Before You Begin

Caution! Mira Flight baths are very heavy. Get assistance when moving or lifting the bath.

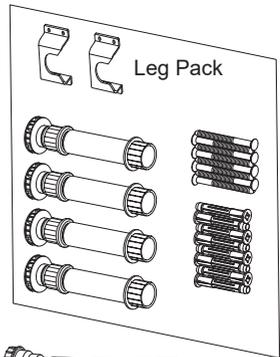

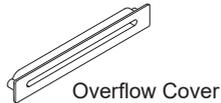

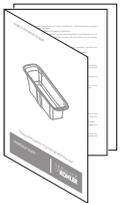

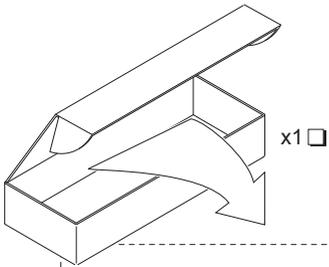

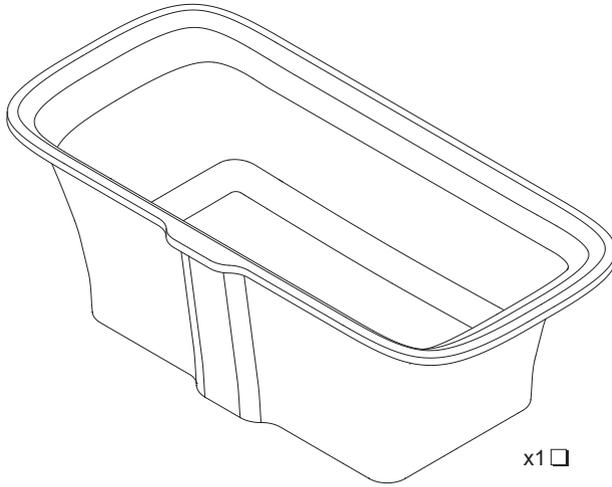

- **Warning!** Appropriate safety apparel eg. gloves and safety footwear must be worn.
- Make sure that the item is installed by a competent installer.
- Shut off the main water supply.
- Observe all local plumbing and building codes.
- Check for transit damage and report any faults immediately to your supplier. No claims for the above will be considered after installation.
- Carefully remove all of the clear protective film from the bath for inspection.
- **Caution!** Additional protective coverings such as a dust sheet should then be used to protect the bath from damage from falling objects during installation.
- Fitting this product is acceptance of quality.
- We guarantee this product against any defect in materials or workmanship for a period of 10 years from the date of purchase.

User Maintenance

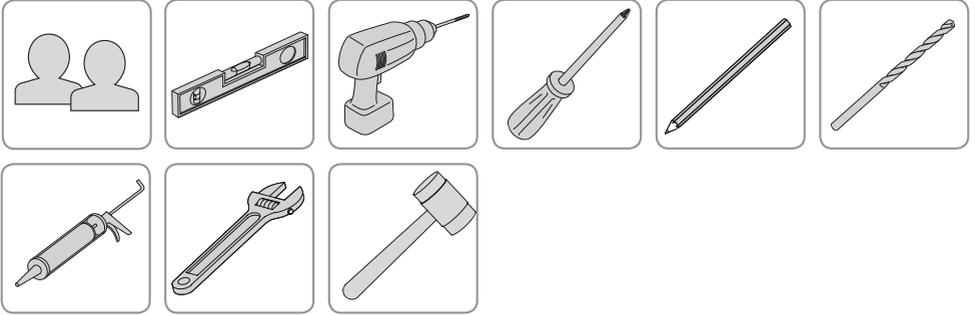

For best results, keep the following in mind when caring for your Mira product:

- Always test your cleaning solution on an inconspicuous area before applying to the entire surface.
- Wipe surfaces clean and rinse completely with water immediately after applying cleaner. Rinse and dry any overspray that lands on nearby surfaces.
- **DO NOT** allow cleaners to soak on surfaces.
- Use a soft, dampened sponge or cloth. Never use an abrasive material such as a brush or scouring pad to clean surfaces.
- Be careful not to leave staining materials in contact with the surface for extended periods of time.
- The ideal cleaning technique is to rinse thoroughly and blot dry any water from the surface after each use.

