KOHLER® Finishes

KOHLER offers one of the largest selections of faucet finishes to complement your personal style and complete your bathroom design. Ranging from warm brushed tones to brilliant polished hues, our finishes help define your aesthetic

style. As tough as they are beautiful, KOHLER finishes resist corrosion twice as well as the industry standard. Working at the molecular level, our Vibrant® finishes create an incredibly strong surface that is scratch- and tarnish-resistant.

What are Vibrant® finishes?

Vibrant finishes are the result of a state-of-the-art PVD (Physical Vapor Deposition) process that vaporizes a coating material and bonds it to the finish of the faucet for an extra durable surface. A two-layer nickel undercoating enhances the strength and color integrity of KOHLER Vibrant finishes. As a result, Vibrant finishes create a superior exterior surface that resists scratching, tarnishing, and corrosion.

Outstanding look and performance of Vibrant finishes

- KOHLER finishes exceed industry durability standards by 2 times.
- An unique hand brushing technique allows KOHLER Vibrant finishes to offer a wide variety of colors and textures to accommodate a multitude of styles.
- Available for a full line series which includes faucets, showers, accessories, toilet hinges, etc.
