

80/100RE0ZJF

Standby Generators

KOHLER[®]
IN POWER. SINCE 1920.

SKIP THE FORECAST.

KOHLER KEEPS YOU RUNNING IN ANY WEATHER.

When the grid goes down, reliable KOHLER® backup power means the telecom industry keeps running—ensuring communications flow and data remain safe. Designed for cell tower site applications, 80/100REOZJF generators are available in both open and enclosed unit designs.

QUIET PERFORMANCE

Our sound enclosure delivers a sound performance of 69 dBA, which is among the quietest available.

RELIABLE POWER

Our generators meet tough industry testing and quality standards.

SINGLE-SIDE SERVICE

Maintenance is easy. All frequently serviced touchpoints are located on a single side and accessible by an easy-to-remove lift-off door.

MASS CUSTOMIZATION

Kohler makes it easy to customize units for your specific needs and offers options with smaller footprints.

IDEAL PACKAGE SIZE

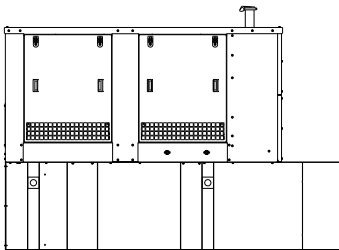

Our design is competitively sized for cell tower site applications, both open unit and enclosed.

EASY INSTALLATION

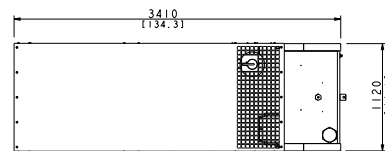

We make installation quick and easy with large stub-up areas and easy access to fuel, load and exhaust locations.
