

From products that perfectly combine design and technology

Living on the Leading Edge of Design and Technology

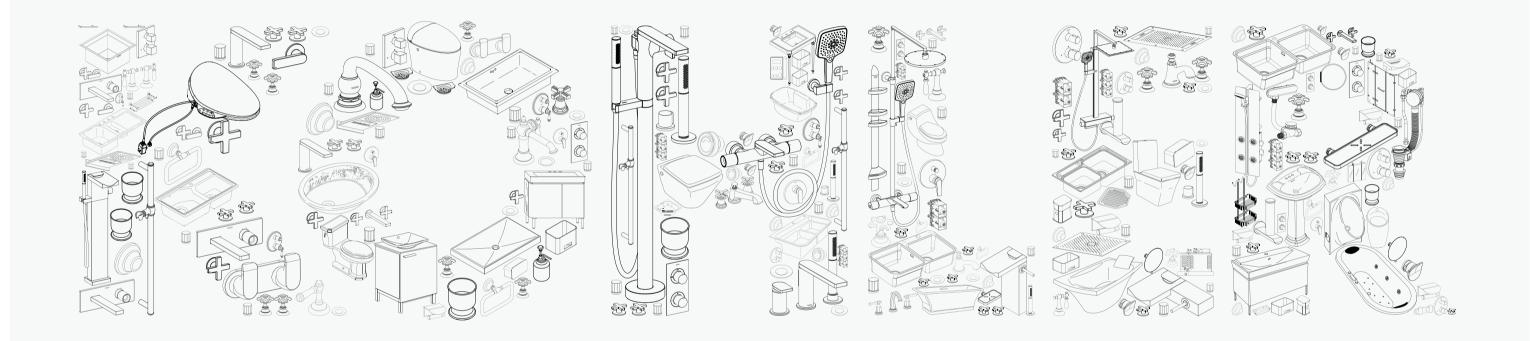

to overall kitchen and bathroom solutions,

KOHLER brings a gracious living to every customer

A singular level of exceptional quality. It's the guiding principle that Kohler Co. has been founded upon. Because of this commitment, we are constantly making breakthroughs, from single sanitary products to overall kitchen and bathroom solutions. KOHLER continuously enriches its product line, integrating outstanding design, innovative technology and creative artistic inspiration.

KOHLER has long been one of the most recognized brands around the world. In 2016, Fortune Magazine named Kohler one of the "25 Most Important Private Companies," citing KOHLER'S "highly influential" impact on kitchen and bath design.

# Ceramic disc valves Imported European valves have extraordinary quality. Solid ceramic material ensures durable performance. Kohler ceramic disc valves exceed industry longevity standards for a lifetime of durable performance. Smooth cartridge design brings silky experience. \*Kohler internal testing numbers for reference

## Finish Our vibra industry spassing m corrosion. Easy-to-d technology

### Finish with confidence

Our vibrant finishes have exceeded the industry standard 24-hour salt spray test, passing more than 48 hours of testing with no corrosion.

Easy-to-clean coating with unusual finish technology.

### Innovative materials and technology

PVD coating offers more than 10 finish choices.

The Strayt collection offers a unique blend of both Western and Chinese styles.

The decorative collection applies unusual material to express the purity of water.

ACH Diane Azurite

### A variety of aerators

Aerator adjustable by 7 degrees helps to reduce splashing; Silicon material makes cleaning easy, improving cleaning experience.

Auto-clean aerator automatically removes scale deposits to ensure a smoother water flow.

Easy-to-change aerator, can be changed simply with a coin.

Eco-flow aerator provides larger water coverage, meets the water-saving standard.\*

\*Water-saving standard -0.1L/S

## Beito

The Beitou<sub>™</sub> faucet collection from Kohler strikes a balance between architectural forms and the stunning displays of nature. The result is a peaceful interplay of invention and appeal that speaks to quiet moments of sanctuary.

# **Shape the Ultimate Showering Experience**

## Design

The voluminous forms and approachable designs are inspired by iconic furnishings, bringing form and finish to the forefront without overwhelming the space.

## Experience

Signature spray experiences create wholly immersive environments that drench the body and relax the mind, fostering a sense of wellbeing.

# Ease of Specification

A diverse portfolio and universal designs that align with global standards allow for unrestrained creativity and seamless specification—anywhere in the world.

## Ease of Installation

The collection features an array of uncomplicated forms, ensuring simplified installation in global regions.

\*detailed product information coming soon

KOHLER.

130

# Versatile Controls, Transformative Experiences

## Design

The clean, unexpected look of Anthem controls is reminiscent of common household appliances, while remaining intuitive and familiar.

## Experience

Advanced outlet control provides independent access to each shower component. With precise command over temperature and volume, users can enjoy a highly personalized experience.

