STERLING HIGHLIGHTS

The history of Sterling began over 100 years ago in a garage. From those humble beginnings, Sterling has grown into an industry leader through a dedication to quality and by continuously innovating. Below are a few highlights from a Sterling history.

1907 Founded in 1907 as Sterling Specialty Company in Crafton, Pennsylvania, the company manufactured boiler stands and gas valves for fireplaces. J.W. Ruby (eventual president) started as a buffer.

1922
Renamed Sterling Faucet Company, making plumber's brass components.

1924 Pioneered the use of a chrome electroplating process. Popular with consumers, the process delivered more than a shiny appearance; components became more durable with greater corrosion resistance.

1939 After struggling to survive the Great Depression, the company suffered a massive fire in 1939 which nearly ended its existence. With only some equipment salvaged, limited production started again in a rented garage.

1940 During the United States' involvement in World War II, Sterling shifted its brass operations into military production to deliver primers and fuses for artillery shells.

1954 Sterling expanded its facilities and scope of production, growing to more than 1,000 employees. J.W. Ruby, Sterling's president at the time, was quoted, "Sterling makes everything that brings water into a house and takes it out again."

1960 Sterling diversified to include an agricultural division and raised Quarter Horses and Black Angus cattle.

1984 Kohler Co. acquired Sterling. As the first acquisition in Kohler's history, the strategy was "to be a major supplier to primarily trade customers—wholesalers, contractors, builders—not DIY, as has been widely assumed."

1990 Sam Davis, the Vice Chairman of Sterling, became the face, voice, and personality of the brand. The tagline he delivered suited him, "Quality fixtures at reasonable prices."

1995–2002 Product launches became the backbone of Sterling's business. From new brass faucet lines and vitreous china products to various tub and shower options, including Vikrell® bathtub and wall products.

2004 Sterling introduced the first made-in-America dual-flush, two-piece toilet with the launch of the water-saving Rockton® toilet.

2019
The Huntsville plant is expanded to increase production.

DESIGNED WITH THE PRO IN MIND.

If you're a professional in the trades, Sterling has your back. We manufacture products to make your life easier. That's why we're all about products with no-nonsense style and no-hassle installation at price points that won't bust the budget.

STERLING® bathroom and kitchen products provide a range of configuration options with dependable performance day in and day out, versatile style, and ease of installation. Our products are built from quality materials, like STERLING baths and showers made of Vikrell® material, which are assembled in Hunstville, Alabama. They're manufactured to withstand anything the job site might throw at them, as well as everyday wear and tear.

Sterling is part of the Kohler family of businesses, which means every product must meet or exceed Kohler's high standards, and everything is backed by 150 years of manufacturing excellence within the kitchen and bath industry.

Connect with us on Facebook and Instagram and visit the App Store or Google Play to download the Sterling Plumbing Catalogs app.

STERLING. Easy to install. Built to last.
Backed by Kohler.

BATHING & SHOWERING

STERLING® baths and showers are manufactured from solid Vikrell® material, which means they stand up beautifully to everyday wear and tear. They're designed for an easy installation, and they give your customers an incredible bathing experience—from relaxation to invigoration, they're covered.

WHY VIKRELL®?

EASY TO INSTALL

- Modular pieces allow one person to install
- Installs directly onto studs
- Snaps together with tongue-and-groove system
- Can be installed any time during construction
- Innovative Dry-Block™ seal provides completely caulkless installation

BUILT TO LAST

- Molded into one solid piece under extreme heat and pressure
- No layers to chip, crack, or peel
- Structural ribs molded in for strength eliminate bounce and give under bath and shower floors
- Nonporous surface wipes clean with soap and water

BACKED BY KOHLER

- Sterling is part of the Kohler family of businesses, which means every product must meet or exceed Kohler's high standards, and everything is backed by 150 years of manufacturing excellence within the kitchen and bath industry
- Vikrell products carry a Ten-Year Limited Warranty (Three-Year Limited Warranty for commercial installations)

BATHS

EVERY BATH IS DESIGNED WITH THE TRADE PRO TOP OF MIND

Whether your customers are looking for a deep, relaxing soak or an invigorating shower experience, STERLING® baths and showers have them covered. Every model was designed to make it easy for a pro to install—saving time on the job. And your customers will thank you at the end of the day for the pocket of calm you've created in their home with a STERLING bath or shower.

