OUR MISSION: GRACIOUS LIVING

Since 1873™

KOHLER®

Welcome to Kohler Company. Born in the USA over 145 years ago, we are a global leader in the kitchen & bathroom industry.

We are present on all continents with 50 manufacturing facilities, 30,000 staff and thousands of patents to our name. Four design centers on three continents with designers from various countries and backgrounds help us to be truly global while respecting local tastes and preferences.

Kohler Co. sets the standards of excellence and pushes the limits of design throughout the world. Whether we are creating kitchen and bath products, tile and furniture collections, engines and generators or luxury hotels and resorts to championship golf courses, our work is born from a desire to design experiences that make the world more gracious.

Over the years we have created and acquired an impressive portfolio of brand of which a few are presented in this brochure.

Bold means never compromising,
never settling for what has always been and
always challenging what could be.

David Kohler
David Kohler
President and CEO of Kohler Co.

KOHLER®

Historic Milestones

The story of Kohler

Since 1873, Kohler Co. has been improving the level of gracious living by providing exceptional products and services for our customers' homes and their lifestyles. We believe better business and a better world go hand-in-hand. Fueled by the passion of more than 36,000 associates worldwide, we strive to enhance the quality of life for current and future generations through design, craftsmanship and innovation.

1883

World's First Cast Iron Bathtub

Pioneering advancement by Kohler sees first- ever 'manger' cast iron bathtub.

2013

Kohler Celebrates 140th Anniversary

Kohler Co. celebrates 140 years of cutting-edge design and innovations.

2014

Kelston Series Debuts, Luxury Collection

A combination of classic and modern design. Living on the edge of design and technology.

2015

Global Launch of Veil Intelligent Toilet

Veil Intelligent Toilet combines stunning good looks and state-of-the-art technology. Since its introduction it made waves around the world and is a big hit with designers, architects and consumers alike.

2016

Avid and Composed Faucet Series

Classical and modern design are elevated to a new height of innovation and refinement.

1967

The Bold Look of Kohler

Advertising Manager Armond "Bud" Grube, along with Charles Pagnucco and Alfred Ellrodt, developed the concept of boldly colored products under the tagline THE BOLD LOOK OF KOHLER®.

1985

Introduction of Artist Editions

The juice glasses we use every morning to the sideboard that holds our table linens, the objects we choose for our homes reflect who we are and narrate the rhythm and texture of our lives. Balancing artistry and craftsmanship with utility, Artist Editions products invite you to celebrate beauty and creativity each day.

2017

The first KEC opened in New York City

Kohler Co. reinvents its approach to global retail with the launch of Kohler Experience Centers. Created to serve the fast-growing segment of design professionals working on projects around the world and to offer consumers on-site product immersion, the new retail concept will make it easier than ever to experience and buy KOHLER products.

2018

We've partnered with Manchester United

Together, Kohler and Manchester United will promote a culture of equality and inclusion as we strive to make the world a better place for all.

2002

Kohler Thailand

Kohler Co. acquires Karat, which makes vitreous china products in Thailand for customers worldwide.

2008

Kohler with WaterSense® Award

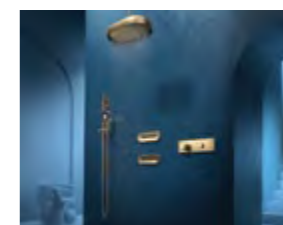

The U.S. Environmental Protection Agency presents Kohler with its first watersense® award. Kohler has received every year since 2008.

2021

Kohler Revolution 360 Extraordinary Flushing Performance

Kohler upgrades your toilet performance with the introduction of the new Revolution 360 swirl flush technology, ensuring a powerful flush and a cleaner bowl.

2022

The Statement Showering Collection with Anthem Controls and Valves

At Kohler, we believe every shower is a canvas. And our Statement showering collection paired with Anthem valves and controls is the ultimate palette.

2011

Numi, Kohler Most Advanced Toilet

Numi Intelligent Toilet is launched in Asia and worldwide.

2012

Celebrate 10 Years Kohler Thailand

Celebrating the 10th anniversary of Kohler Thailand.

2023

Celebrating 150 Years

A bold journey of color, design, and innovation.

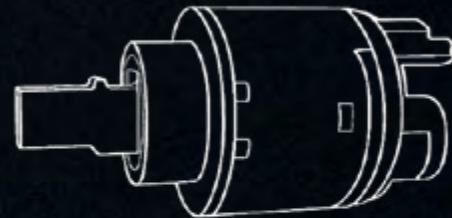

KOHLER®

Bathroom Faucets

Why does a KOHLER faucet make your space so special? The infinite creativity of KOHLER designers results in diverse faucets styles — whether trendy, classic, contemporary or minimalist — each style boasting its own distinctive personality and dignity. We can admire their lustrous colors and Vibrant PVD finish while enjoying the smooth, comfortable operation of European-made ceramic valves — features that make every KOHLER faucet a timeless creation.