Pack Contents

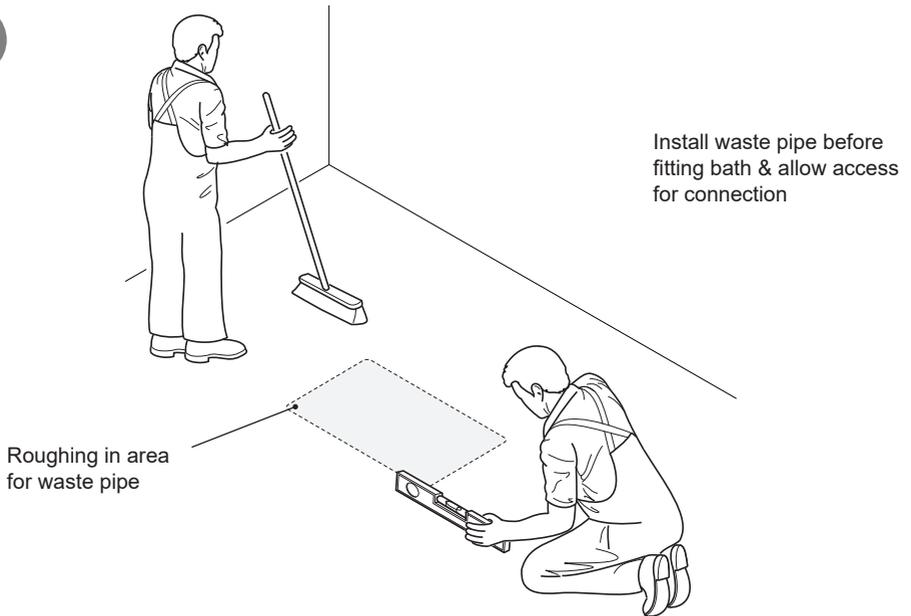

Tools Required

Preparation

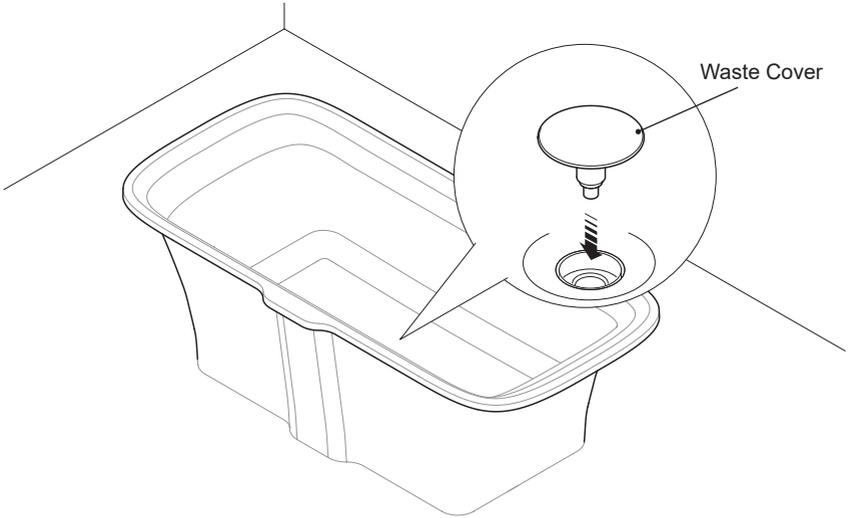

1

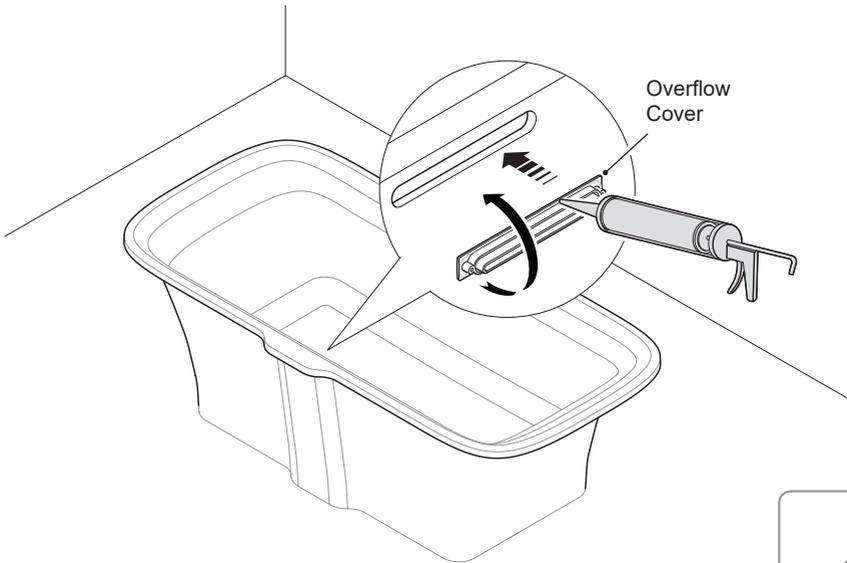

Clean, level and prepare the area for installation.

Note: The bath is suitable for externally mounted brassware only.

