

KOHLER® Rinse

A pail-flush toilet preserving health and dignity.

More than two billion people live without basic sanitation,* and millions still practice open defecation. The impact to health and safety is dire, especially for children and vulnerable populations. The KOHLER Rinse™ pail-flush is helping to change that reality.

Affordable and durable, the Rinse pail-flush provides individuals the comfort and dignity of a seated sanitation solution. The flush is activated simply by pouring water into the bowl, making it ideal for communities without a waste-management infrastructure.

FEATURES AND BENEFITS

- **Cleanliness:**
Glazed bowl resists scratches and stains
- **Installation:**
Straightforward design does not require electricity or piped water and is adaptable to pit, tank, and traditional sewer system installations, with both concrete and wood flooring
- **Water Efficiency:**
Pour-flush system minimizes water usage and effectively flushes with as little as two liters of water
Testing has shown that using as little as two liters of water, introduced from a standing waist height, this bowl effectively and repeatedly removes simulated bulk waste (ASME miso-paste logs) in excess of estimated human waste output
- **Durability:**
Quality vitreous china bowl designed to withstand poor water conditions and the wear and tear of common use
- **Safety:**
Water trap seals against odor and insects

About Innovation for Good®

Innovation for Good (IfG) is Kohler's in-house startup composed of Kohler Co. entrepreneurs who are commercializing business opportunities with a social purpose. Since 2011, IfG has brought together associates from across businesses, skills, and perspectives in an innovation incubator designed to explore products and solutions for pressing global, social, and environmental issues. We believe that the private sector has an important role to play in the development of scalable solutions that improve people's lives, and we are committed to doing our part.