Bath Installation Types

BATH/SHOWER

A bath/shower combo adds versatility to the bathroom along with a clean design.

Models: Performa™, Accord®, Accord Tile, Accord Smooth, Ensemble™ Medley, Ensemble Curve, Ensemble Tile, Medley®, STORE+®, Traverse®

Sizes Available: 60" x 29", 60" x 30", 60" x 32", 60" x 36", 60" x 42"

FREESTANDING

The freestanding design creates a striking focal point in the bathroom.

Models: Unwind®, Spectacle®

Sizes Available: 59" x 30", 60" x 32", 60" x 34", 66" x 34", 66" x 36", 67" x 30", 67" x 32"

DROP-IN

STERLING® drop-in baths feature a clean look.

Models: Lawson®

Sizes Available: 60" x 32", 60" x 36", 60" x 42", 72" x 36", 72" x 42"

APRON

STERLING apron baths are easy to install, and they provide a convenient choice for your customers because they work with nearly any style of bathroom.

Models: Performa, Ensemble, Lawson

Sizes Available: 60" x 29", 60" x 30", 60" x 32", 60" x 36", 60" x 42"

FREESTANDING BATHS ARE BUILT FOR PROS AND COVETED BY CONSUMERS.

While the style and comfort of our freestanding baths will appeal to your customers, you'll love the exceptional durability, easy installation, and price point. Both our Unwind® one-piece baths and our Spectacle® two-piece baths with shroud offer thoughtful design details for your customers, such as lumbar support, generous bathing depth, and a wide deck.

UNWIND OVAL BATH

Stunning in its simplicity, the Unwind Oval bath captures a purity of form that encourages its users to soak away the day's stress and find their inner calm.

- One-piece, seamless design
- Built-in integral overflow
- White toe-tap drain included
- Concealed adjustable legs
- Above-floor rough-in
- Available sizes:
96129 — 59" x 30" and 96130 — 67" x 32"

UNWIND RECTANGLE BATH

With crisp, sharp edges that allow it to be placed in a corner, with its back to the wall, or as a traditional freestanding bath, the rectangular model offers both practicality and indulgence.

- One-piece, seamless design
- Built-in integral overflow
- White toe-tap drain included
- Concealed adjustable legs
- Above-floor rough-in
- Available sizes:
96135 — 59" x 30" and 96136 — 67" x 30"

UNWIND® BACK-TO-WALL BATH

Perfect for adding style and luxury to small spaces, the back-to-wall bath features an open back that makes faucet installation easier.

- One-piece, seamless design
- Built-in integral overflow
- White toe-tap drain included
- Concealed adjustable legs
- Above-floor rough-in
- Faucet deck
- Available sizes:
96133 — 59" x 30" and 96134 — 67" x 32"

SPECTACLE® BATH WITH STRAIGHT SHROUD WITH INTEGRAL OVERFLOW AND DRAIN INCLUDED

Exuding strength and confidence, the straight shroud model makes itself the centerpiece of any room it's placed in.

- Toe-tap drain in Polished Chrome included
- 1³/₈" floor clearance—not above floor rough-in
- Faucet deck
- 17¹/₄" bathing depth
- Available sizes:
95333 — 60" x 32" and 95334 — 66" x 34"

SPECTACLE BATH WITH FLUTED SHROUD

Elegant and refined, the fluted shroud model brings a delicate minimalism that softens the design of a room while indulgently cradling its occupant.

