KOHLER®

The Perfect Blend of Design Excellence and Performance
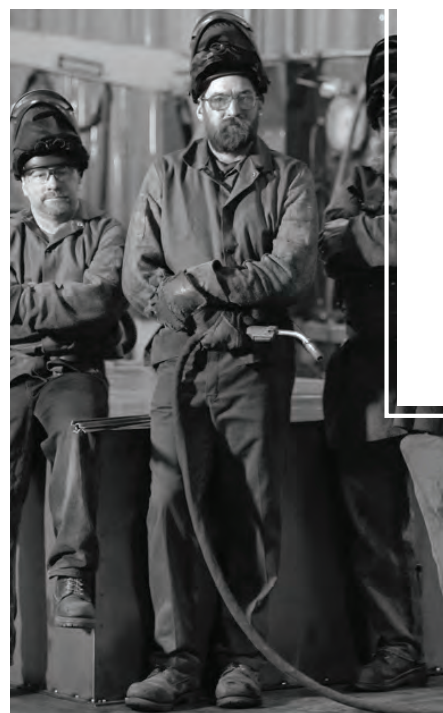

KOHLER

A Legacy in
The Making

OUR MISSION:
GRACIOUS LIVING

Since 1873™

KOHLER

Welcome to Kohler Company. Born in the USA over 145 years ago, we are a global leader in the kitchen & bathroom industry.

We are present on all continents with 50 manufacturing facilities, 30,000 staff and thousands of patents to our name. Four design centers on three continents with designers from various countries and backgrounds help us to be truly global while respecting local tastes and preferences.

Kohler Co. sets the standards of excellence and pushes the limits of design throughout the world. Whether we are creating kitchen and bath products, tile and furniture collections, engines and generators or luxury hotels and resorts to championship golf courses, our work is born from a desire to design experiences that make the world more gracious.

Over the years we have created and acquired an impressive portfolio of brand of which a few are presented in this brochure.

Bold means never compromising, never settling for what has always been and always challenging what could be.

David Kohler
President and CEO of Kohler Co.

CONTENTS

KOHLER®

Historic Milestones

The story of Kohler
Since 1873, Kohler Co. has been improving the level of gracious living by providing exceptional products and services for our customers' homes and their lifestyles. We believe better business and a better world go hand-in-hand. Fueled by the passion of more than 36,000 associates worldwide, we strive to enhance the quality of life for current and future generations through design, craftsmanship and innovation.

1883
World's First Cast Iron Bathtub
Pioneering advancement by Kohler sees first- ever 'manger' cast iron bathtub.

1967
The Bold Look of Kohler
Advertising Manager Armond "Bud" Grube, along with Charles Pagnucco and Alfred Ellrodt, developed the concept of boldly colored products under the tagline THE BOLD LOOK OF KOHLER®.

1985
Introduction of Artist Editions
The juice glasses we use every morning to the sideboard that holds our table linens, the objects we choose for our homes reflect who we are and narrate the rhythm and texture of our lives. Balancing artistry and craftsmanship with utility, Artist Editions products invite you to celebrate beauty and creativity each day.

2002
Kohler Thailand
Kohler Co. acquires Karat, which makes vitreous china products in Thailand for customers worldwide.

2008
Kohler with WaterSense® Award
The U.S. Environmental Protection Agency presents Kohler with its first watersense® award. Kohler has received every year since 2008.

2011
Numi,
Kohler Most Advanced Toilet
Numi Intelligent Toilet is launched in Asia and worldwide.
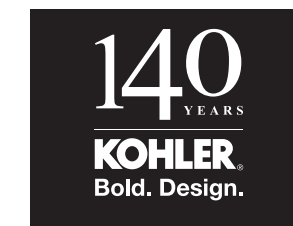

2012
Celebrate 10 Years
Kohler Thailand
Celebrating the 10th anniversary of Kohler Thailand.
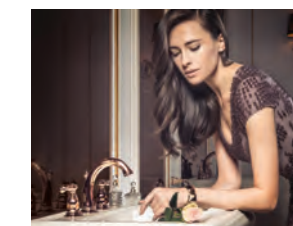

2013
Kohler Celebrates 140th Anniversary
Kohler Co. celebrates 140 years of cutting-edge design and innovations.

2014
Kelston Series Debuts,
Luxury Collection
A combination of classic and modern design. Living on the edge of design and technology.