Ceramic disc valves

European imported valves with extraordinary quality.
Solid ceramic material ensures durable performance.
Passed 1,000,000 times life cycle test without leakage*.
Smooth cartridge design brings silky experience.

*Kohler Internal testing numbers for reference.

Finish with confidence

Vibrant finishes, passed more than 48 hours acid salt spray test, exceeds industry standard of 24 hours.
Easy-to-clean coating with unusual finish technology.

Multiple choices of aerators

7 degree adjustable aerator helps to reduce splashing; silicon material brings easy cleaning experience.
Auto-clean aerator automatically removes the scales to ensure a more smooth water flow.
Easy-to-change aerator, able to be changed simply with a coin.
Eco flow aerator provides larger water coverage, meets the water-saving standard.*

*Water saving standard <0.1L/S

KOHLER FINISH CATEGORIES & DURABILITY

Kohler faucets are designed, engineered and manufactured to the highest standards of quality and deliver a lifetime of uncompromised performance.

Polished Chrome

To create KOHLER's Chrome finish, two layers of nickel and one layer of Chrome are placed on top of the base material. Having two layers of nickel versus one creates a more durable finish.

Physical Vapor Deposition (PVD)

The majority of Kohler's finishes are created using this process. A leading finish technique - using Chrome or Brushed Chrome as the base - through which the finish is molecularly bonded to the faucet.

Organic Finishes

For finishes that require a more organic look, one of the processes Kohler uses is powder coating. The process for this finishing technique is to place two layers of nickel on top of the base material, a powder spray and curing in the oven.

Industry Testing

Kohler carries out all industry-required testing, including salt-spray testing, to twice the standard to ensure our faucets stand the test of time.

Kohler Testing

Kohler also performs strict internal tests to ensure our finishes stand up to a variety of environmental factors such as harsh water conditions as well as common household cleaners.

Lifetime Limited Warranty*

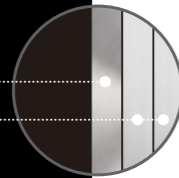

All Kohler PVD finishes come with a Lifetime Limited Warranty. For detailed information on warranties, please contact the Kohler representative in your region.

**Warranty is dependent upon how and where the product is installed. Please contact your local Kohler representative for detailed warranty information in your market.*

PVD LAYER
1 CHROME LAYER
2 NICKEL LAYERS

VIBRANT™ PVD FINISHES PROCESS

Physical Vapor Deposition (PVD) process provides KOHLER Faucets a rich luster that is highly resistant to scratches, tarnish and corrosion.

With a thickness of 0.5-1.0 microns, the PVD layer has the right thickness to ensure durability and avoid flaking over time.

The PVD process is employed to create all KOHLER vibrant finishes.

The PVD process is an eco-friendly process that does not generate any chemical waste.

KOHLER PVD finishes enjoy a Lifetime Limited Warranty.

Chrome Layer: Typically ranges from 0.25µm to 0.75µm
PVD Layer: Typically ranges from 0.5µm to 1.0µm
Nickel Layers: Typically ranges from 10µm to 25µm
(µm = Micrometer)

01

02

03

04

S T E P
1

Substrate and material (brass, zinc, etc.) is formed to make the faucets.

S T E P
2

The material is finished by buffing, polishing and brushing.

S T E P
3

After the finishing process, the faucet is electroplated into a Polished Chrome or Brushed Chrome finish.

S T E P
4

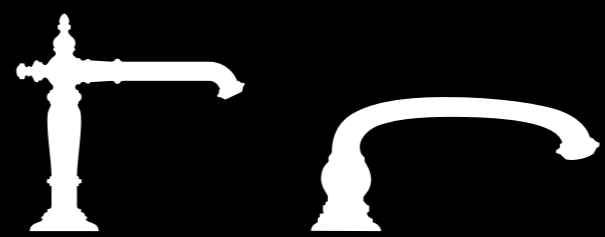

The PVD process occurs inside a vacuum that molecularly bonds the finish to the faucet for superior scratch and tarnish resistance.

Invisible Sensor Technology

Powered by AA Batteries

- Components
- Widespread Touchless
- Lavatory Faucet
- Spout reach: 160 mm.
- Spout height: 170 mm.
- Rocker faucet handle features a unique back and forth movement with smooth control allows for both volume and temperature preset.
- Easy to install with the use of AA batteries.
- Automatically stop when used continuous more than 4 minute.
- Key electronic components all passed wa-terproof standard IPX4.