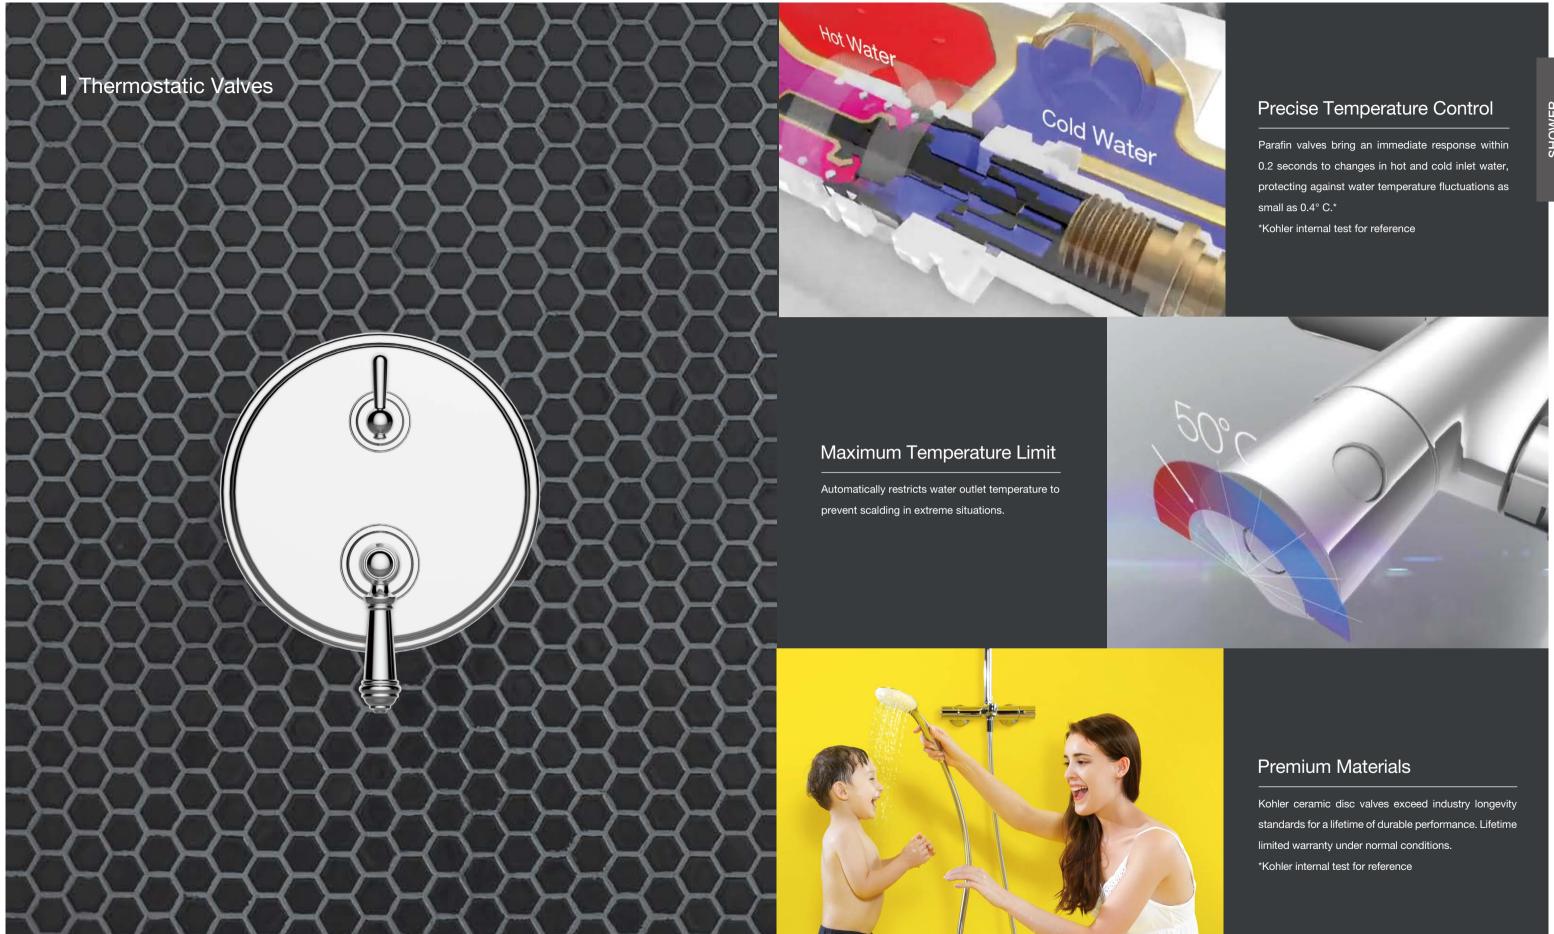

## Ease of Specification

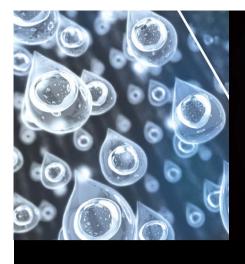

The universal design aligns with global standards and can accommodate up to six outlets in a single control. The result is truly seamless specification, anywhere in the world.

## Ease of Installation

Needing only hot and cold inlets, Anthem valves reduce the number of required connections behind the wall for a refreshingly simple installation.