- Bath drain and overflow purchased separately
- Above-floor rough-in (3³/₄" floor clearance)
- Extra-wide deck for centered faucet and overflow
- 16" bathing depth
- Available sizes:
95337 — 60" x 34" and 95338 — 66" x 36"

ENSEMBLE MEDLEY® BATH/SHOWER

With a clean, contemporary design, the Ensemble™ Medley bath/shower updates the look of any bathroom. Made of solid Vikrell® material, it delivers strength, durability, and lasting beauty. The durable high-gloss finish provides a smooth, shiny surface that's easy to clean. The innovative Dry-Block™ seal and channeled water containment system forms watertight seams.

Highlights: Includes convenient, molded-in shaving ledges and shelving for shower accessories.

DIMENSIONS

End Drain – Series 7137
60" x 30"

End Drain – Series 7132
60" x 32"

LAWSON® OVAL BATH

Suitable for island, peninsula, or corner installation, the Lawson Oval 60" x 42" drop-in bath features an elegant, simple design. The integrated lumbar support optimizes the bathing space, allowing for more leg room and providing a better soaking experience.

Highlights: Includes an integrated headrest and lumbar support for comfort.

SHOWER STALLS

DESIGNED FOR PROS. BUILT TO LAST.

Made from ultra-tough Vikrell® material, STERLING® shower stalls were created for trade professionals who demand fast and easy installation, rock-solid durability, and the right combination of value and design features. The interlocking shower walls snap into place for a watertight seal with little to no caulk. The solid Vikrell material resists scratches, stains, and pretty much anything else the job site or your customer can throw at it.

Panels fasten directly to the stud walls without adhesive

Strong, durable, solid material

Strong structural ribs are molded into fixture for added support

THREE-PIECE WALL SETS

Three-piece tongue-and-groove walls snap together for easy installation.

FOUR-PIECE WALL SETS

Pro4™ installation system features a two-piece back wall design, which makes it easy for one person to handle and install it.

STORE+®

The STORE+ shower features a fully customizable storage system with interchangeable accessories—from rimmed shelves and deep bins to soap dishes and shower hooks—that eliminate clutter and meet any customer's storage needs. STORE+ is available with either a center drain or an end drain for added installation flexibility. And the center drain model includes the protective GUARD+® shower base for superior water containment. The STORE+ collection also includes bath/shower models.

Highlights: A fully customizable storage system with movable accessories to keep everything in its place.

DIMENSIONS

End Drain – Series 7242
60" x 32"

TRAVERSE®

With its stylish subway tile design, construction of Vikrell® material, and snap-together caulkless installation, the Traverse shower hits all the right notes for trade professionals and homeowners alike. The Pro4™ installation system splits the back wall into two pieces, so you can move it around corners, up and down stairways, and through doors with ease. The full-length shelf along the back wall creates a seamless look while providing plenty of space for shower accessories. The Traverse collection also includes bath/shower models.

Highlights: The full-length shelf provides generous storage.

SHOWER BASES

TOUGH ENOUGH TO HANDLE ANY BUSY BATHROOM

STERLING® shower bases are manufactured from solid Vikrell® material, which makes them tough and perfect for high-traffic bathrooms. They can be installed by just one person, and they feature water containment guards and weep channels to help keep the water where your customer wants it—in the shower.

BATH & SHOWER DOORS

AS TOUGH AS THEY ARE BEAUTIFUL

STERLING® bath and shower doors are designed to be beautiful, durable, and simple to install. Each one is assembled in Union City, Tennessee. At Sterling, we think beyond the door with innovations such as ComforTrack® and CleanCoat® technologies. And we offer a range of glass and frame options to fit all tastes and styles.

Door Types

SLIDING

Features a center-guided mechanism for smooth, quiet sliding action and easy cleaning.

Models: Finesse Peak®, Finesse™, Meritor®, Enclave®, Deluxe

Sizes Available: See chart on pages 48 and 49

PIVOT

The door swings outward and can be installed to open to the right or left.

