Statement™ Showering Collection

At Kohler, we believe every shower is a canvas. And our Statement showering collection is the ultimate palette.

Boasting exquisite forms inspired by iconic domestic objects, it seamlessly blends into the spaces we inhabit.

Defined by unique shapes, sizes, finishes, and designs, Statement stretches our perspective and inspires unfettered creativity.

Groundbreaking in global compatibility, it is an open invitation to play with the experience of water.

With the Statement showering collection, unleash your imagination and create a wellbeing experience unlike any other.

Shape the Ultimate Showering Experience

Design

The voluminous forms and approachable designs are inspired by iconic furnishings, bringing form and finish to the forefront without overwhelming the space.

Experience

Signature spray experiences create wholly immersive environments that drench the body and relax the mind, fostering a sense of wellbeing.

Ease of Specification

A diverse portfolio and universal designs that align with global standards allow for unrestrained creativity and seamless specification—anywhere in the world.

Ease of Installation

The collection features an array of uncomplicated forms, ensuring simplified installation in global regions.

Form In Focus

Our design-forward philosophy reimagined and rethought the expected when it came to the form of the Statement™ showering collection. Collaborations throughout our global network of Kohler associates provided the spark of ingenuity and inventiveness that fueled the designs. These conversations allowed us to bring knowledge, experience, and cultural perspectives to every detail of this collection.

The Statement showering collection redefines the minimalist modernism of the past decade. From cold, ultrasharp angles to a warm, approachable minimalism, our designers looked to objects found outside of the bathroom, such as lighting elements and furniture, to blur the lines between rooms—connecting design intentions that flow and feel whole. Combined with powerful spray experiences that create wholly immersive environments to foster a sense of wellbeing and warmth, the Statement showering collection brings form and function to the forefront—beautifully.

Indulgent Sprays,
Inspired Forms

Statement™ Spray Experiences

With a variety of indulgent spray functions, the Statement showering collection helps you build immersive environments for rinsing, massaging, and restoring. Each component is paired with the sprays best suited to its use, expertly aligning form with function. From the flow to the arrangement of streams, the settings have been thoughtfully engineered to deliver transformational moments of wellbeing in every shower.

 FULL COVERAGE WITH KATALYST™ TECHNOLOGY

With air-infused droplets, the flow of water is intensified for enhanced coverage and comfort. It drenches and clings to the body in a full, luxurious spray.

 RIBBON MASSAGE

Water cascades at an angled stream to target the shoulders. This improved alignment offers greater warmth, comfort, and a more relaxing massage.

 CLOUD

Super-fine, silken droplets converge to gently caress the body. The expansive, luxurious spray feels like a warm embrace as it restores a sense of wellbeing.

 INFINITY

Interlaced water streams create three experience zones in a single spray. The droplets closest to the nozzle rinse, while the middle zone warms, and the furthest stream provides coverage.

 DEEP MASSAGE

Strong streams of water twist and swirl to create a slow kneading pattern. The rhythmic massaging delivers relaxation and relief.

 SWEEP™

A wide spray of fine droplets creates a soothing stream. It's ideal for a gentle massage and makes it easy to clean the shower after use.

 FULL COVERAGE RAIN

Gravity-fed droplets envelop the body in a gentle spray. The soft flow of water has a natural feel, mimicking the experience of real rainfall.

STATEMENT

Single-Function Rainhead

The Statement™ single-function rainhead lets the chosen finish shine and delivers a drenching spray for all body types. Choose from round and oblong options, available in 10" (254 mm) or 12" (305 mm) sizes.

Open Rain Iconic Rainhead

In sleek, ultraminimal style, the Statement™ Open Rain rainhead transforms a smooth, laminar flow into enveloping rainfall. Its distinctive design gathers water in the top of the rainhead, allowing the gravity-fed stream to descend organically, and prevents drips or clogs. The luxurious droplets soothe and warm the body, creating an experience that feels as relaxing as it does natural.