2

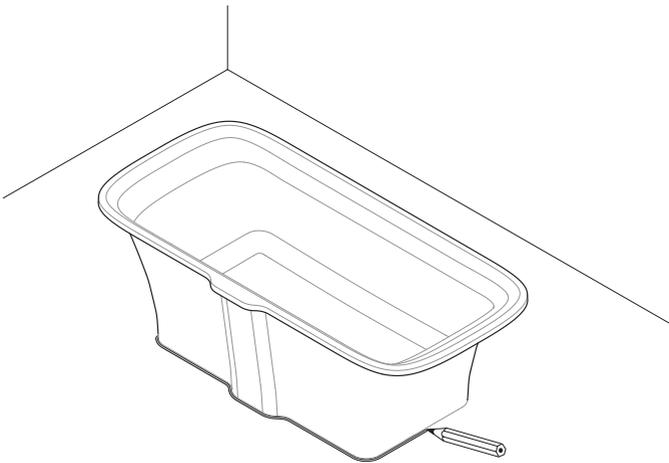

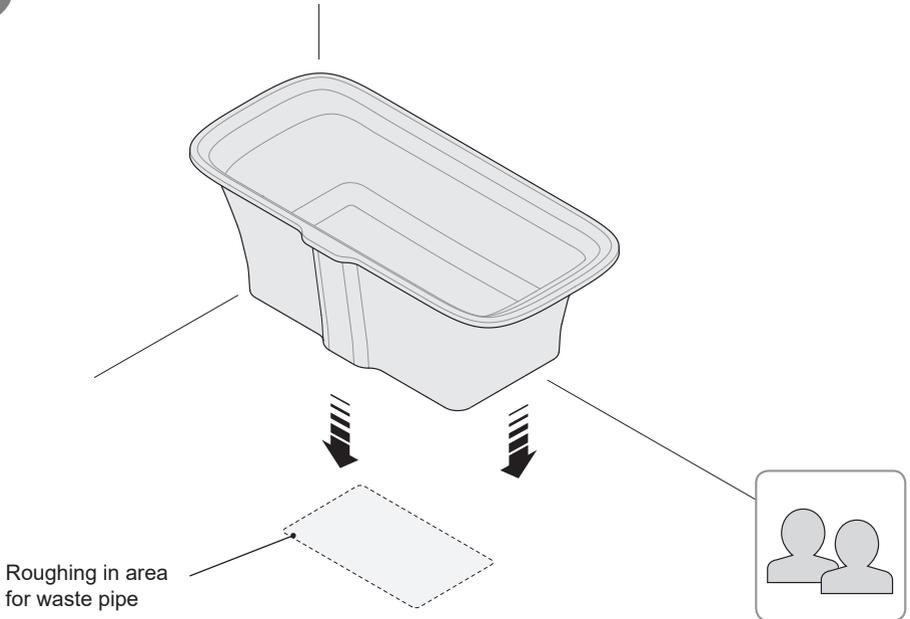

3

Installation

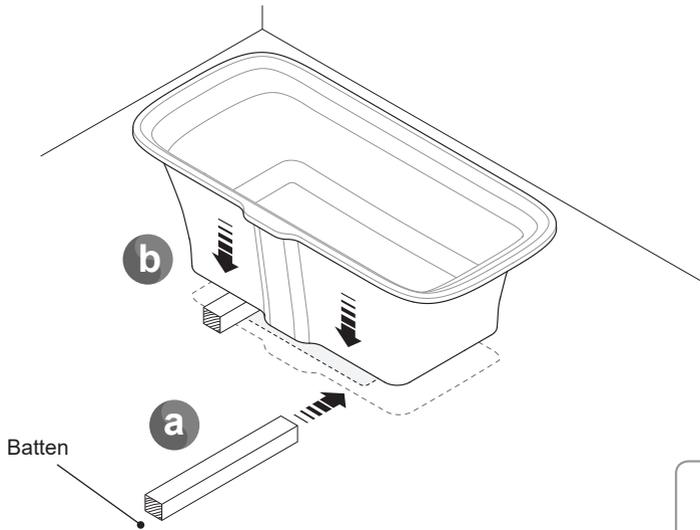

1

Place the unit in the exact position where it will be installed, then mark around the outline of the bath.