Models: Finesse, Finesse Peak®, Vista Pivot™ II, Standard

Sizes Available: See chart on pages 50

DELUXE FRAMED SHOWER DOORS

STERLING® Deluxe framed shower doors deliver a smooth, quiet operation, and tempered glass helps to maintain safety and durability. Anodized aluminum prevents rusting and corrosion to look good even in the busiest of bathrooms. Deluxe doors also features a reversible top track and towel bar.

Highlights: Out-of-plumb adjustability simplifies installation.

MERITOR® FRAMELESS SHOWER DOORS

For a sleek, minimalist look, Meritor frameless doors are the perfect choice. They feature cushioned ComforTrack® technology, allowing users to comfortably sit, lean, or kneel on the bottom track of the door, as well as CleanCoat® technology for a protective barrier that repels water and prevents dirt and minerals from collecting. Interior and exterior towel bars complete the look of this door.

Highlights: The door can be installed to open to the left or right to best suit the bathroom layout.

FEATURE

The cushioned threshold of ComforTrack technology makes it easy to get in and out of the bath or shower without catching a toe or stepping on a cold, hard traditional shower track.

Tips for determining your door size

CORRECT MEASUREMENTS ARE CRITICAL

- Measure the distances from wall to wall at both top and bottom of opening (A and B). These measurements may vary.
- Select a door with a maximum opening size equal to or slightly greater than your larger measurement.
- Measure the distance from top of the bath ledge or shower base to top of the bath/shower, shower wall unit, or tile wall where you want the door to be located (C).
- Select a door with desired height equal to or slightly less than your measurement.

Important: When measuring the height (C), do not measure to the top of the bath/shower, shower unit, or tile wall if there is a beveled or radius top edge. Measure the height only to the lowest starting point of the bevel or radius.

Shower door features to consider

FRAMED

Aluminum frame mounted to the edges of the glass door panel adds structure to the glass.

FRAMELESS

Minimal metal framing creates a sophisticated look and feel. Thicker glass is used to eliminate the need for structural framing.

A RANGE OF TEXTURES AND PATTERNS

STERLING® doors are available in various glass thicknesses with an array of alluring textures and patterns. Not every door style is offered in all glass options.

Textures

Clear (G05)

Rain (G06)

Pebbled (G10)

Patterns

Frosted (G03)

A person wearing a dark plaid shirt is seen from the side, looking out a window. The window shows a view of green trees outside. The scene is set in a bathroom with light-colored walls.

BATHROOM FAUCETS

STERLING® bathroom faucets are designed for quick installation and feature durable materials for reliable performance. Backed by our Sterling Faucets Lifetime* Limited Warranty, you can install with confidence.

*For as long as original consumer purchaser owns his/her home.
For complete warranty details, visit SterlingPlumbing.com/Warranty.

BATHROOM SINK FAUCETS

NO-NONSENSE STYLE. NO-HASSLE INSTALLATION.

Available in three timeless designs that easily coordinate with a wide range of **STERLING®** fixtures, the **Ludington®**, **Medley®**, and **Valton®** bathroom sink faucet collections complement a variety of decors while simplifying the specification process.

PRO BENEFITS:

- **Durability**—features high-quality ceramic disc valves
- **Versatility**—can be paired with a wide variety of bathroom designs
- **Compatibility**—Sterling and Kohler use the same finishes and can be mixed and matched
- **Easy Installation**—faucets come preassembled in the box for fast and simple installation

LUDINGTON®

The Ludington bathroom faucet collection combines traditional styling and vintage elements for an industrial look.

Models: Single-Handle, Centerset

MEDLEY®

The Medley bathroom faucet collection adds a contemporary feel to a classic style.

Models: Single-Handle, Centerset

VALTON®

The Valton bathroom faucet collection features fluid design lines for a versatile addition to any bathroom space.

Models: Single-Handle, Centerset

BATH & SHOWER FAUCETS

COMPLETE THE SPACE IN STERLING®

Every bathroom faucet collection pairs perfectly with its bath and shower trim components to complete the space for a coordinated look.