\*detailed product information coming soon

# Katalyst air-induction technology

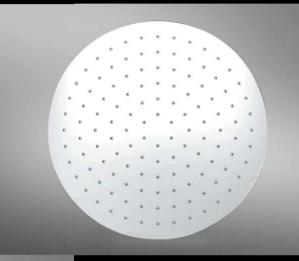

Infuses 50% more air into your showering products, effectively reducing water use by 50%.\*

\*Kohler internal test for reference

## Optimized nozzle design

Scientifically designed nozzle distribution optimizes water coverage and comfort, ensuring the best showering experience ever.

The large 1.3mm nozzle creates bigger water drops with less water by mixing in air.

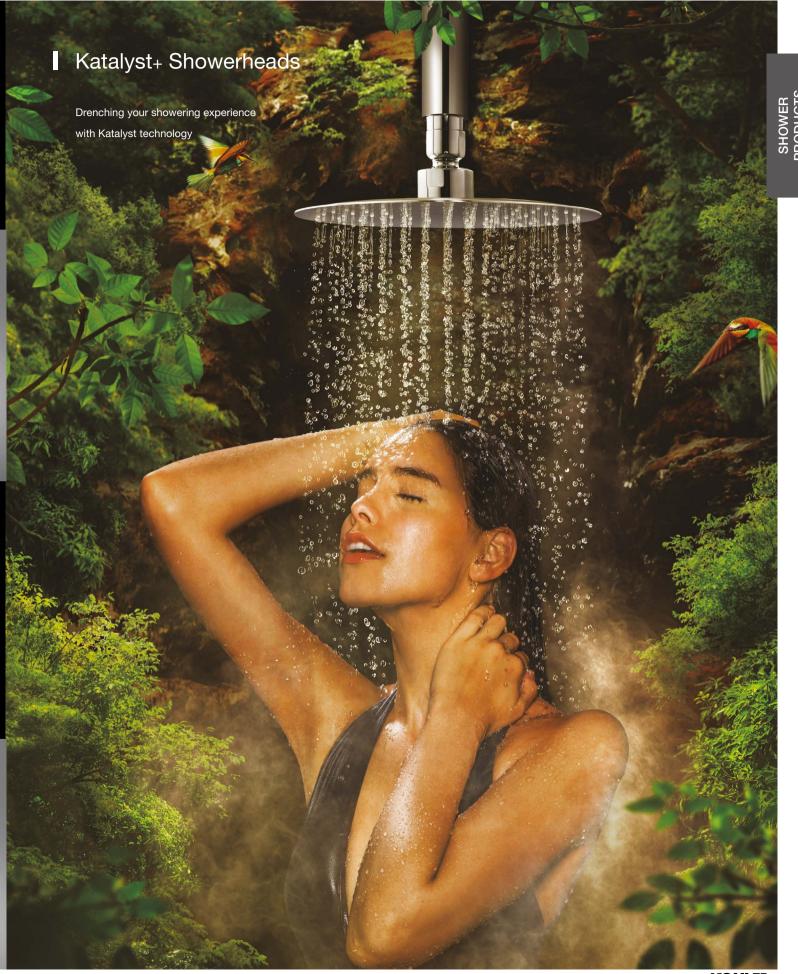

## Advanced internal structure

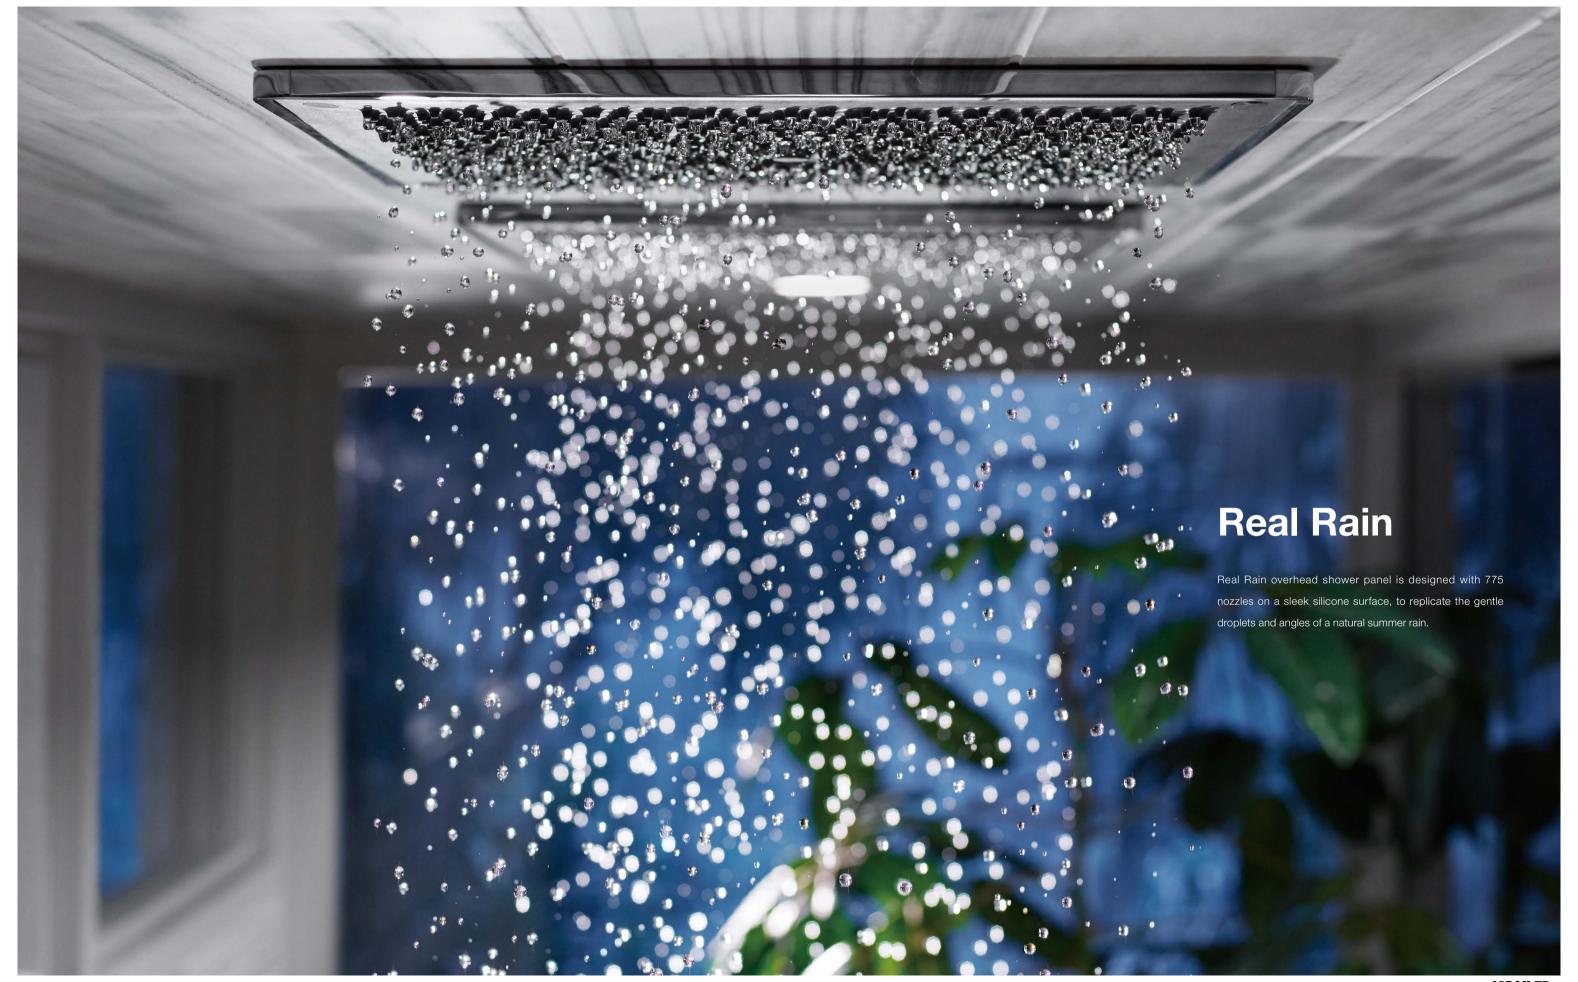

Upgraded waterway distribution ensures better mixing of water and air, reducing residual water. The structure is more robust with added hidden screws and fewer exposed ones on the back plate.

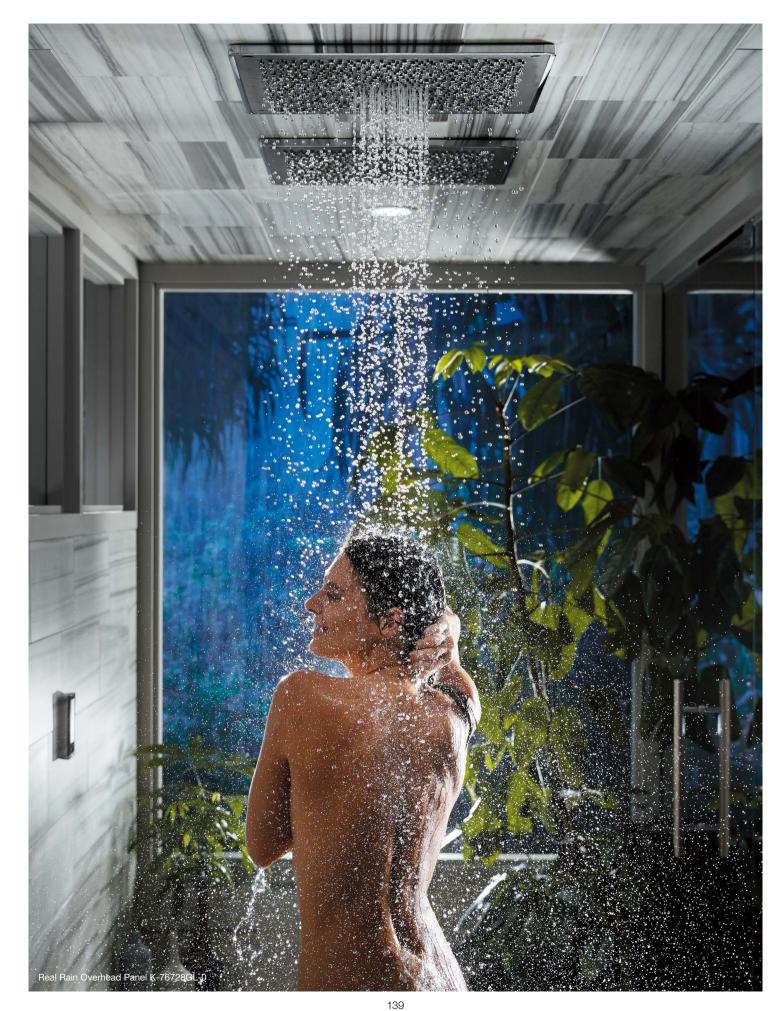

Self-levelling technology used on shower-heads also reduces residual water.