2015
Global Launch of Veil Intelligent Toilet
Veil Intelligent Toilet combines stunning good looks and state-of-the-art technology. Since its introduction it made waves around the world and is a big hit with designers, architects and consumers alike.

2016
Avid and Composed Faucet Series
Classical and modern design are elevated to a new height of innovation and refinement.

2017
The first KEC opened in New York City
Kohler Co. reinvents its approach to global retail with the launch of Kohler Experience Centers. Created to serve the fast-growing segment of design professionals working on projects around the world and to offer consumers on-site product immersion, the new retail concept will make it easier than ever to experience and buy KOHLER products.

2018
We've partnered with Manchester United
Together, Kohler and Manchester United will promote a culture of equality and inclusion as we strive to make the world a better place for all.

KOHLER®

Toilets

KOHLER® toilets are designed to exceed even your high standards of cleanliness. They look clean. They flush clean. They use new technologies to help keep your home clean and to keep you feeling clean and comfortable. Because for your bathroom and you, there's no such thing as too clean.

Clean Design
Smooth, sleek lines don't just look clean, they also wipe down easier so you can maintain a more hygienic environment.

Clean Flush
We design and test our toilets to provide you with a complete balanced flush, from great rinsing power to plug resistance.

Clean Functionality
Our touchless technology lets you flush by simply holding your hand over the tank, so there are fewer germs to pick up or leave behind.

Clean Self
Toilets and seats with cleansing functionality provide soothing, hygienic water cleansing for a refreshing alternative to toilet tissue alone.

Clean Space
From designing seats with built-in air fresheners to wall-hung toilets that make it easy to clean underneath, Kohler helps keep your bathroom fresh and clean.

TOILET TYPE

Intelligent
Offering superior comfort and cleaning, intelligent toilets simply deliver a better experience, top to bottom. From heated seats and warm-water cleansing to automated flushing and more, our intelligent toilets help redefine one of life's most basic rituals.

Leading-Edge Design
Intelligent toilets feature an innovative tankless design that makes a stunning style statement.

Dynamic Cleansing
A warm-water wand, precision air dryer and a deodorizing filter provide personalized cleansing.

Personalized Comfort
Temperature, cleansing settings and more can be controlled with an intuitive touch-screen remote.
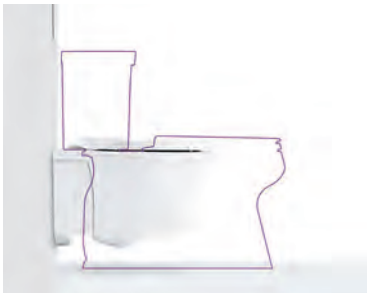

Wall-Hung
Ideal for bathrooms with a limited footprint, wall-hung toilets feature a sleek, easy-to-clean design. With a hidden in-wall tank, only the bowl and flush plate are mounted to the wall, resulting in a streamlined profile that saves up to 12" of space over standard floor-mount toilets and simplifies cleaning.

One-Piece
One-piece toilets are crafted from one single piece of ceramic, so the bowl and tank are integrated. This eliminates the seam between the bowl and tank, which means the toilet is easier to keep clean. Available with a concealed or skirted trapway, it's easier still.

Two-Piece
This is the most common type of toilet, and it offers great value. A separate tank and bowl are assembled together. Bowls are available with concealed or skirted trapways.

SEAT HEIGHTS

Standard Height
- Traditional-height toilets are ideal for small statures.
- Low-profile models are perfect for small spaces.

Less than 17"

Comfort Height®
- Sit at chair height – approximately two inches higher than standard-height toilets.
- Makes standing and sitting easier.
- Many are ADA-compliant when installed per applicable guidelines.

17" ~ 19"

Custom Height
- Wall-hung toilets can be positioned at a custom height from 15⅝" to 28½" to accommodate a range of statures.
- Raised bowl allows cleaning underneath.

Custom height

TRAPWAY STYLES

Skirted Trapway
Offers an easy-to-clean smooth surface from front to back.

Concealed Trapway
Features a smooth trapway surface that's easy to wipe clean.

Exposed Trapway
Traditionally designed, exposed trapways can be seen from the side of the toilet.

TOILET LENGTHS

Elongated Bowl
- Fits most residential spaces.
- Provides added room and comfort for seating.