LUDINGTON®

Adds traditional styling and vintage elements to the space.

MEDLEY®

Brings a contemporary feel with classic style.

VALTON®

Features fluid design lines for a versatile addition to the bathroom space.

BATHROOM SINKS

The style and ease of cleaning make STERLING® sinks a favorite among customers. Pros love their durability and ease of installation. Made of grade A vitreous china or stainless steel, there's a perfect STERLING sink for every busy bathroom.

BATHROOM SINKS

STYLE MEETS DURABILITY

Your customers will love STERLING® sinks for their style and ease of cleaning—perfect for any busy bathroom. As a pro, you'll love their durability and ease of installation. Made of grade A vitreous china or stainless steel, you can find the perfect STERLING sink for any job.

PEDESTAL

The perfect addition for bathrooms where space is limited or where customers are looking to make a statement.

Model: Sacramento®

Sizes: See chart on pages 68-69

DROP-IN

A more traditional installation, a drop-in sink features a compact size with ample basin space.

Models: Sanibel™, Modesto™, Stinson®, Round Stainless Steel, Oval Stainless Steel

Sizes: See chart on pages 68-69

UNDERMOUNT

An undermount installation provides an understated look that lets the rest of the bath space shine.

Models: Stinson, Wescott®, Round Stainless Steel, Oval Stainless Steel

Sizes: See chart on pages 68-69

STINSON®

With its geometric shape and minimal style, the Stinson sink is a perfect addition to any contemporary bathroom and is crafted from durable, grade A vitreous china.

Highlights: Available as a drop-in or undermount installation.

FEATURE

A rectangular shape provides a modern look.

SACRAMENTO®

The Sacramento pedestal sink is perfect for powder rooms or bathrooms where space is limited. This sink features a minimalist style that complements a variety of decors from contemporary to more traditional looks.

FEATURE

Smooth lines and round edges make for a sleek look.

Stainless Steel

A photograph of a white toilet in a bathroom. The toilet is positioned against a wall with vertical grey paneling. In the foreground, a wooden floor with a light-colored wood grain is visible. A brown leather boot with a dark sole is placed on the floor in the bottom right corner. A metal flange is also visible on the floor near the toilet base.

TOILETS

Help your customers coordinate the look of their bathroom with a STERLING® toilet. The ideal complement to STERLING sinks, baths, and showers, our toilets set the standard in style, performance, and ease of installation.

TOILETS

PARAGONS OF POWER

STERLING® toilets feature Pro Force® Plus technology with a jetted bowl and optimized waterway. The result is a clean bowl and virtually plug-free performance. STERLING toilets are easy to install because the gasket and bolts are preinstalled on the tank. What's more, STERLING toilets are manufactured in the same facilities and meet the same standards as KOHLER® toilets—one of the most respected brands in the business.

Elongated

Round-Front

PRO FORCE® PLUS TECHNOLOGY

Pro Force Plus is a revolution in flushing power. We improved upon our original Pro Force design with a jetted bowl and optimized waterway. The result is a more powerful flush, a cleaner bowl, and plug-free performance.

WHY CHOOSE STERLING® TOILETS?

- Precision-engineered patented tank, bowl, and trapway create strong siphon during flush
- 1.28 gpf models can save up to 2,383 gallons of water each year versus a 1.6 gpf toilet*
- Fully glazed trapway helps ensure a strong, complete flush
- Preinstalled gasket, bolts, and premium fill valve make installation a snap
- Wide array of designs to meet the job's needs

*Based on average household of four, each flushing 5.1 times a day, 365 days a year.

BRELLA® COMFORT HEIGHT®

The Brella Comfort Height two-piece toilet with skirted trapway makes installation effortless and looks good doing it. Its ReadyLock® mounting system lets you easily install it without having to drill into the floor. Powerful flushing performance leaves nothing behind and keeps the toilet bowl clean longer. And when it comes to style, the skirted design provides a clean, seamless look that works perfectly in any contemporary bathroom.

