

Forefront™
Lite 28" W x 25" H lighted mirror
K-29155IN

Features

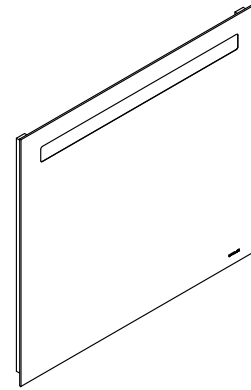

- Internal LED light guide provides optimally bright bathroom vanity lighting for grooming tasks.
- Advanced eight-layer manufacturing process provides superior corrosion resistance.
- 100% silver coating offers a clearer, sharper reflection.
- Brightness at 760 lumens ensures consistent bright lighting with no harsh shadows.
- Minimum 90 CRI (color rendering index) lets you see yourself in the truest light for makeup application, grooming and skin care.
- Defogging feature ensures reflection visibility—even in high humidity.
- Mechanical on/off switch tested for 1.5 lakh cycles.

Material

- Anodized aluminum construction with a durable rustproof and chip-resistant finish.

Installation

- Includes mounting hardware for surface installation.
- Hang-and-secure mounting system for easier surface-mount installation.
- Recommend professional electrician installation.

Codes/Standards