Over 28½"

Compact Elongated Bowl
- Fits the elongated bowl into a round-front toilet footprint.
- Saves up to 10 percent more space than an elongated bowl.
- Offers added room and comfort for seating compared to a round-front toilet.

28½" or less

Round-Front Bowl
- Requires less space.
- A good solution for small spaces

As small as 25¼"

OTHER CONSIDERATIONS

Rough-In
Most bathrooms have a standard 12" rough-in (the measurement between the wall and outlet pipe). We also offer 10" and 14" options.

12"

WaterSense®—Labeled Toilets
WaterSense toilets meet strict EPA flushing guidelines, including using at least 20 percent less water than 1.6-gallon toilets. Look for the WaterSense label as you shop.

Revolution 360
THE PERFECT SWIRL

Extraordinary flushing performance for complete hygiene.

Kohler upgrades your toilet performance with the introduction of the new Revolution 360 swirl flush technology, ensuring a powerful flush and a cleaner bowl. When activating the toilet flush, the dynamic flow of water bursts into the toilet bowl thanks to a larger water inlet, moves along the track of the rimless bowl's edge and forms a 360 degrees swirling flow of water, ensuring full coverage of the bowl for improved hygiene. Thanks to the swirling motion, Revolution 360 flush technology ensures a cleaner bowl compared to toilets featuring conventional flush. The bowl's new rimless design differs from conventional toilets' rim holes, featuring a smooth surface where dirt and germs have nowhere to hide for better cleanability.

RIMLESS BOWL

360° SWIRL WATER FLUSH

More Powerful
The high-speed water flow generated by the larger flush valve along with the additional water jet ensure extraordinary flushing and bulk removal performance to effectively prevent clogging.

Water Saving
Eco water consumption flushing (3/4.8L) satisfies LEED and Green Building certifications' standards.

Improved Hygiene
The 360-degrees swirl water flush reaches the entire inner bowl for optimized cleaning performance and hygiene.

Rimless Bowl
Rimless Flush provides an extraordinary flushing performance and enables each flush to reach the entire inner bowl, ensuring no place for germs and dirt to hide.

The color and shininess of products shown in the picture may differ from actual products due to printing.
The color and shininess of products shown in the picture may differ from actual products due to printing.

KOHLER® CLASS FIVE™
Powerful Flushing Performance

Class Five™
Extraordinarily Powerful Flushing Performance.

Flushing performance and water savings are always in style, which is why Kohler Class Five™ technology packs a powerful punch to eliminate clogs. We never compromise when it comes to flushing performance. Why should you?

More Powerful
The high-speed water flow generated by the larger flush valve along with the additional water jet ensure extraordinary flushing and bulk removal performance to effectively prevent clogging.

Improved Hygiene
The bigger flushing valve — 3.25 inches in diameter versus 2.8-3 inches of conventional toilets — generates a higher speed, and thus pushes out the waste faster. KOHLER Class Five™ toilet bowl design features an additional rim jet designed to provide an extra powerful push.

Water Saving
Eco water consumption flushing (3/4.5 liters) satisfies LEED and Green Building certification standards.

KOHLER®

Intelligent Toilets

Choosing a KOHLER intelligent toilet is a declaration that the details matter. And next-level innovation must be matched with unrivaled design. Every KOHLER intelligent toilet is born of an obsessive attention to detail, crafted to elevate a user's experience and exceed their expectations.

Meaningful Innovation
Every KOHLER intelligent toilet is engineered with an exceptional attention to design, cleanliness, hygiene and personalization.

