Battery Heater Kit  
with Wrap and Pad, Typical

Battery Heater Kit  
with Wrap, Typical

## Applicable Models

- 8.5/12/17/18RES/RESL
- 8/10/12RESV/RESVL
- 14/20RES/RESL
- 14/20RESA/RESAL, 120 Volts
- 14/20RESA, 240 Volts
- 15/30RES/RESA
- 15/30RYG/REYG
- 20RESB
- 20RESC/RESCL, 120 Volts
- 20RESC, 240 Volts
- 20RESD
- 24/30RCL
- 38/48/60RCL
- 38RCLB
- 48RCLA
- 40-150ERES (includes ERESB, ERESC, and ERESD)

## Description

The battery heater kit includes a battery heating wrap to help increase the battery temperature in cold climates. Some kits also include a heating pad to install under the battery. The battery heaters are connected to a thermostat for controlled heating. When temperatures fall below 18°C (65°F), the thermostat activates the battery heaters, maintaining optimum battery temperature. The thermostat turns the heater off at 27°C (80°F).

Battery heater kits are recommended for generators installed in regions where the temperature regularly falls below 0°C (32°F).