Highlights: As Sterling's only skirted toilet, Brella uses ReadyLock, which is the same easy installation system that KOHLER® skirted toilets use.

FEATURE

ReadyLock installation system.

STINSON® COMFORT HEIGHT®

Subtle design lines give the Stinson toilet a sense of elegance, and its clean appearance suits a variety of personal preferences in decor. This two-piece toilet with Pro Force® Plus technology delivers greater flushing power than previous Pro Force models. Featuring a Floor Saver® base, the Stinson toilet is designed and sized to help cover the old footprint left by many standard two-piece toilets.

Highlights: Comfort Height bowl offers chair-height seating that makes sitting down and standing up easier for most adults.

FEATURE

Floor Saver base helps cover the footprint left by many standard two-piece toilets.

WINDHAM™

Get extraordinary style without sacrificing performance when you choose a Windham toilet. Redesigned with a jetted bowl for an exceptional one-flush performance, the Windham toilet is sure to deliver consistent, reliable flushing power.

Highlights: Windham has elongated and round-front models with 10", 12", and 14" rough-ins, so there's an option for every project.

FEATURE

Jetted bowl for one-flush performance.

STERLING® TOILET FEATURES:

THREE-BOLT INSTALLATION

Three preinstalled encapsulated bolts save installation time, provide more leveling adjustment capability, and prevent corrosion.

READYLOCK®

Patented ReadyLock installation system, a simple solution for skirted toilets, saves time, hassle, and eliminates the need to drill into the floor for standard 12" (305 mm) rough-in.

FLOOR SAVER®

Floor Saver base helps cover the old footprint left by many standard two-piece toilets.

To be WaterSense®-labeled, a toilet must meet the following criteria:

- Single-flush toilets must use 1.28 gpf or less
- MaP test or soybean paste test must meet a minimum requirement of 350 grams of waste removed

KITCHEN FAUCETS & SPECIALTY SINKS

STERLING® kitchen faucets and sinks are the workhorses of the kitchen. From meal prep to dirty dishes, they help make light work of daily kitchen chores. Plus, they're incredibly durable and easy to install.

WHY STAINLESS STEEL?

SOUND-ABSORPTION TECHNOLOGY

Adopted from the auto industry in 2002, SilentShield® pads are incorporated into our stainless steel sinks to dampen unwanted noises and vibrations from clanging dishes, running water, or the garbage disposal.

UNIQUE BASIN SHAPE

The bowls of STERLING® stainless steel sinks are manufactured to be flatter than most others, which provides more volume and usable space.

BACKED BY KOHLER

All STERLING sinks are made in the same facility as KOHLER® stainless steel sinks, so STERLING sinks go through the same quality checks and adhere to the same standards and testing as KOHLER sinks.

KITCHEN SINKS

THE EASY CHOICE FOR THE PRO

Featuring outstanding quality and durability at an affordable price point, STERLING® kitchen and specialty sinks are the go-to option for creating efficient kitchen spaces. Featuring 18- to 20-gauge stainless steel or solid Vikrell® construction, these durable sinks are available in single- and double-bowl configurations as well as top-mount, undermount, and apron-front designs. All STERLING stainless steel kitchen sinks feature SilentShield® technology—perfect for everyday use.

SINGLE-BOWL

Ideal for washing large pots and platters, a single-bowl sink provides plenty of workspace for busy kitchens.

Models: Ludington®, McAllister®, Southhaven®, Middleton®

DOUBLE-BOWL

A great choice for customers who want a versatile workspace, this configuration offers separate cowls for washing and rinsing.

Models: Ludington, McAllister, Southhaven, Middleton

UNDERMOUNT

This sink mounts beneath the countertop, making it easy to sweep debris off the countertop and into the bowl.

Models: Ludington, McAllister, Meritor™

TOP-MOUNT

The most versatile installation type, top-mount sinks can be used with all countertop styles.