Design
With a deep focus on human-centered design, we uncover the technologies that matter to users. Then we look to nature, not machines, to draw visual inspiration—pairing beautiful, approachable designs with intuitive, highly personalized features.
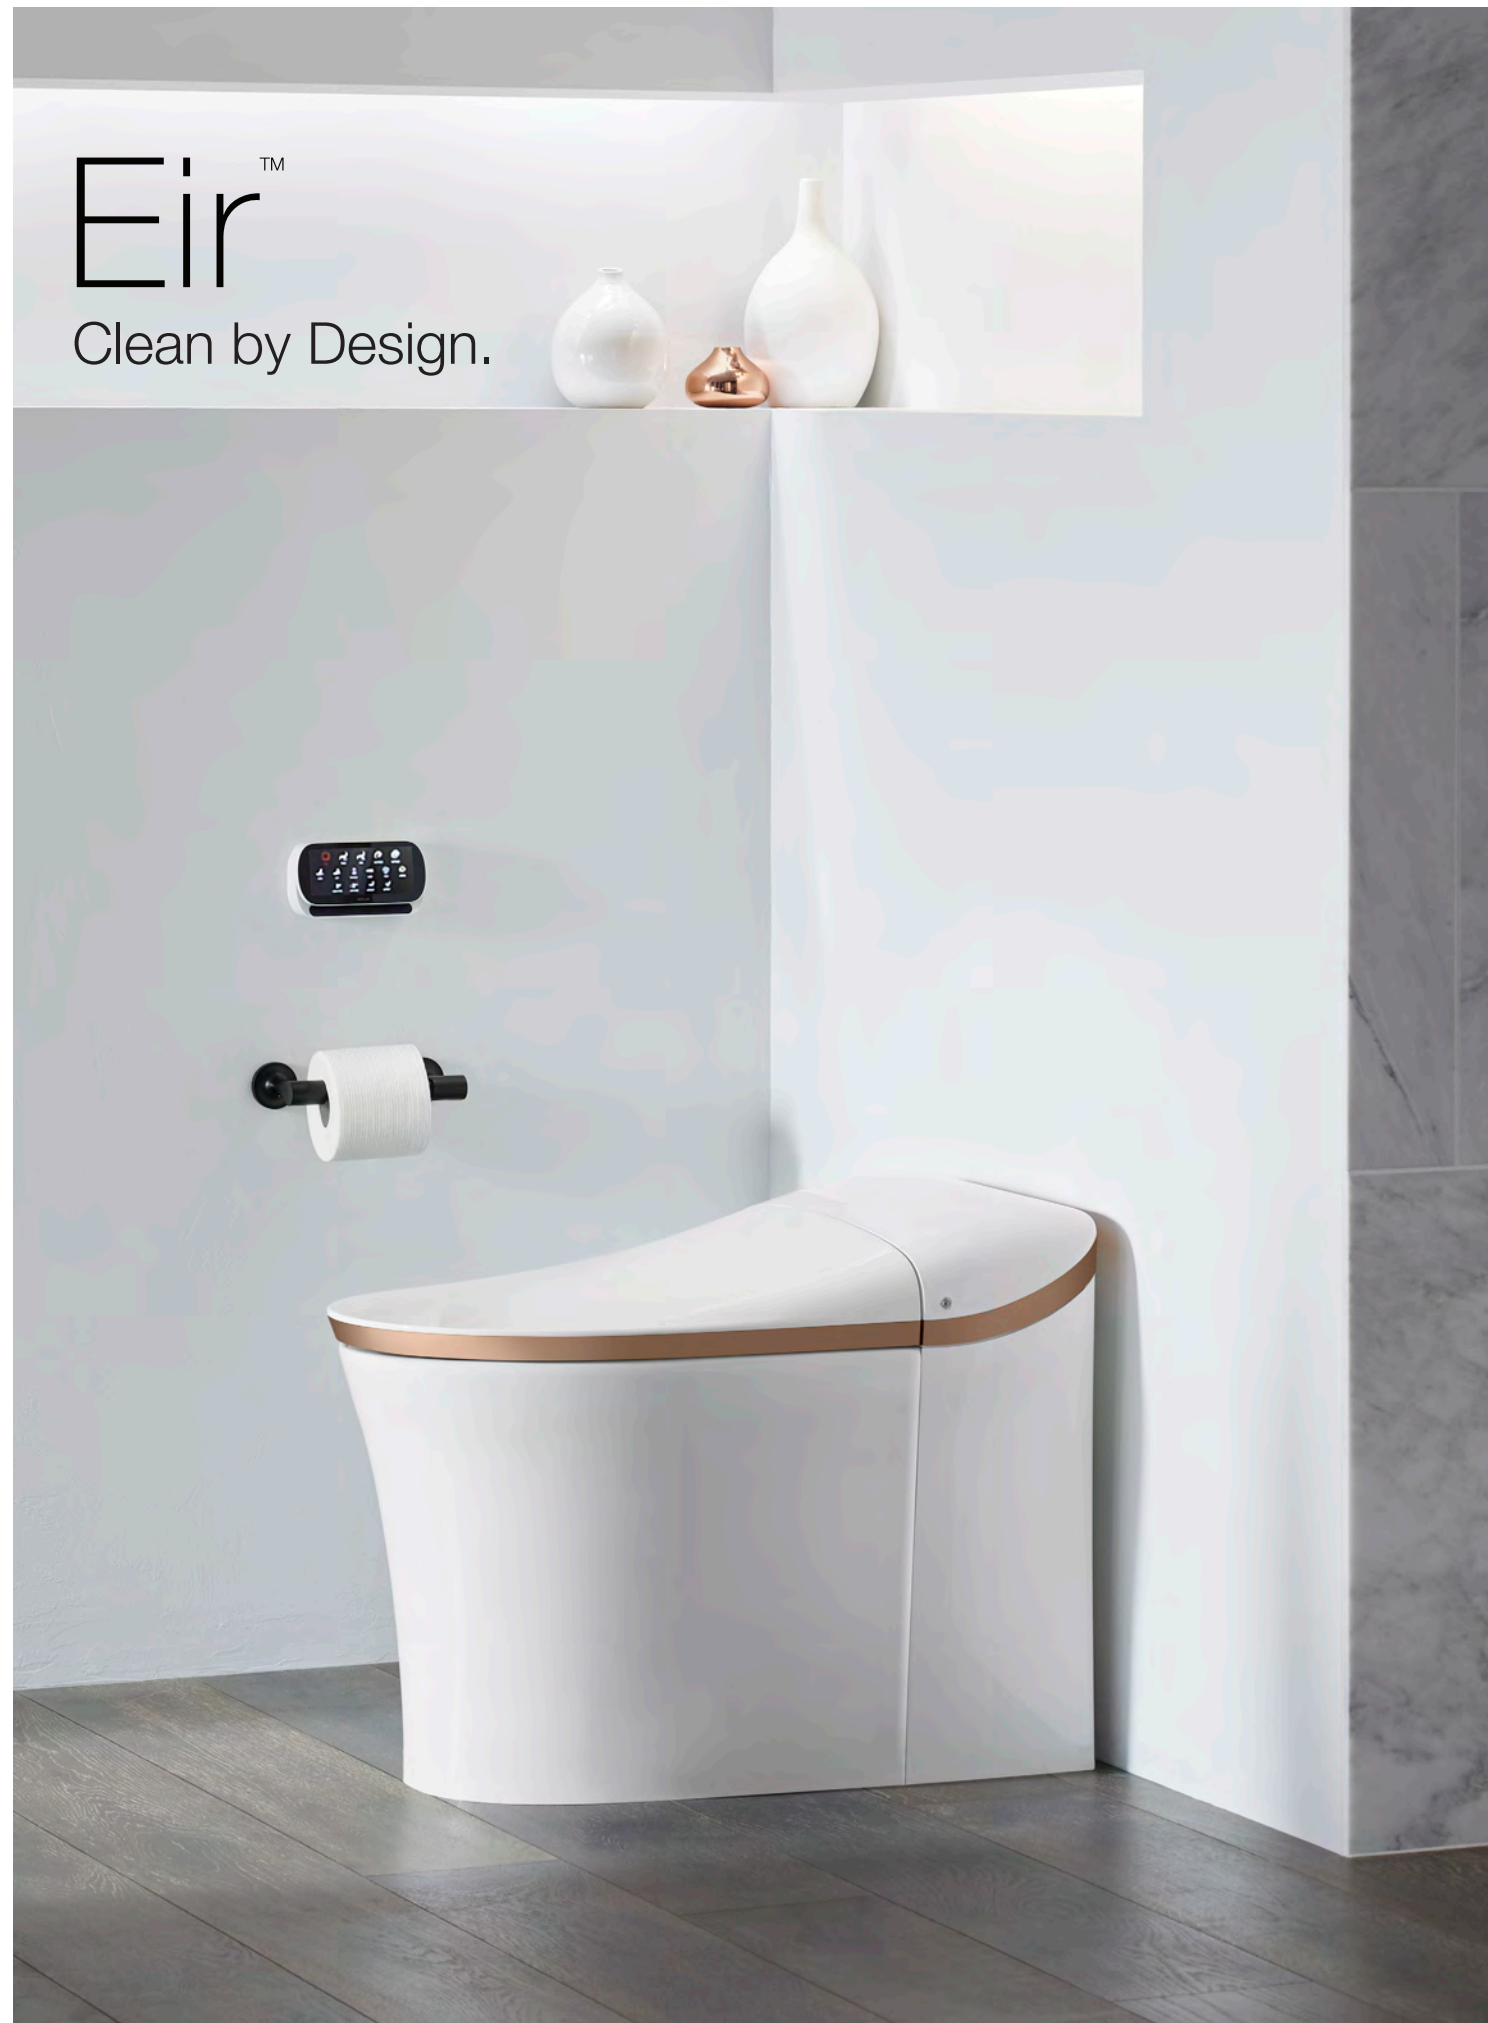