K-29936X-CP

TOF Sensor Technology

- Avid Duo Sensor Faucet-Cold AC, W/P, 0.5
- Spout reach: 135 mm.
 - Spout height: 123 mm.
 - Kohler cutting-edge technology combines soap and water dispensing into one design for a completely touchless hand-rinsing experience.
 - ToF sensing technology, able to work with special material lavatories like glass and stainless steel.
 - LED lights indicate waving.
 - Durable Kohler finishes resist corrosion and tarnishing.
 - Automatically stop when used continuous more than 1 minute.

K-28577X-NW-CP

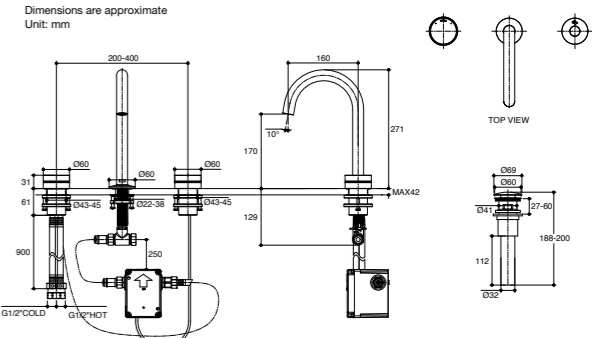

TOF Sensor Technology

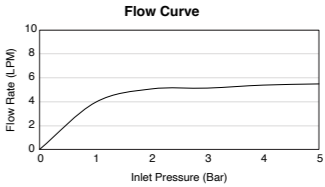

Invisible Sensor

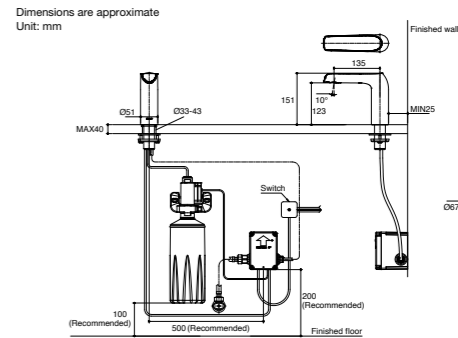

- Loure Tall Sensor Faucet Cold, 0.5GPM
- Spout reach: 127 mm.
 - Spout height: 270 mm.
 - Brass construction.
 - ToF sensing technology, able to work with special material lavatories like glass and stainless steel.
 - Strong anti-interference ability.
 - 1000 mm. flexible supply hose for easy installation.
 - Automatically stop when used continuous more than 1 minute.
 - **Required Accessories**
AC Power unit, Output 6 V (K-26845X-NA) or DC power unit, output 6 V (K-26844X-NA), sold separately.
 - **Can be paired with**
Thermostatic Valve (K-16294X-3-CP) or Tee Inlet Hose Assembly (K-1298745-SP) to become a mixer, sold separately.

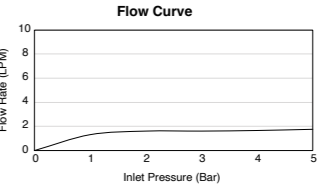

Note: The recommended dimension for installation can be adjusted according to user preferences and layout.

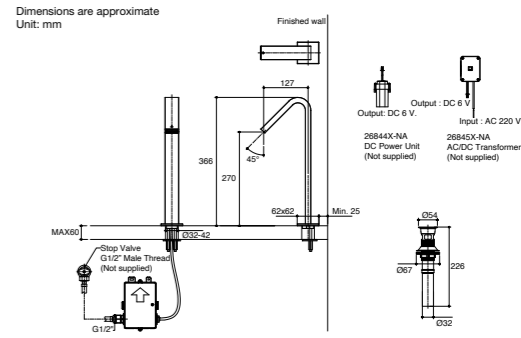

Note: Flow rates are approximate. (1 gallon = 3.785 liters, 1 bar = 14.5 psi)

KOHLER® SHOWER PRODUCTS

Anthem™ Valves & Controls

Anthem represents the evolution of showering. Born from a mission to go beyond industry standards, Anthem mechanical and digital valves and controls enable superior showering performance. From expert engineering and technical exclusivity, new and innovative ways to manipulate flow, temperature, and water have been brought to life. Combined with precision controls, the functional act of showering has at once become a highly personalized wellbeing experience. Captured in an unexpected aesthetic, the Anthem collection represents a milestone in showering design and overall experience.

