUELING

Skip the trip to the gas station – fuel can be delivered right to your door.

REDUCED FUEL SPILLS AND THEFT

Propane's closed fuel system virtually eliminates harmful spills and reduces fuel theft.

GET PAID TO TRY PROPANE

PERC (the U.S. Propane Education and Research Council) offers \$1000 or greater incentives on qualifying mower purchases or repowers using KOHLER® propane engines.

- Visit poweredbypropane.org to get started.*

In addition to PERC rebates, some states offer \$500-\$2500 rebates for new propane mowers powered by KOHLER® propane EFI engines.

- Visit kohlerengines.com/propane_incentive to find current rebate programs.

*Participation is subject to program guidelines. A limited number of incentives are available.