Cleanliness
We make each design decision with a focus on ensuring exceptional cleanliness—for the toilet and the user. With proprietary UV-light, pre-use bowl mist for more effective flushing, and a stainless steel wand—not plastic like many other toilets with bidet functionality—KOHLER intelligent toilets are designed to operate cleanly and stay clean between uses.

Hygiene
KOHLER intelligent toilets deliver an elevated level of cleanliness for users. Automatic flush and automatic lid opening/closing create a touch-free experience while front and rear wash with oscillating and pulsating sprays deliver comfort and thorough personal cleansing.

Personalization
With each feature, we invite users to fine-tune their experience. Remote operation enables personalization of water pressure, water temperature, heated seat, warm-air dryer and lighting.

Eir™

3/3.8L

Eir, KOHLER's new intelligent toilet, embodies beauty and innovation. Installable against the wall and available with S-trap or P-trap for different installation and low water pressure environments. The Eir water filtration system purifies water sprayed from the wand onto the body, removing impurities, residual chlorine and heavy metals for a healthier bidet experience. A one-click sanitizer button activates both Electrolyzed water and UV light functions to clean the toilet's bowl and wand, ensuring unparalleled hygiene.

Automatic Seat   Quiet-Close™   Nightlight   Remote Control   French Curve Seat   Anti-Bacteria   LEED Award

• Wireless LCD with touch button remote control.

• Water Filtration. Filtering the water also protects the bidet system against clogging from sediment and mineral build up.
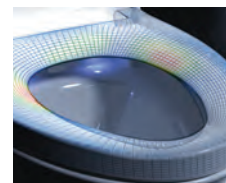

• French Curve seat with Silver Ion Anti- Bacterial Technology offers enhanced comfort and hygiene.

• 360° powerful rim washing. Covers the whole inner bowl, ensuring there is no place for dirty and germs to remain.
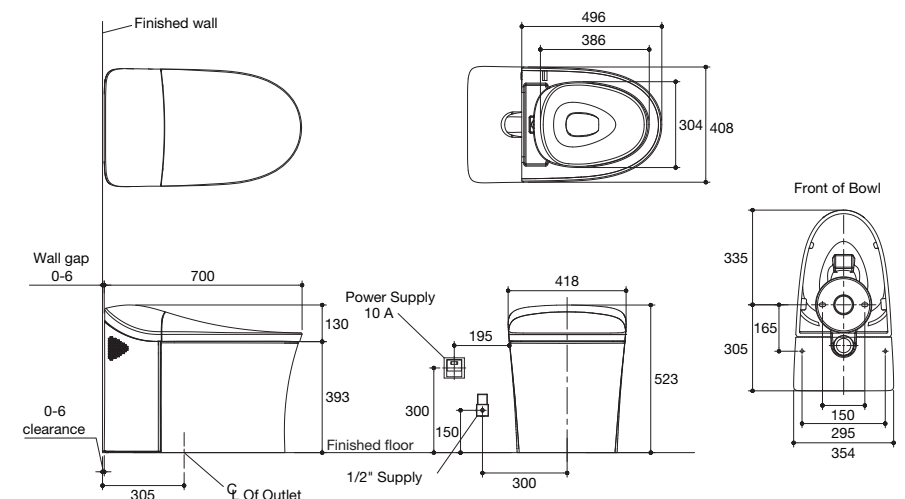

• Create a strong siphon for an efficient flush.

• Various water stream experience i.e. front wash, rear wash and pulsating wash.

KOHLER

Toilet Seats

We design toilet seats with the same thoughtful care and innovative drive we put into all of our products – always with the aim to make your experience more comfortable and your home more beautiful. From guiding you in the night to providing a warm-water cleansing, our toilet seats bring smart solutions to the bathroom.

Smart
Our smart seats go well beyond the standard toilet seat in bringing comfort and cleanliness to your experience. Personal cleansing and deodorizing features give you added confidence throughout the day, while LED lights keep you safe at night.

