SCULPTURED LAVATORY

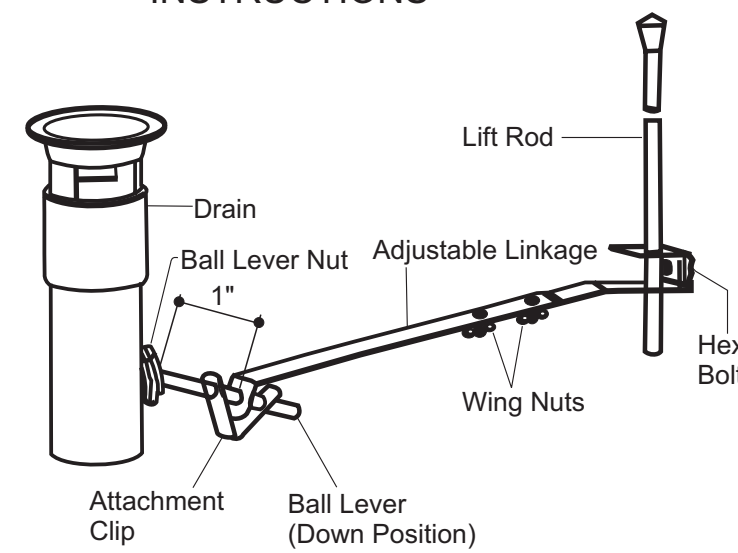

TEMPLATE K-2217

Instructions for Installing Kohler Self-Rimming Lavatory

1. Cut out the template along the line with a scissors and trace onto countertop.
2. Cut opening in countertop, carefully following pencil line you traced.
3. Place lavatory in countertop and trace outside edge with pencil. This will serve as "Guide Line" for applying adhesive.
4. Assemble fittings on sink.
5. Apply two ribbons of adhesive between the opening and the "Guide Line". Spread lightly with flat knife or similar object.
6. Place fixture in counter or slab using "Guide Line" for proper positioning.
7. Press down firmly on fixture to spread adhesive.
8. Remove surplus adhesive with damp cloth or sponge and fill joint where necessary at once.
9. Use a damp cloth to clean fixture and countertop. **THIS SHOULD BE DONE AS SOON AS FIXTURE HAS BEEN PLACED.**
10. If fixture must be removed, heat thin knife, insert into sealant between fixture and countertop and begin cutting through sealant. Keep fixture raised to prevent resealing. Reheat knife as often as necessary.

**Please leave these complete instructions
With the consumer as they contain Warranty
and maintenance information.**

INSTALLATION INSTRUCTIONS

ADJUSTABLE LINKAGE 40372

1. Refer to illustration. Assemble adjustable linkage to ball lever with attachment clip so that the end of the adjustable linkage is approximately 1" 25mm from the ball lever housing. See dimension on illustration.
2. Loosen with nuts on adjustable linkage. Position square end of linkage under lift rod and slide lift rod through holes in linkage.
3. Adjust ball lever to down position. Hand tighten wing nuts on adjustable linkage. Tighten hex bolt onto lift rod using a wrench.
4. Check operation. If needed, adjust the length of the linkage and its position on the lift rod to obtain proper opening and closing of drain. Ball lever nut may need to be adjusted for smoother operation.

CARE AND CLEANING...

Water conditions in various parts of the country will determine any extra cleaning attention you give your bathroom fixtures. In the meantime, a simple routine of daily care will keep your bathroom fresh and sparkling. Kohler Co. does not recommend the use of harsh abrasive cleansers on any of its products, for obvious reasons-harsh cleansers used regularly will scratch fixture surfaces and destroy their finish.

WARRANTY...

LIMITED ONE-YEAR WARRANTY

Kohler plumbing fixtures are fittings are warranted free of manufacturing defects.

Kohler Co. Will, at its election repair, replace, or make appropriate adjustment where Kohler Co. inspection disclosed any such defects occurring in normal usage within one year after installation. **Kohler Co. is not responsible for installation costs.**
