INSTALLATION

1
2
3
15~25mm

Apply tape or sealant to the G1/2" nipple(1, not provided) threads. Install the G1/2" nipple to extend 15-25mm beyond the finished wall.

Install the escutcheon(2) onto the spout(3). Thread the spout to the G1/2" nipple. Tighten by strap wrench. Adjust the spout downwards. Push the escutcheon against the finished wall.

INSTALLATION CHECKOUT

Ensure that all connections are tight.

Open the drain. Turn on main water supply and check for leaks. Repair as required.
Remove aerator(5) with key(4). Flush hot and cold water through spout for about one minute to remove any debris. Remove any debris from aerator. Turn off water supply and reinstall the aerator.

CLEANING INSTRUCTIONS

All Finishes: Clean the finish with mild soap and warm water. Wipe entire surface completely dry with clean soft cloth. Many cleaners may contain chemicals, such as ammonia, chlorine, toilet cleaner etc, which could adversely affect the finish and are not recommended for cleaning.

Do not use abrasive cleaners or solvents on Kohler faucets and fittings.