Quick and Quiet
Unique installation features make KOHLER® toilet seats fast and easy to install the first time and each time you want to remove the seat for thorough cleaning. And we know how frustrating slamming seats can be so we've designed a slam-proof feature as well.

Secure
We design our seats to fit you and your family comfortably and to fit the toilet securely. So whether it's rubber bumpers to grip the bowl tightly or a seat that's designed for both adults and children, we have you covered.

Electronic Smart Seats

KOHLER®
Flush Valve

Engineered to ensure the peak performance and efficiency of our toilets and urinals

1. All brass construction is built to last.
2. Durable piston design for accurate flush volumes even when pressure varies.
3. ADA-compliant lever features non-hold-open design.
4. Chloramine-resistant materials eliminate the need for frequent maintenance or repairs.
5. Self-cleaning filter prevents debris from impacting flushing performance.
6. Cycle-tested to 500,000 flushes, twice the industry standard.
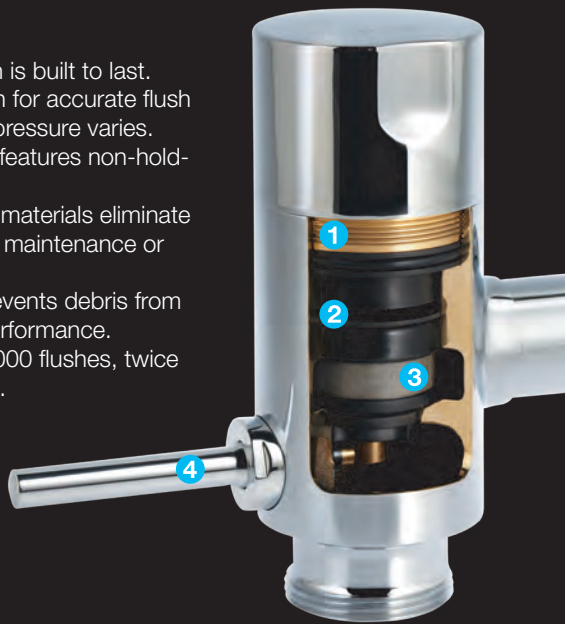

Exposed Flush Valve for Toilet (1.28 GPF)
K-13517X-CP
- Brass construction.
- Fixture-mount design.
- Intended for urinal installations with 1-1/2" spud coupling connection.
- Non-hold open piston technology for accurate activation.
- 4.85 liter per flush for standard water consumption.

KOHLER ®

Urinals

Leading the Way to Green Buildings.
Working towards sustainability is an ongoing journey for Kohler, and creating water-conserving products has been a key component. We have a history of looking ahead and doing all we can to ensure the future of our community, and even our world. We honor that tradition by creating a better future. Our global sustainability goal of a net zero carbon and solid waste footprint by 2035 requires committed action right now, so we are focusing our efforts in some key areas.

Steward
Waterless Urinal
K-4918X-0

Steward™
Waterless Urinals by Kohler
CONSERVATION. INNOVATION.™

Functional Innovation, Seamless Installation.

KOHLER waterless urinals conserve up to 40,000 gallons of water per fixture per year compared to water-based urinals, as well as significantly reduce sewage and maintenance costs. These highly functional urinals provide outstanding performance and feature innovative, stylish characteristics that integrate a natural ellipse with an architectural feel. Their cartridge-free design means easy routine maintenance, and their touch-free operation offers increased hygiene. Additionally, their large, clean footprint simplifies installation without the need for tiling or rough-in changes. The result is an aesthetic that communicates a fresh, sleek design not found in traditional urinals.

Steward
Waterless Urinal
K-4918X-0

A   Urinal wall hangers
B   Existing outlet pipe
C   Collar
D   Universal mounting bracket
E   Gasket
F   Screw and washer

Functionality

Liquid waste passes into the fully glazed trapway through the debris-catching strainer. The unique design of the trapway slows the flow of liquid waste as it passes through the sealing liquid, ensuring that the sealing liquid isn't washed out of the trapway. Being less dense than liquid waste, the sealing liquid maintains its position at the top of the trapway, thus providing a barrier to block trapway odors. Through simple displacement, the liquid waste then makes its way into the waste pipe.

Retrofit Advantages

Due to an integrated trapway design, most Wall-Hung retrofit installations require no rough-in changes to the waste pipe. A universal mounting bracket will fit onto most urinal collars in the industry, allowing the installer to use the existing urinal collar in many cases. The large, clean footprint of the Steward™ waterless urinal (K-4918X) minimizes the need for aesthetic changes (tiling, painting, etc.) in a retrofit installation.

