New KOHLER CH440DF engine

Kohler expands Command PRO engine lineup with the new dual-fuel engine

Las Vegas, NV – March 2020 – Kohler Co. announces the launch of the Command PRO® dual-fuel CH440DF engine, an addition to the popular Command PRO lineup that construction professionals have come to rely on to power a wide variety of equipment. The CH440DF carbureted engine is designed to operate on gasoline or propane, offering users the ultimate in flexibility. Simply move a lever left or right to switch between fuels based on fuel levels, preference or task.

This horizontal-shaft, single-cylinder, four-cycle engine is part of the KOHLER Command PRO lineup, which ranges between 4.5 and 14 horsepower gasoline engines designed to power a wide variety of tools on the jobsite, including: concrete saws, compactors, trowels, portable generators and larger products like power buggies.

“Our users depend on KOHLER to provide offerings that meet their diverse needs on the job site. The new CH440DF engine is designed to do just that,” said Ben Marotz, marketing manager for Kohler Engines. “This engine provides great versatility, in addition to the durability, reliability and consistent performance that KOHLER is known for and our partners depend on.”

The CH440DF comes with several standard performance-enhancing features, including: KOHLER’s Quad-Clean™ four-stage cyclonic air cleaner for maximum protection against dirt and debris; Fuel Secure™ automatic fuel line shutoff for clean starts on jobsites, a large fuel tank for longer runtime; cast-iron cylinder liners and forged-steel crankcases for durable operation; and Oil Sentry™ protection which automatically shuts down the engine in low-oil conditions.

About Kohler Engines

Kohler began manufacturing engines 100 years ago and has continually enhanced its product lineup in an effort to help make life easier and more profitable for end users around the globe. The company offers a full array of diesel, gasoline and gaseous-fueled engines – up to 140 hp. – which are supplied to equipment manufacturers worldwide in the construction, agricultural, industrial and lawn and garden markets.