In a contemporary and minimalist design, the Airfoil shower panel with body sprays and handshower creates an extraordinary showering experience reminiscent of showering under a beautiful, energizing waterfall. Featuring Katalyst<sub>TM</sub> air-induction technology that infuses two liters of air per minute into the water, the result is complete showering coverage with full, heavy water drops. In addition to the panel, other options include wall-mount and ceiling-mount Airfoil showerheads.

AIRFOIL-XINYUE Shower Panel K-45219T-7-CP Dimensions: 1445 x 349 x 454 mm

With a fun, innovative design and four different spray experiences, Flipside delivers a unique and indulgent showering experience. By flipping the sprayhead on its axis, you can seamlessly switch between four distinct spray types: an enveloping coverage spray; a dense, soft spray; an exhilarating circular spray or a targeted massage spray.

KOHLER. \* ECO Flow 163 164 \*\* for HK Market

Inspired by carefully considered shower upgrades, the Modulo valve system is a platform that makes it simple to install a variety of valve configurations into a range of wall types and showering options, to give you the ultimate in personalized showering. Choose the valve that will create the showering experience you want — from a basic shower to a home spa experience. Combine it with a stylish trim option and then install it in an arrangement perfectly suited to your needs. By starting with the Modulo valve system, you open up a world of KOHLER showering possibilities.

To restore urban shower water to its natural pure state, we introduce the Exhale Shower Filter, to hydrate skin when showering. The Exhale Shower Filter can effectively remove impurities and harmful substances from water, such as residual chlorine and heavy metal to bring you a fantastic showering experience for exceptional skin and hair care.

Improved efficiency of removing residual chlorine and heavy metal in water. Indicator reminds you when its time to replace the filter.

EXHALE+ Shower Filter Replacement K-R21813T-NA

- Vitamin C- and KDF55-infused removes residual chlorine and impurities from the water. Indicator reminds you when its time to
- replace the filter.

EXHALE Shower Filter K-R72914T-CP

- Filters thoroughly and prevents scale
- buildup
   Indicator tells you when to replace the easy-to-change filter
   Simple, elegant design is compatible with any shower system

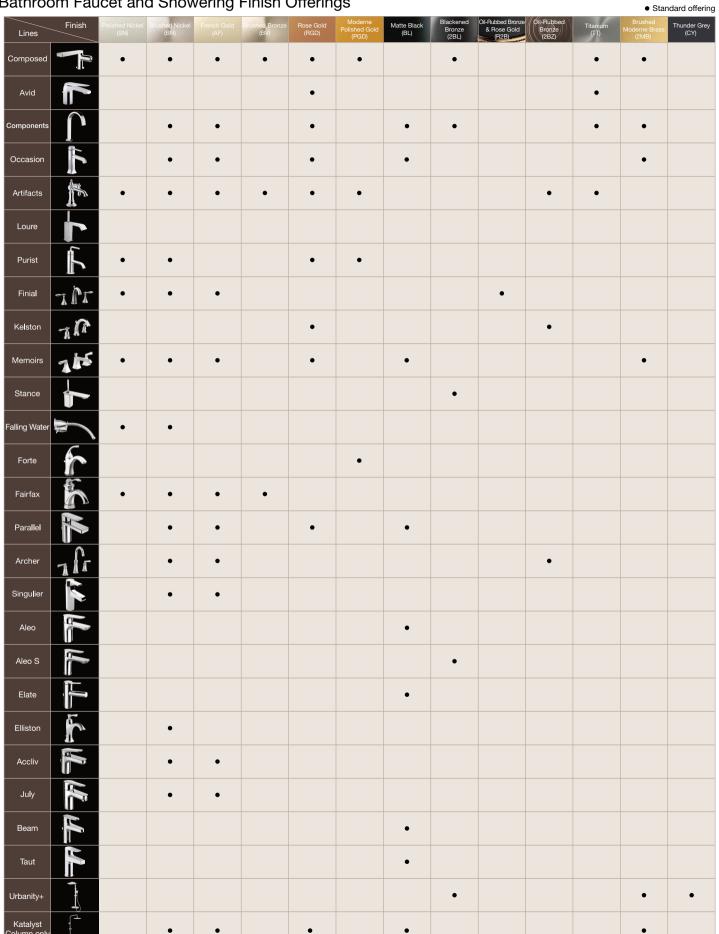

EXHALE Shower Filter Replacement K-R75751T-NA

Prevents scale buildup for better health

<sup>251</sup> 

# Faucet Functions

Helping you work faster and easier in the kitchen, our faucets include innovative features. Choose the functions that complement how you prep, cook and clean in the kitchen.