Lavatories

Elegance with innovation.
Transcending the norm of traditional lavatory materials, the KOHLER® lavatory series combines solid cast iron, refined copper and artisan glass to bring extraordinary texture and elegance to your home in a wide range of styles, whether traditional, contemporary, minimalist or trend-setting.

INSTALLATION TYPES

Exceptional quality, innovative designs and artistic craftmanship.
These are the hallmarks of KOHLER® lavatories, from their solid material construction to their unique styles, shapes and colors. Make your bathroom remarkable. Choose a distinctive-even unusual-design from our Vessels collection, or perhaps one of the handcrafted, surface-decorated basin we call Artist Edition-above the countertop, wall-mount bracket or a self-rimming application.

PREMIUM QUALITY MATERIALS

Cast Iron
With an ultra-thick layer of enamel, KOHLER® Cast Iron provides outstanding performance and durability. Its high-gloss finish resists staining, scratching and chipping to maintain a lustrous sheen for years of beauty. Each KOHLER® Cast Iron lavatory offers a smooth, easy-to-clean surface and is backed by our Lifetime and Limited Warranty for lasting value and peace of mind.

Vitreous China and Fireclay
Products made of these clay mixture materials are fired at an intense heat to vitrify and fuse the glaze. The result is a durable, nonporous product with hard, glossy or satin finish that protects the surface of our vitreous china and fireclay fixtures. The result is a remarkably clean sanitary product that maintains its beauty for years.

Nature's Chemistry
A number of artful designs created from fundamental natural materials such as marble, spun glass and lavastone.

Color
A full palette of KOHLER® colors to complement individual preferences in decor. Our colors are consistent whether the lavatories are made of KOHLER® Cast Iron, vitreous china or fireclay. This allows for complete coordination with other KOHLER® fixtures.

Every exquisite detail of KOHLER bathroom furniture has been thoughtfully designed and meticulously crafted to create heirloom-quality bathroom furniture. The following features and benefits ensure that each KOHLER vanity we manufacture will perform to your expectation.

Highly Durable Waterproof Material
The new HydroShield material has an excellent water-proof performance and, unlike wood or fiberboard, will not swell or crack in a hot, humid environment.

Eco Friendly
E1-Certified material with assured quality and safety, free of volatile organic compounds and Formaldehyde.

Rust-Free Hardware
Has passed at least 48H stringent CASS (Copper-Accelerated Acetic Acid Salt Spray) Test.

Lasting color
Cabinet color stays fresh without fading or change despite exposure to strong irradiance and UV light.

Generous Storage Space
The extended storage area is convenient and easy to access.

Wide Door Swing
Wide opening gives easy access to items.

Modular design
Brings extra flexibility to the storage area.

High Durability
Quality door hinges and drawer slides have passed 80,000 cycles of open-close testing.

Damp-Proof Material
Exquisitely crafted with triple-layered, damp-proof paint and precision sealing on the edges.

Well-Organized Space
Intelligently arranged storage space with pop out extendible desk and laundry basket, capable of satisfying all grooming needs.

Bathroom Furniture Accessories
To make the most of your bathroom space, KOHLER accessories help you keep your essential bath items conveniently organized. Easy-to-install, match these practical options to the external décor of your choice for a finished and personalized combination.

Hydro Shield

HydroShield Collection

100% Waterproof Material bathroom cabinet

KOHLER HydroShield — Excellent waterproof performance in a hot and humid environment

Highly Durable Waterproof Material
The new HydroShield material has an excellent water-proof performance and, unlike wood or fiberboard, will not swell or crack in a hot, humid environment.

Introducing HydroShieldcabinet material
When it comes to cabinet materials, the choices are vast. The new HydroShieldmaterial on the Toobi Plus Hydroshield cabinet is waterproof in humid and hot environments. How do we know? We submerged the HydroShieldfor 7 days to test its water absorption. Not only was there 0, but it outperformed all other materials.

Flexi Space

Kohler provides solutions for small spaces. We increase the depth and breadth of basins as well as provide pull-out taps for washing hair and rinsing delicate clothing items. What's more, we push back the sink's drain to ensure you have ample space in the vanity to organize your personal items. Keeping everything neat and tidy.
