S1

With a tiny footprint and tight shower alcove, this cozy cottage bathroom makes the most of its limited space. A smart layout and classically neutral color palette give this room an open, airy feeling. With just 40 square feet to work with, every inch counts.

S2

Approximate List Price: \$6,500*

Built in the early 1900s, this brownstone's 83-square-foot bathroom had certainly seen better days. Upgrades like classic white subway tile, a furniture-style vanity and oil-rubbed bronze fixtures preserve its distinctively warm vintage character while adding thoroughly modern functionality.

S3

Blending styles to create one harmonious look is easier said than done. Combining rustic and modern décor with an attention-getting architectural feature gives this 115-square-foot guest bathroom a personalized look that everyone can appreciate.

S1

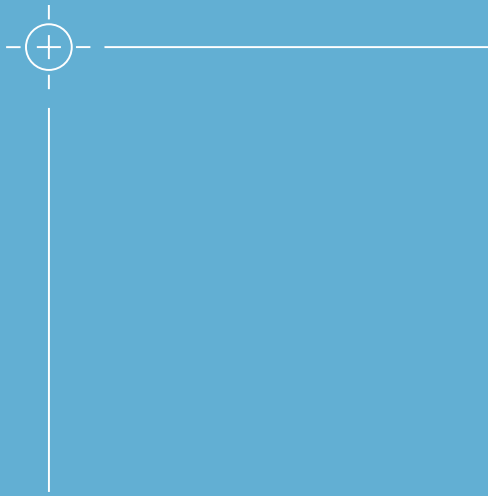

Ideal for recharging after a long day, this cottage-style bathroom proves that cozy doesn't have to be claustrophobic. Despite its petite size, the room feels open and inviting thanks to clean lines and light colors that create the illusion of a larger space. Instead of the traditional shower curtain, install a clear glass shower door to extend sight lines and maximize visual square footage. The Levity™ bath door features a unique bypass system that makes installation easier and provides a smooth, quiet slide. The pedestal sink's slim base and the retrofitted Archer® alcove bath save floor space, making room for bins and accessories.

It wasn't difficult restoring this bathroom to its original glory with vintage-inspired mosaic tiles and a timeless black-and-white color scheme. White subway tiles provide a clean backdrop for Finial® faucets in Oil-Rubbed Bronze and the dark Alberry® vanity. The Adair™ one-piece elongated toilet, with its classic lines, is a perfect high-efficiency toilet for a small space. The clean lines and low step-over height of the Bellwether® alcove bath offer the illusion of more space and extra convenience, serving both as a shower space and the perfect place to bathe kids or take a long soak.

The versatile Tresham® collection is the perfect complement to this room's blend of modern and rustic décor. Inspired by Shaker-style furniture, the collection brings a sense of classic Americana with a modern twist that ties in all of the pieces of this spa-like bathroom. The shower gets a personal touch by adding the HydroRail™-R shower column and customizing the configuration with a rainhead and Shift™ Ellipse multifunction handshower. The Tresham vanity with pullout storage bridges makes room for toiletries while a reclaimed wood beam with pulley serves as a towel hook.
