Installation

Note! For dry lined, stud partition, shower cubicle or laminated panel walls the installer may wish to obtain alternative proprietary cavity fixings. Use of these alternative fixings is beyond the scope of this guide.

1. Decide on a suitable position for the soap dish.
2. Place the wall bracket on the wall and mark the position of the fixing holes.
Warning! Ensure there are no buried pipes or cables in the wall before drilling.
3. Drill two 8 mm fixing holes for the soap dish at 35 mm centres, and insert the wall plugs supplied.
4. Screw the wall bracket to the wall.
5. Slide the dovetail on the wall bracket into the groove on the soap dish, and press them together until they clip into place.