# The KOHLER® Advantage

Innovative designs and technologies - that's the KOHLER advantage. Magnetic docking, sprayfaces that withstand mineral buildup and effortless hose control provide functional versatility.

# DockNetik<sub>®</sub>

DockNetik is a magnetic docking system located within the spout that securely locks the pull-down sprayhead into place.

### **ProMotion**®

ProMotion technology combines a braided hose with a swiveling ball joint that won't kink or tangle for effortless sprayhead control.

255

# MasterClean<sub>™</sub>

The MasterClean sprayface withstands mineral buildup and wipes clean with a wet cloth.

## SwitchGrip<sub>™</sub>

The sprayhead on the Graze® semiprofessional faucet rotates in 90-degree increments, which allows you to set the spray button exactly where you prefer it - to the left, right, front or back.

Kohler offers one of the largest selections of faucet sprays, each designed with thoughtful technology to stay on task for years. Sprays help streamline kitchen tasks, quickly fill large pots with water, gently clean delicate fruits and sweep dirty dishes clean.

# BerrySoft<sub>®</sub>

Delicate fruits deserve a gentle touch. BerrySoft spray is light enough to gently rinse produce.

### Sweep<sub>®</sub>

Sweep your sink and dishes clean with Sweep spray's wide, powerful blade of water.

# **Boost**

With the touch of a button, Boost technology will increase your faucet's water flow by 30 percent.

## Ring

Great for everyday cleaning tasks, ring spray offers a precise and powerful flow of water.

### **Stream**

This option provides a full, aerated stream of water that's great for quickly filling large pots.

Effortless Control

Flexibility and Durability

Flexible hose and pull-out spout rotate freely to get to every corner of your sink without drips.

Easy-cleaning kitchenware focuses on the details

The Gonzalez sensor faucet uses the DockNetik™ system with internal magnets for quick, exact and convenient placement of the faucet head.

**DockNetik**™

Soft Spray

BerrySoft™ spray is designed for cleaning vegetables and fruits.

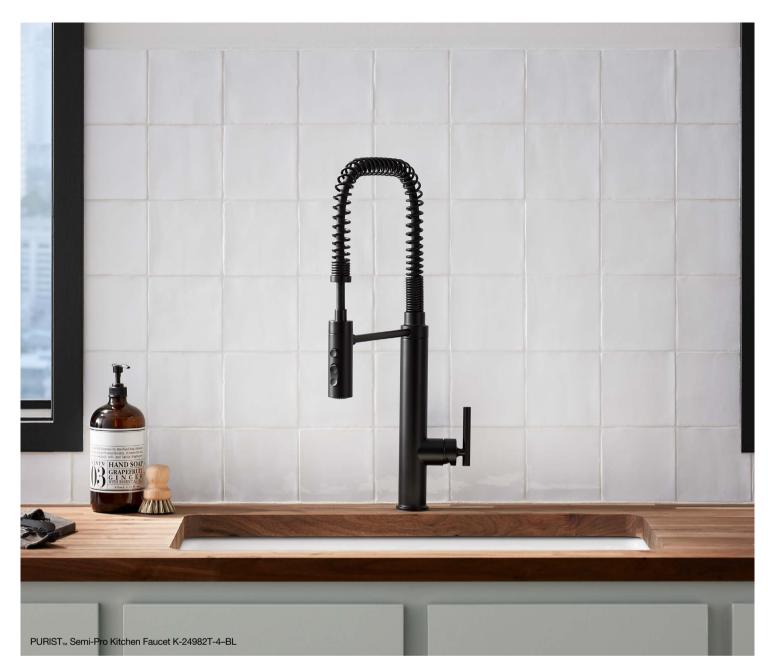

# Hands-Free Operation

KOHLER touchless kitchen faucets free your hands so you can speed through cooking and cleanup tasks while enjoying a cleaner, more hygienic kitchen environment. The intuitive Response™ technology is in tune with your every move: a simple wave of your hand — or an object such as a pan or utensil — turns it on or off. The sensor is precision-designed to provide quick response and reliable operation every time when you're working in the sink area.

Powerful Spray

Sweep™ spray is designed for cleaning dishes and bowls.

# KOHLER<sub>®</sub> Enameled Cast Iron

Nothing else has the solid presence and makes such a strong statement in the kitchen like KOHLER enameled cast iron. The rich, colorful finish makes its own bold statement as it complements your countertops and cabinetry. No other material offers the character and craftsmanship of KOHLER enameled cast iron. Its rich finish and lasting presence Its rich finish and lasting presence will bring beauty and elegance to your kitchen for years to come.