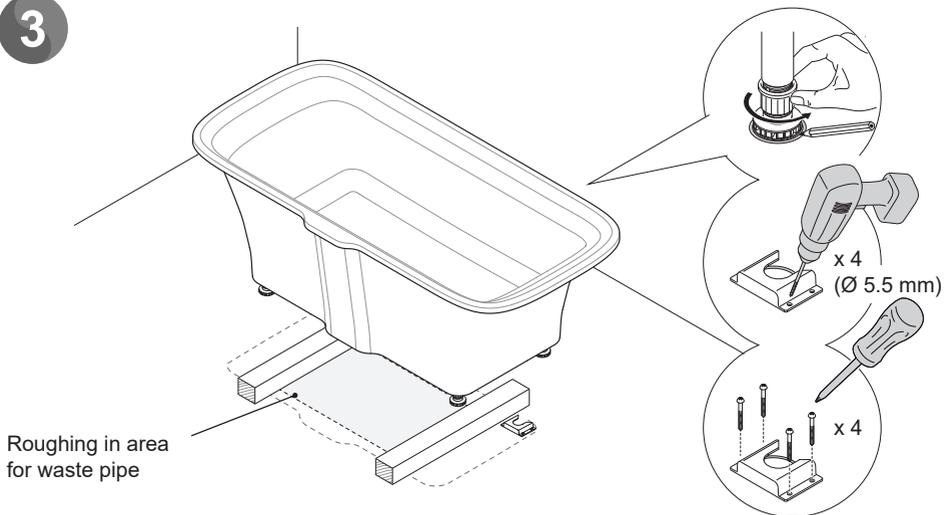

2

To allow the feet to be adjusted place the bath on wooden battens at the short edges. Carefully lower the bath onto the battens.

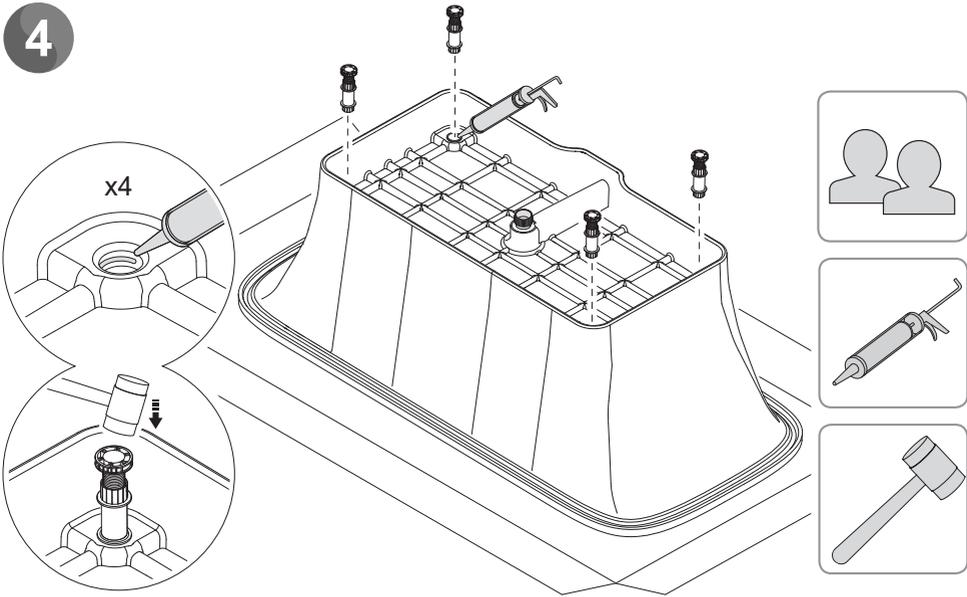

3

Temporarily fit the back feet to the bath. Fully extend the feet and mark their position on the floor.

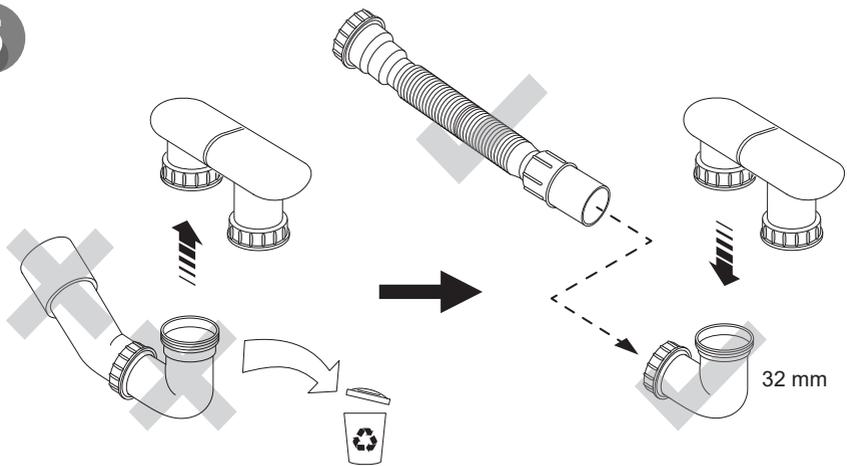

Note: The back feet are at the opposite end of where you would typically enter the bath from. Remove the bath then align the 2x foot lockers with the markings. Drill and secure the foot lockers into place on the floor.

