EIR™ Intelligent Toilet

CLEAN BY DESIGN

Eir, KOHLER's new intelligent toilet, embodies beauty and innovation. Installable against the wall and available with S-trap or P-trap for different installation and low water pressure environments. The Eir water filtration system purifies water sprayed from the wand onto the body, removing impurities, residual chlorine and heavy metals for a healthier bidet experience. A one-click sanitizer button activates both electrolyzed water and UV light functions to clean the toilet's bowl and wand, ensuring unparalleled hygiene.
