Innate™ Smart Toilet

THE BOLD LOOK
OF **KOHLER®**

Hands-Free

Motion-activated open/close lid and automatic flush for cleanliness and convenience

Gravity-Powered Flush

Well-established technology for reliable performance and powerful dual flush, which provides the option of a 1.0 gpf light flush or a 1.28 gpf full flush

Easy Installation

Patented ReadyLock® installation system eliminates the need to drill into the floor

Convenient Remote Control

Intuitive operation allows for a completely personalized experience

Elevated Cleanliness

Experience next-level clean with pre-use bowl mist and automatic cleaning of the stainless steel wand with UV light

Nightlight

Soft, soothing light illuminates the toilet in the dark to help minimize sleep disruptions

Innate™ Smart Toilet

Combining full-featured functionality with a clean, modern design, the Innate smart toilet offers the unrivaled comfort and hygiene of a smart toilet at a price point that makes it an attractive alternative to a standard toilet.

A Personalized Experience

The Innate toilet features fully adjustable bidet functionality, including control over water pressure and temperature as well as the choice between front and rear wash modes.

Unmatched Hygiene

With hands-free automatic lid operation, UV-light cleaning of the stainless steel wand, and pre-use bowl mist, the Innate toilet offers confidence-inspiring cleanliness. Plus, automatic deodorization keeps the entire room fresh.

Easy Installation

Featuring Kohler's patented ReadyLock® installation system, which eliminates the need to drill into the floor, the Innate smart toilet can be an efficient installation with standard household tools. AC power is required.

Familiar Flush

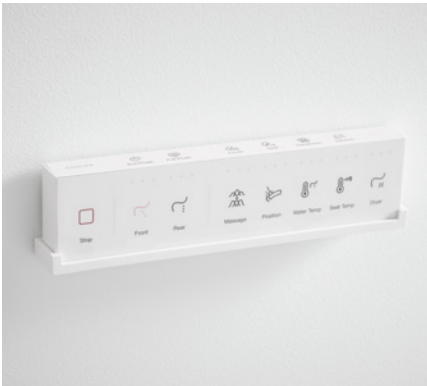

The Innate smart toilet uses a tank-style gravity-powered flushing platform, similar to a standard toilet, resulting in a powerful flush using a proven, reliable design. Its dual-flushing capability (1.0 or 1.28 gpf) conserves water and meets EPA WaterSense® certification.

Heated Seat

Stay comfortable and warm with the Innate temperature-controlled heated seat.

Warm-Air Dryer

Innate features a gentle stream of warm air after the cleansing wand has been used to help reduce the need for toilet paper.