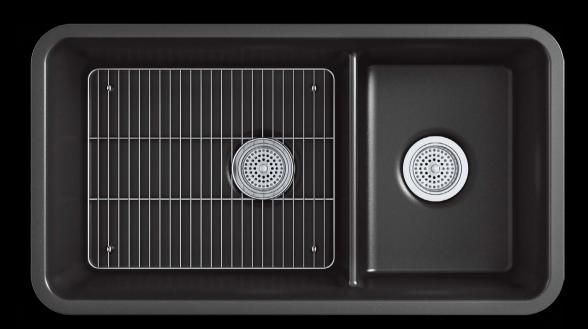

### STRENGTH

KOHLER enameled cast iron sinks withstand whatever your family dishes out, from heavy pots to searing skillets.

## STYLE

Go bold with deep hues, be subtle with pale tones or choose a finish that adds dimensional character.

Made in Kohler, Wisconsin, our cast iron sinks embody over 145 years of KOHLER craftsmanship.

# Stainless Steel

Stainless steel is eminently practical and extremely versatile. It's resistant to staining and easy to clean. Let your style shine with more than 120 stainless steel sink shapes, sizes and designs. It complements any kitchen and is a favorite of enthusiastic cooks and designers alike.

This classic, durable material lives up to its name. Hot pans won't hurt it and it's less less likely than harder materials to damage delicate dishware that may slip from your grip.

Stainless steel is rust- and stain-resistant and easy to clean; just give it a quick swipe with a sponge.

### SOUND ABSORPTION

Every KOHLER® stainless steel kitchen sink features SilentShield® sound-absorption technology which significantly reduces noise from clanging dishes, running water and garbage disposals.

Our line of Preserve stainless steel sinks features a unique scratch-resistant coating that offers even more protection to keep your sink looking newer longer.

# Neoroc<sub>®</sub> Composite\*

With a smooth matte finish that works beautifully with a variety of countertops, the rich, dimensional color of Neoroc adds warmth and style.

Neoroc composite sinks offer a warm matte finish designed to complement countertops with a solid color throughout.

### ROCK-SOLID DISIGN:

Exceptionally durable, Neoroc absorbs the impact of falling cookware and is scratch-, stain- and chip-resistant. Hot pots and pans won't damage the surface. \*KOHLER kitchen sinks are backed by a Lifetime Limited Warranty.

The iF Design Award is regarded as one of the most important design competitions worldwide and is recognized as a symbol of design excellence around the world. Submissions are judged by renowned experts, with the best designs receiving an iF seal of outstanding design quality. The best-of-the-best designs are awarded an iF Gold Award, known as the "Design Oscar".

Kohler Toobi prefilter won an iF Design Award in 2016 for its premium design, environment-friendly concept and excellent performance.

#### KOHLER WHOLE HOUSE FILTRATION

AERODYNE™ Central Filtration

#### **Premium Material**

Imported coconut shell activated carbon, combined with NSF-certified food-grade KDF particles, removes impurities, residual chlorine and heavy metals in the water, providing safe water for you.

#### **KDF Process Media**

KDF (Kinetic Degradation Fluxion) process media are using an oxidation/reduction (redox) reaction, which reduces heavy metal contamination, chlorine and hydrogen sulfide.

#### **Activated Carbon**

Coconut Shell carbon is an excellent filtration medium, having high density with a balanced pore structure for efficient absorption.

#### **Heavy Metal**

It can reduce over 90% of 77 harmful contaminants

#### **Less Maintenance & Less Costly**

Long-lasting cartridge reduces time and saves money

### **Compact & Space-Saving Design**

Lison Central Filtration has an easy-to-install design that saves you time and headaches. Plus, it can be installed in many places, at point of entry or point of use.

#### Soft water brings a healthy life

Aleutian<sub>™</sub> Water Softener Series

#### Food-Class Polyester Resin

Kohler water softener applies food-grade Rohm and Haas polyester resin, which is certified by U.S. Food and Drug Administration (FDA). Effectively facilitates the chemical reaction to eliminate Calcium and Magnesium, softening the water.

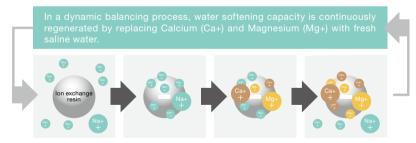

#### TIPS

Rohm and Haas polyester resin is regarded as the leading resin in filtration, with much more exchange capacity to take up Calcium and Magnesium ions.

#### Extends house appliance lifespan

Polyester resins are The negatively The positively As the resin

unsaturated synthetic charged resin beads charged Calcium becomes saturated resins formed by the attract the positively (Ca+) and Magnesium with Calcium and reaction of dibasic charged Sodium (Na+) (Mg+) ions that cause Magnesium ions, the organic acids and ions, beginning the hardness in water are exchange medium polyhydric alcohols. softening process. to the resin, and (regenerated) with thus they replace the fresh sodium ions, to Sodium (Na+) in the restart the process.

#### Self-regulating ensures soft water is always available

Economical and green, dual-regenerating system saves the softner and water by avoiding waterconsuming peak periods and regulates the cycle based on your own usage.

Self-regulating

#### Environment-friendly Holiday Mode

Easy configuration to extend resin lifespan when you are not around on holidays.