4

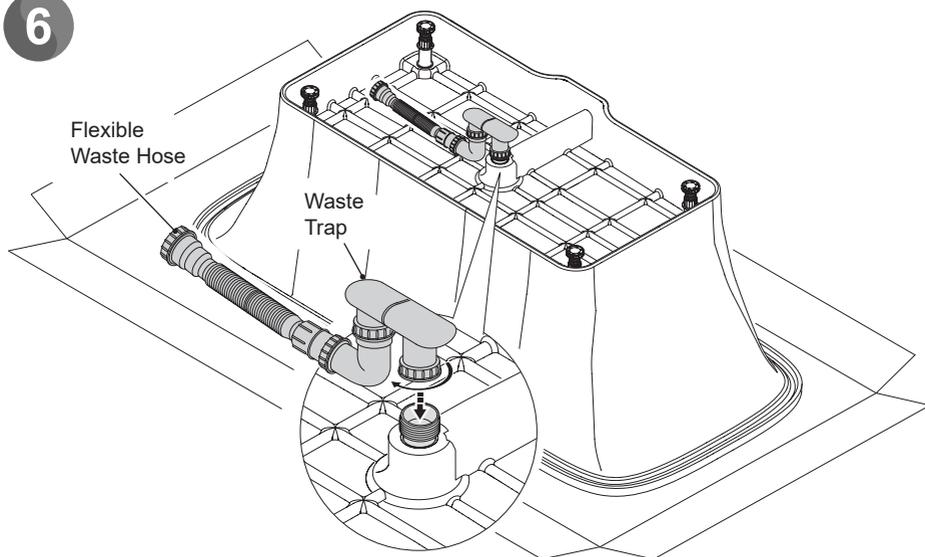

Using a clean blanket, cardboard, or similar protective surface (towel), carefully turn the unit so it is laying on the top deck. Apply a bead of silicone into the foot sockets then fit the feet into the sockets.

5

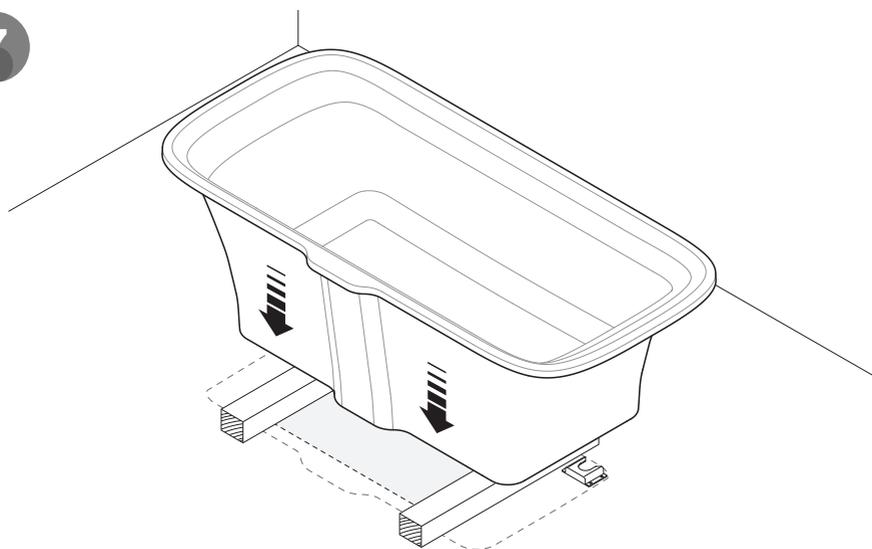

Remove and discard the 90° elbow and 45° extension originally fitted to the waste trap and replace with the 32 mm compression elbow and flexible waste hose (supplied).