Statement™ Spray Experiences

With a variety of indulgent spray functions, the Statement showering collection helps you build immersive environments for rinsing, massaging, and restoring. Each component is paired with the sprays best suited to its use, expertly aligning form with function. From the flow to the arrangement of streams, the settings have been thoughtfully engineered to deliver transformational moments of wellbeing in every shower.

- **Full Coverage with Katalyst™ Technology**
With air-infused droplets, the flow of water is intensified for enhanced coverage and comfort. It drenches and clings to the body in a full, luxurious spray.
- **Deep Massage**
Strong streams of water twist and swirl to create a slow kneading pattern. The rhythmic massaging delivers relaxation and relief.
- **Ribbon Massage**
Water cascades at an angled stream to target the shoulders. This improved alignment offers greater warmth, comfort, and a more relaxing massage.
- **Cloud**
Super-fine, silken droplets converge to gently caress the body. The expansive, luxurious spray feels like a warm embrace as it restores a sense of wellbeing.
- **Full Coverage Rain**
Gravity-fed droplets envelop the body in a gentle spray. The soft flow of water has a natural feel, mimicking the experience of real rainfall.

KOHLER®

KATALYST AIR™ SHOWERHEAD

Katalyst air-induction technology

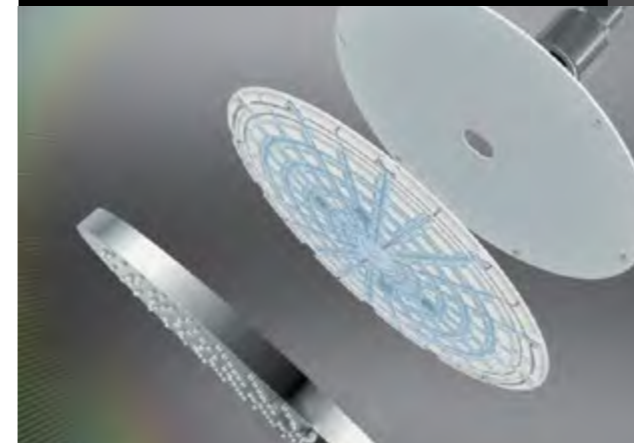

Inducting up to 50% air from the top of your showering products, effectively saves water by 50%*.

*Kohler internal test for reference.

Optimized nozzle design

Scientifically designed nozzle allocation with optimized water coverage and comfort to ensure the best showering experience.

1.3mm nozzle brings bigger water drops with less water by mixing in air.

Advanced internal structure

Upgraded waterway distribution ensures better mixing of water and air, reducing residual water.

More robust structure by adding hidden screws and reducing exposed ones on the back plate.

Non-dripping design

Apart from internal structure, self-levelling technology is also applied on shower-heads to reduce residual water.

Modulo™ VALVE SYSTEM

Introducing Modulo™ from Kohler – a universal valve platform that makes installation easy and showers remarkable. Designed to house a variety of valve configurations, the durable casing installs easily into a range of wall types. The DZR-brass body inside ensures reliable performance you expect from Kohler. And, the entire system is completed by a collection of stylish trim options.

Modulo is not just another universal valve box. It's the box – reinvented.

Durable
Forged DZR brass resists wear and leaks

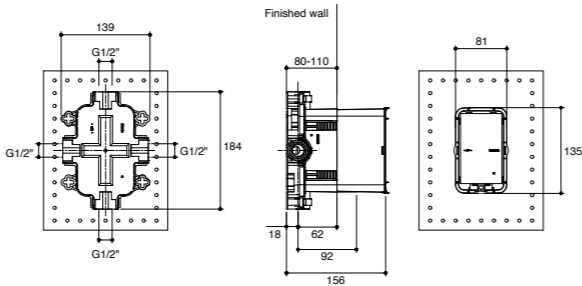

Universal Box
Works with all Modulo valves for multiple shower installations

Easy Installation
An integrated level and bracket ensure the box is properly aligned

Noise and Leak Prevention
Rubber seals on all parts

KOHLER®

KITCHEN FAUCETS

A close-up photograph of a modern, polished chrome Kohler kitchen faucet. The faucet is a single-lever design with a high-arc spout. Water is flowing from the spout in a wide, aerated spray. A person's hand, wearing a white long-sleeved shirt, is holding a wooden spoon with a white plastic head that has purple food residue on it. The hand is positioned under the water spray. Another hand is visible, holding a small, dark, curved object near the faucet handle. The background shows a white subway tile backsplash and a white ceramic pitcher on the counter. The overall scene is bright and clean, emphasizing the faucet's design and functionality.
