EIR™ INTELLIGENT TOILET

CLEAN BY DESIGN

Eir, KOHLER's new intelligent toilet, embodies beauty and innovation. Installable against the wall and available with S-trap installation and low water pressure environments. The Eir water filtration system purifies water sprayed from the wand onto the body, removing impurities, residual chlorine and heavy metals for a healthier bidet experience. A one-click sanitizer button activates both electrolyzed water and UV light functions to clean the toilet's bowl and wand, ensuring unparalleled hygiene.

Revolution 360

Extraordinary flushing toilet for complete hygiene

Kohler upgrades your toilet performance with the introduction of the new Revolution 360 swirl flush technology, ensuring a powerful flush and a cleaner bowl. When activating the toilet flush, the dynamic flow of water bursts into the toilet bowl thanks to a larger water inlet, moves along the track of the rimless bowl's edge and forms a 360 degrees swirling flow of water, ensuring full coverage of the bowl for improved hygiene.