6

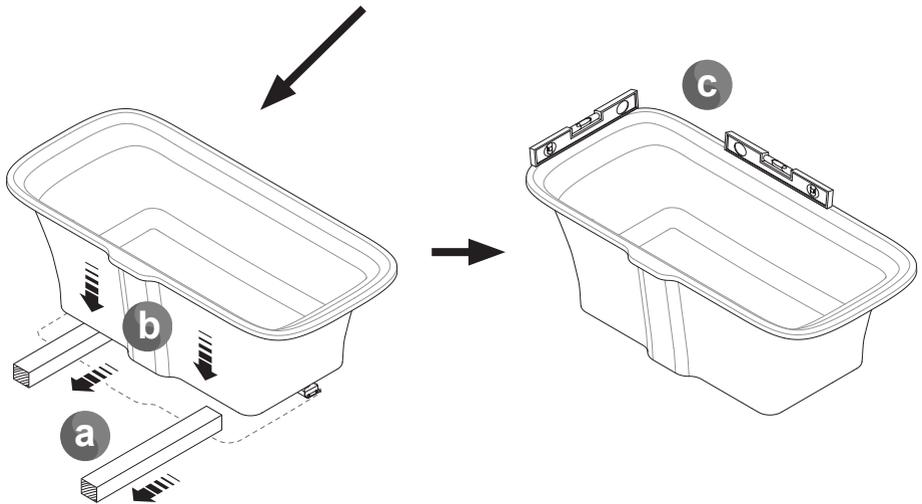

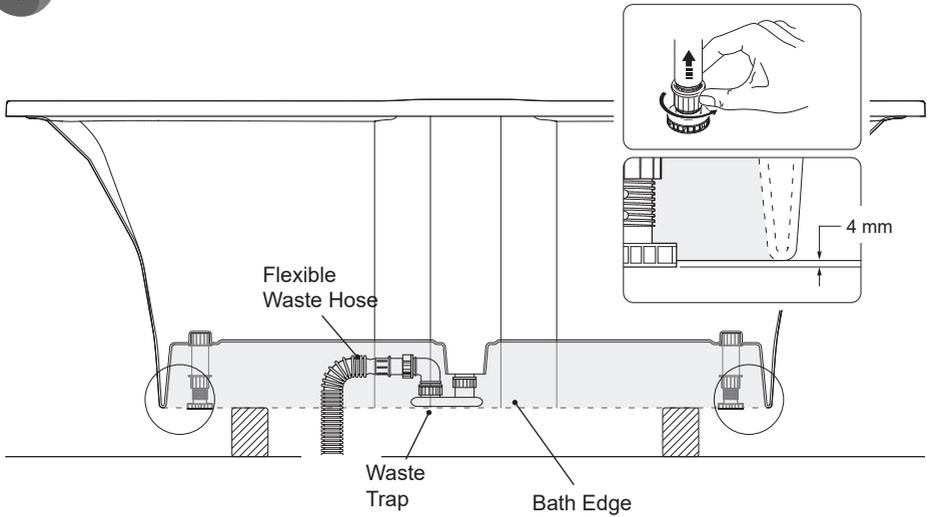

7

Turn the bath over and place it onto the wooden battens. Connect the flexible waste hose to the waste pipe.

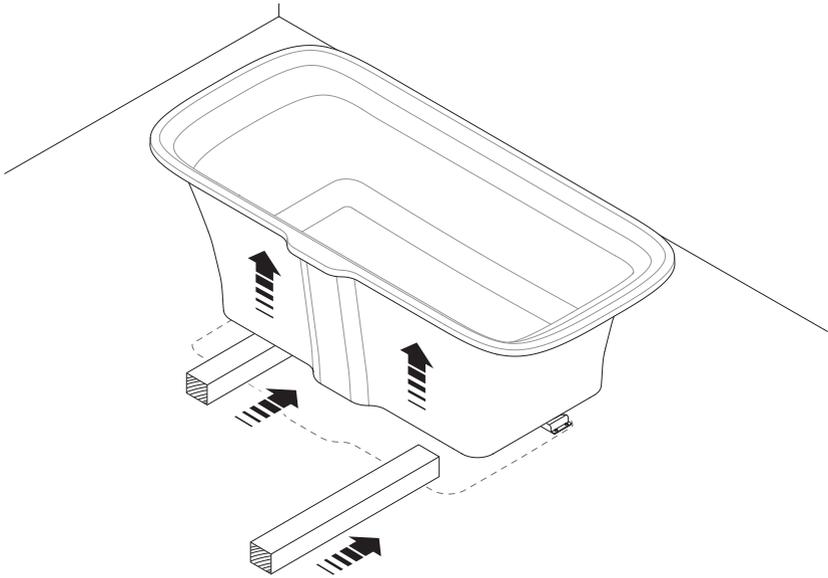

8

Adjust the legs equally until they protrude beyond the bath skirt approximately 4 mm. Temporarily remove the battens and check the bath sits level on the floor.