#### Purified Experience

Carafe<sub>™</sub> Point-of-Use Water Filter

## Bringing purified water to your eyes

Records every drop of water Time, flow, TDS volume under supervision

TDS instant display records every single drop of water

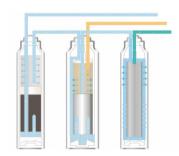

Status indicator informs you of lifespan and malfunction

Tank-free brings freshness and effectiveness With top quality DOW RO filter No stored water, more freshness High-speed water outlet Waste water rate lowered to 1:1 Filtered water

#### New Drinking Life

Kitchen Water Filtering & Heating System STANCE™ Series

Kitchen Water Filtering & Heating System STANCE is an integrated appliance for water purification and heating. You can precisely control the temperature and amount heated, for a healthy and convenient drinking experience.

Multi-stage Filtration Double carbon rods, reverse osmosis filtration, UV sterilization on dispenser.

Easily set desired temperature and amount Say goodbye to stale boiled water; freshly boiled water is ready in an instant anytime.

Lock in nutrition and taste Presets deliver the best taste: 40°C for Milk Powder, 85°C for Green Tea, 95°C for Coffee

25°C/500ml

Replenish the body's needs

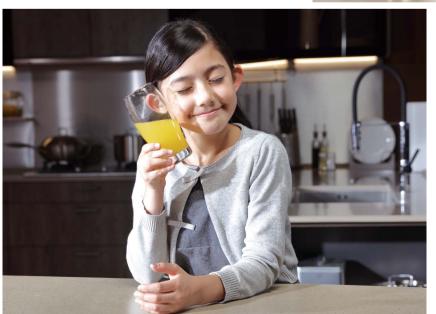

After getting up or exercising, drink a cup of warm water. Awaken the body to replenish moisture.

Lock in Health and Nutrition

Brewing milk powder for your baby at the right water temperature ensures the best nutrition and guards your baby's health.

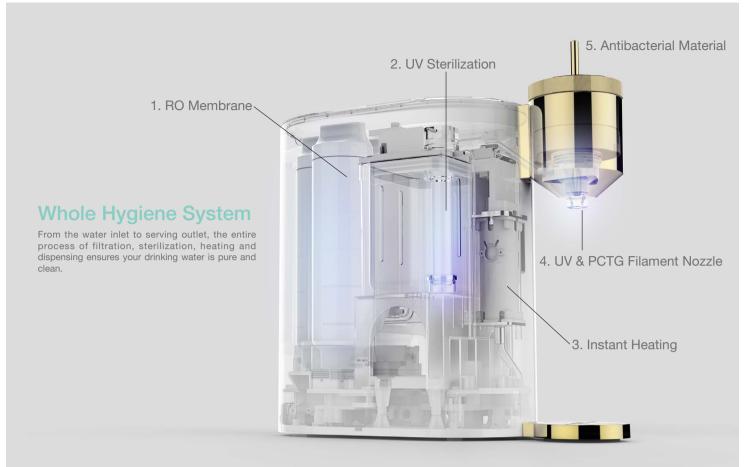

# 85°C&95°C

A Healthy Life

Pure water helps release natural taste and smell

The sweetness of green tea and the fragrance of coffee. Appreciation does not need to wait.

#### Filter Pitcher that can sterilize

Kohler Pitcher Symbol™ Series

#### Ultra-filtration, Ensures pure and carefree drinking water

#### Triple purification without residue

Activated-carbon from coconut shells and ultrafiltration membrane effectively removes impurities, residual chlorine and bacteria.

KOHLER

#### Fresh, pure water at your fingertips

Each filter cartridge can purify 200 liters of tap water to meet the three-month drinking needs of a family of three\* (\*Based on an estimated 800ML/person/day)

#### Ergonomic design

Light and convenient, easy to lift and move Smart reminder to replace the filter Separate water channels prevent secondary pollution

## LED displays filter life

Easily check status of filter
Timely reminder to replace filter

#### Transparent tank

Easy to clean
Easy to see the water level
Easy to use

#### Hermetic seal design

Prevents mixing of purified and impure water Ensures water quality

# Light and convenient

Easy to lift and move

#### Easy-to-replace filter

Round filter design is easy to remove Easy to replace without tools

#### Small but great for health and convenience

#### Ultrafiltration technology (PU type)

The Symbol Pitcher Series is a water purifier designed to use tap water as the water source. Using ultrafiltration technology based on KORTECH's natural gravity filtration system, its innovative hydrophilic materials and triple filtration system effectively remove bacteria, organic matter and residual chlorine caused by old urban water pipes or pollution and other harmful substances from the secondary water supply tank. The unique composite technology ensures the long-term safety of the water purification system.

First, water passes through a dense mesh filter made of non-toxic and odorless Polypropylene material, which can effectively remove floating particles in the water, such as rust and sand, and protect the core PU filter unit as well.

Second, the water passes through activated carbon with a high iodine number, which traps organic contaminants such as volatile phenol, chloroform and carbon tetroxide and rapidly absorbs residual chlorine to improve taste

Third, the water passes through a filter made of hollow fiber-membrane wire with very fine pores, which retains the beneficial minerals in tap water but further intercepts bacteria, suspended solids and other impurities in the water, to ensure pure water quality.
