Skyline Walk-In Enclosure

These instructions must be left with the user

INTRODUCTION

Thank you for purchasing a quality KOHLER $_{\!\scriptscriptstyle \otimes}$ product. To enjoy the full potential of your new product, please take time to read this guide thoroughly, having done so, keep it handy for future reference.

The following pages aim to provide comprehensive installation instructions, plus advice on how to care and maintain your product.

We recommend that the unit is installed by a qualified plumber or engineer.

General

- 1. Read all of these instructions and retain this guide for later use.
- 2. Pass on this guide in the event of change of ownership of the installation site.
- 3. Follow all warnings, cautions and instructions contained in this guide.
- 4. Remove all protective tape from the enclosure before installation.

GENERAL INFORMATION

Safety Information

- 1. Care should be taken when drilling into walls and floors to avoid any hidden pipes or wires.
- 2. We strongly recommend that all glass panels are moved by a minimum of two people and that any protective packaging along the glass edges is kept in place for as long as possible to prevent damage before installation.
- 3. During installation we recommend additional help in lifting heavy doors and side panels.
- 4. Wear protective footwear when lifting panels.
- 5. Wear safety glasses when drilling.

Wall Preparation

The wall channels must be installed onto a tiled or waterproof finished flat and even wall surface. Failure to do so will result in an unsatisfactory seal, which may cause property damage.

GUARANTEE

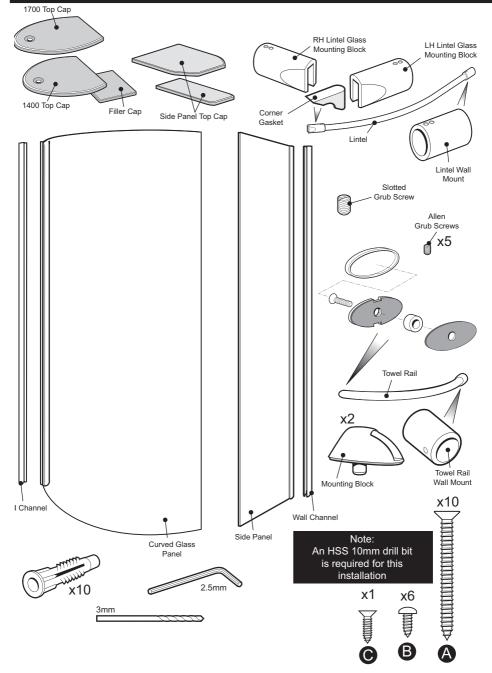

For **domestic installations**, your enclosure has the benefit of our lifetime guarantee which starts from date of purchase.

For **non-domestic installations**, we guarantee the product against any defect in materials or workmanship for a period of one year from the date of purchase.

MAINTENANCE

General Maintenance

Providing the shower enclosure has been correctly installed and is operated in accordance with the instructions contained in this guide, difficulties should not arise.

If any maintenance is required then it must be carried out by a competent tradesperson to whom the maintenance instructions are provided.

Before replacing any parts ensure the underlying cause of the malfunction has been resolved.

Cleaning

Warning! Many household cleaners contain abrasive and chemical substances and should not be used for cleaning painted, plated or plastic fittings.

These finishes should be cleaned with a mild washing up detergent or soap solution and then wiped dry using a soft cloth.

Care

To preserve the beauty of your shower enclosure for many years, please observe the following care instructions:

Rinse glass and frame with clear water after showering. Remove water droplets with a squeegee. Do not rub dry! To clean your shower hygienically and easily, we recommend the use of a biodegradable cleanser.

Regular cleansing with a biodegradable cleanser prevents stubborn stains and ensures a clean and hygienic surface for many years. Do not use scouring or caustic cleansers under any circumstances! These can damage the surface of the frame, glass and decorative parts as well as the plastic parts.

Chrome Parts

Use only cleansers expressly specified for chrome!