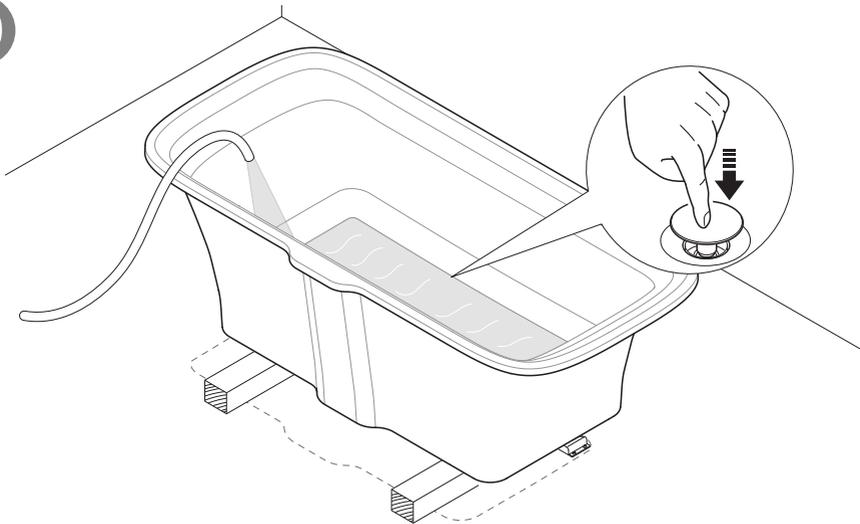

Note: The bath edge should not be in direct contact with the floor.

9

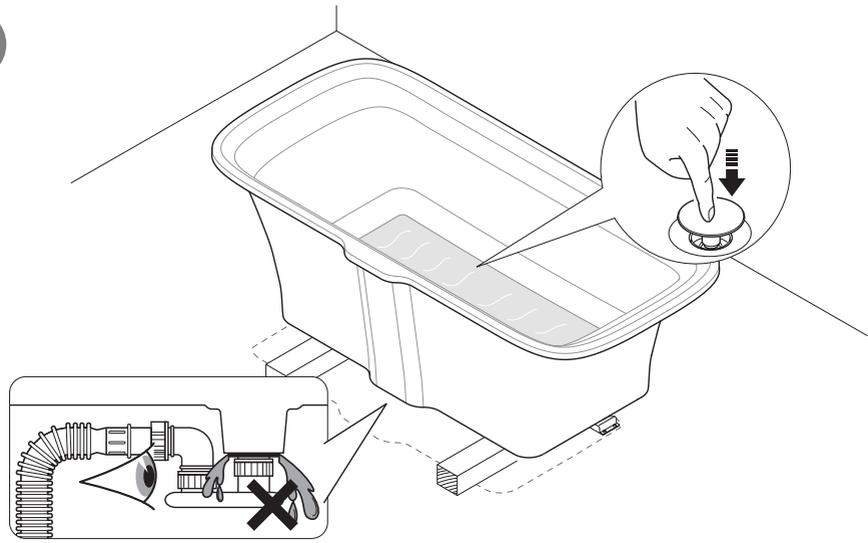

Refit the battens.

10

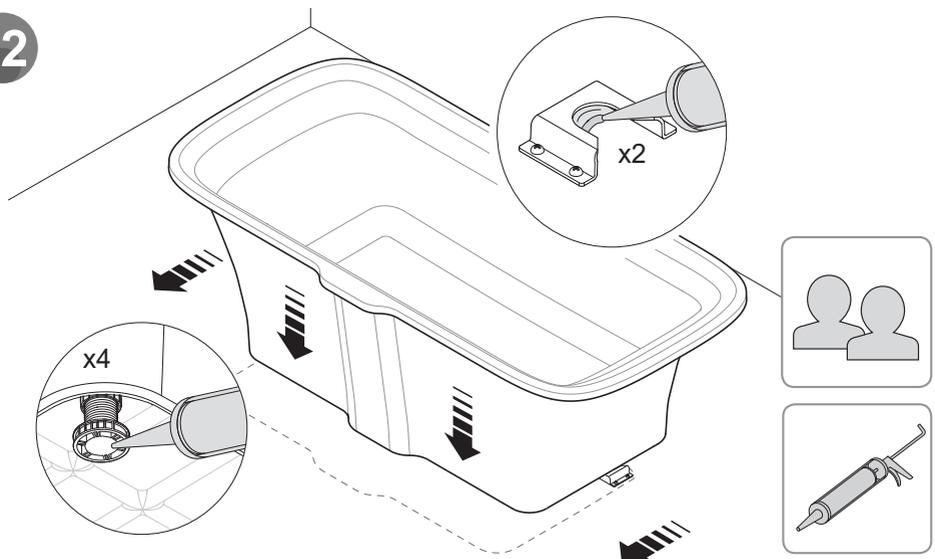

Push the plug to seal the drain then add enough cold water to just cover the bottom of the bath.

