KOHLER® PRO 300 Hour Oil Change Kits

Save time and money with the new oil change kits by Kohler

February 2021 – Kohler has developed KOHLER PRO 10W-50 Oil and KOHLER PRO Extended Life Oil Filters, which when paired together, triple the oil change interval from 100 to 300 hours in Kohler gas engines.

“By eliminating two of every three oil changes, equipment operators can reduce the total cost of annual oil changes by up to 50% while increasing equipment uptime and productivity” according to Tom Vallo, Channel Manager-Service Parts.

The new KOHLER PRO 10W-50 is a full synthetic oil engineered specifically for extended oil change intervals on Kohler gas engines. The proprietary formulation is shear-stable with high-film-strength to provide extended wear protection, with a more durable fluid film than conventional oils.

In addition, KOHLER PRO 10W-50 has been formulated for all-season performance and includes extra corrosion protection for extended seasonal storage. It also provides lower oil consumption than comparable conventional oils.

The new KOHLER PRO Extended Life Oil Filters are a durable construction for longer life. They feature 10-micron fiberglass media supported by wire backing to provide extra capacity with superior filtration, metal end caps, and a robust anti-drain back valve to ensure oil flow in all conditions. The filter is available in two sizes, depending on the Kohler engine model.

Kohler is offering three convenient KOHLER PRO 300 Hour Oil Change Kits, consisting of KOHLER PRO 10W-50 full synthetic oil and Kohler PRO Extended Life oil filter, to service most Kohler gas engines. Contact your local KOHLER Authorized Dealer to learn more, or visit KohlerPower.com.

About Kohler Engines

Kohler began manufacturing engines 100 years ago and has continually enhanced its product lineup in an effort to help make life easier and more profitable for end users around the globe. Today, the company offers a full array of diesel, gasoline and gaseous-fueled engines – up to 140 hp. – which are supplied to equipment manufacturers worldwide in the construction, agricultural, industrial and lawn and garden markets. For additional information, visit KohlerPower.com or Facebook.com/KohlerPowerEngines.

About Kohler Co.

Founded in 1873 and headquartered in Kohler, Wis. Kohler Co. is one of America's oldest and largest privately held companies. With more than 50 manufacturing locations worldwide, Kohler is a global leader in the manufacture of engines and power systems; kitchen and bath products; and owner/operator of two of the world's finest five-star hospitality and golf resort destinations in Kohler and St Andrews, Scotland.
