THE BOLD LOOK
OF **KOHLER**®

Honed White

Sense and sensuality

The soft, natural surface of river rock graces the bathroom with Honed White from Kohler. This new, exclusive surface, now available for our Rêve™ Collection and other classic Kohler® products, captures the look and feel of traditional honed stone in a vitreous, matte-smooth surface that's as contemporary as it is timeless. The handcrafted feel of Honed White gently balances other design elements and envelops you in a calm, meditative space. Its tranquil touch and soft lines invoke a simple, honest beauty, making you feel relaxed and connected.

Paired with KOHLER Brushed Gold faucets, Honed White provides the backdrop for a sophisticated and unexpected design palette. This versatile combination balances the bold with the sensual and proves that luxury and restraint are not mutually exclusive. The possibilities for designers and specifiers are not only unprecedented, but also unavailable from any other manufacturer.

Never before have the qualities of traditionally honed stone been so readily available. Our exclusive manufacturing process allows us to apply a durable premium surface that is easily maintained without the expensive, time-consuming cleaning techniques that other stone finishes require. When balancing uncommon individual expression with surprising economy, Honed White offers a rare and distinctively personal aesthetic.