11

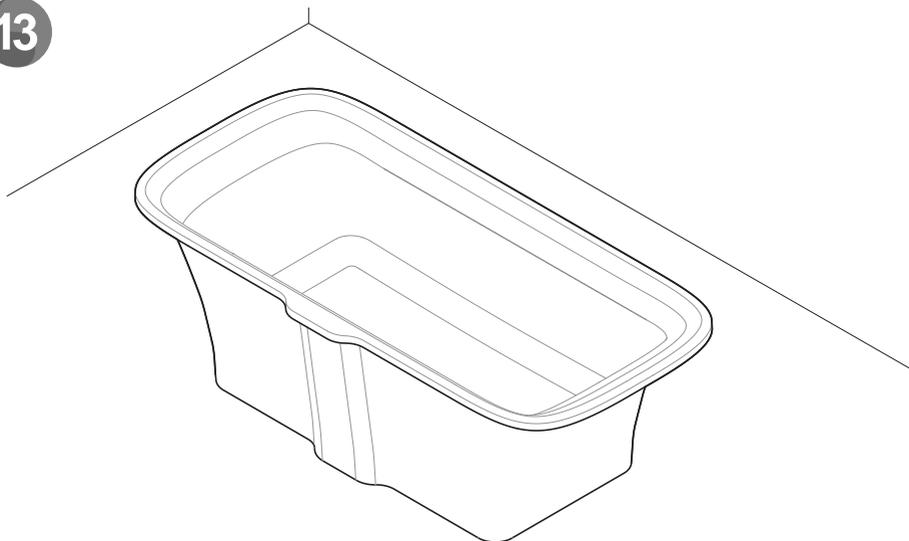

Push the plug to unseal the drain and check the waste connections for any leaks. Check and seal any leaks, then refill the bath to half way and repeat the leak test. Drain the bath.

12

Apply silicone into each foot locker and to the bottom of each foot. Remove the wooden battens and pull the bath forwards until the rear feet engage with the foot lockers.

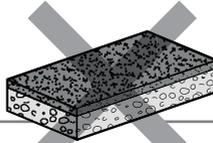

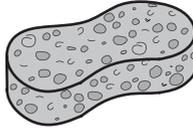

13

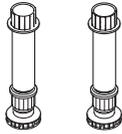

Installation of the bath is now complete, install hot and cold supplies and fit brassware as required.

Note: The bath is suitable for externally mounted brassware only.

Customer Support

Guarantee

Your product has the benefit of our manufacture's 10 year guarantee (1 year for any commercial installations) which starts from date of purchase. This guarantee only applies in the United Kingdom and Republic of Ireland.

To activate this guarantee, please visit our website within 30 days of purchase (UK only).

Within the guarantee period we will resolve defects in materials or workmanship by either repairing the product, providing new goods and parts to you in replacement or refunding (up to but not in excess of) the original purchase price, as we may choose.

This guarantee is in addition to your statutory rights and is subject to the following conditions:

- The guarantee applies solely to the original installation under normal use and to the original purchaser only. The product must be installed and maintained in accordance with the instructions given in this user guide. The product must be inspected and issues reported before installation.
- Servicing must only be undertaken by us or our appointed representative. **Note!** if a service visit is required the product must be fully installed and connected to services.
- Repair under this guarantee does not extend the original expiry date. The guarantee on any replacement parts or product ends at the original expiry date.
- For trims, handles or consumable items we reserve the right to supply replacement parts only.

The guarantee does not cover:

- Call out charges for damage or defects caused by incorrect installation, frost damage, mildew, limescale, corrosion, lack of maintenance, improper use, inappropriate cleaning (please refer to our Care and Maintenance Instructions) or where no fault has been found with the product.
 - Accidental or wilful damage.
 - Compensation for loss of use of the product or consequential loss of any kind.
 - Damage or defects caused if the product is repaired or modified by persons not authorised by us or our appointed representative.
 - Wear and Tear.
 - Products purchased ex-showroom display.
- Note!** Integrated shower systems are subject to a separate guarantee.

IMPORTANT! Bath must be inspected for defects prior to installation. This Guarantee does not cover the costs of removal and/or reinstallation where a defect would have been discovered by inspection prior to installation.

Mira is a registered trade mark of Kohler Mira Limited.

The company reserves the right to alter product specifications without notice.

What to do if something goes wrong

If your product does not function correctly when you first use it, contact your installer to check that it is installed in accordance with the instructions in this manual.

If this does not resolve the issue, contact our Customer Services Team who will offer you or your installer help and advice.

Helpdesk Service - Our Customer Services Team is comprehensively trained and can offer help and advice, spare parts, accessories or a service visit. You will need to have your model name, model number and date of purchase.

Mira Showers Website (www.mirashowers.co.uk)

From our website you can register your guarantee, download additional user guides, diagnose faults, purchase our full range of accessories and popular spares, refer to our FAQ's and request a service visit.

Spares and Accessories - We hold the largest stocks of genuine Mira spares and accessories. Contact us for a price or visit our website to purchase items from our accessory range and popular spares.

Service/Repairs - No one knows our products better than our nationwide team of Service Technicians. We can carry out service or repair work to your product both during and after the guarantee period. Ask about our fixed price service repairs.
