### Additional Information:
- Simple installation with no special tools needed
- 100% waterproof and reduces noise levels
- Thermostatic valve limits water temperature to a maximum of 50ºC for safety
- Simple maintenance if required to change the valve after installation
- Flexibility for installation depth from 80 mm - 110 mm
- Trim Installation plates are equipped with a ‘Breathing Channel’ that avoids condensation inside the Modulo box
- Leaking avoided due to perfect seal provided by box’s plastic envelope
- Integrated level: easy box positioning
- Easy maintenance: direct access to valve servicing parts by removing trim
- Can be installed on different surfaces: walls in concrete, plaster, wood, industrial partitions
- Option to switch from mechanical to thermostatic mode, thanks to easy valve and trim change
- Box cover with prongs to use as cut out template
- Connector available to annex two Modulo universal boxes
