| Shower trim with diverter button | K-T45108-4 |
| Mixing valve trim, less diverter button – ADA compliant | K-T45110-4 |
| Mixing valve trim with diverter button – ADA compliant | K-T45112-4 |

| Required accessories: | |
|---|---|
| Rite-Temp® pressure-balancing valve **OR** | K-304-** |
| HiFlow Rite-Temp valve with stops **OR** | K-2971-** |
| Rite-Temp valve with push-button diverter | K-11748-** |
| ** For a complete listing of all the Rite-Temp valves, refer to the individual valve Specification Sheet or Roughing-In Sheet. | |

## Installation Notes

Install the valve trim according to the installation guide.

Install the Rite-Temp valve according to the installation guide.

**NOTICE: Risk of product damage.** Long screws, for installing trim, can damage the K-2971-KS valve. Consult the trim installation guide to verify if the thin wall installation kit (88526) is needed.

Avoid cross-flow conditions. Do not install a shut-off device on either valve outlet.

Cap the shower outlet if the deck-mounted spout, diverter, or handshower is connected to the spout outlet.

Install a 7″ (178 mm) to 18″ (457 mm) straight pipe or straight tube with single bath elbow between the valve and the wall-mount spout.
