

Ellesmere™ Bath
new from Hytec

discover the
shape of serenity

Ahead of the curve in style and comfort.

Slip into a cocoon of tranquility when you enter the Ellesmere™ bath and emerge refreshed. The bath's ergonomic design conforms to and supports your body for outstanding comfort. Its unique bathing well offers lumbar support at each end as well as extended legroom, so even tall bathers can lie back and stretch out. Ellesmere baths feature a wide deck along one side that serves to simplify faucet placement and installation or to provide extra support when entering and leaving the bath. Offering a contemporary perspective on an essential form, the bath introduces natural warmth and inviting simplicity to the bathroom.

Built to withstand the demands of daily use, the bath itself is constructed of stain- and chip-resistant material to resist marring, scratching, fading and mildew.

HYTEC® — a union of practicality and design

The HYTEC line is valued by contracting and plumbing professionals as well as remodelers for quality, design, function and service. Like every HYTEC product, the new Ellesmere bath combines rugged materials and shimmering, colourful finishes.

The list of comfort and convenience options includes KOHLER Full Line and High Fashion colours and a number of enhanced bathing options.

Ellesmere models **3990S** and **AC3995** are available with the following enhanced bathing options:

BT: BubbleAir™ system

BTCE: BubbleAir with chromatherapy

Note: Model **3990F** is not available with enhanced bathing options.