Models: Southhaven, Middleton, Meritor

APRON-FRONT

Notable for its front panel, an apron-front sink adds the classic farmhouse look to any kitchen.

Models: Ludington

LUDINGTON® KITCHEN SINK

The Ludington kitchen sink is an easy installation for any remodeling or new construction project. The Self-Trimming® design on the apron-front sink requires only a simple rough cut, overlapping the cabinet face for beautiful results. The Ludington sink features SilentShield® technology sound-absorption system that reduces noise and vibration. With a deep bowl and multiple styles to choose from, it's the perfect choice for any kitchen, especially in the home of people who love to cook.

Highlights: Ludington is available with or without accessories. The -PC Ludington SKUs come with four accessories. (K-7400 strainer, 1314318-0 hexagon trivet, K-6379-0 surface swipe, 20285-ASH silicone sink mat)

FEATURE

Convenient accessories include a surface swipe, silicone sink mat, sink drain and strainer, and trivet.

LATITUDE® UTILITY SINK

STERLING® utility sinks are built to last. Solid Vikrell® material makes them heat- and stain-resistant—a welcome feature in a busy mudroom or laundry space. The Latitude utility sink can be installed as an undermount or top-mount sink. Its unique quarter-deck design provides ample space for storage and cleaning.

Highlights: The latitude sink is available with or without a stand.

FEATURE

The unique quarter-deck shelf and optional metal stand add valuable storage space.

KITCHEN FAUCETS

PERFORMANCE PRICED RIGHT

Designed for versatility, value, and simplicity, STERLING® faucet collections offer you the opportunity to expand your specification options with high-quality products that are easy to install, easy to specify, and will leave your customers highly satisfied.

Ludington®

Medley®

Valton®

VERSATILITY

With designs that easily complement traditional and transitional aesthetics, all three faucet collections are available in finishes and configurations to make specification fast and easy.

PERFORMANCE & INNOVATION

STERLING® pull-down and pull-out kitchen sink faucets feature ProMotion® technology, which allows the sprayhead to swivel for increased comfort, and MasterClean™ sprayfaces to prevent mineral buildup. Plus, dual-spray functionality includes a circular ring spray for efficient cleaning.

EASY INSTALLATION

You've got better things to do than fiddle around with parts and make extra runs to the hardware store. That's why STERLING faucets come preassembled in the box, with supply lines included. All faucets with a spray hose use quick-connect mechanisms to further reduce installation time.

QUALITY & RELIABILITY

Unlike many kitchen faucets in their price range, STERLING faucets feature high-quality ceramic disc valves. This helps ensure longer life, improved performance, and customer satisfaction.

PULL-DOWN

A pull-down faucet adds convenience to the kitchen and makes prep and cleanup easy.

PULL-OUT

Two-function pull-out sprayhead switches between an aerated stream and powerful ring spray.

STANDARD

Single lever handle makes adjusting water temperature easy.

MEDLEY®

With clean lines, the Medley kitchen faucet collection adds a contemporary feel to a classic style. The Medley kitchen faucet line features two spray offerings and is available as a pull-down or pull-out kitchen faucet. Both of these versions fit with single- and three-hole installations with optional escutcheon plate included.

VALTON®

Valton offers the broadest selection of configurations in the STERLING® faucet portfolio, including an option for a sidespray. The Valton kitchen faucet collection features fluid design lines for a versatile addition to any kitchen space, and fits single- and three-hole installations with optional escutcheon plate included.

LUDINGTON®

The Ludington kitchen faucet collection combines traditional styling and vintage elements for an industrial look. Ludington is available in pull-down and pull-out models. Both versions fit with single- and three-hole installations with optional escutcheon plate included.

AGING IN PLACE

Aging in Place (AIP) and ADA-compliant products look great while meeting needs as they change over time. They're designed to keep people comfortable in their homes for years to come.

AIP What Is Aging In Place?

Designed to help anyone prepare their home for the future without intruding on their lifestyle today, our Aging in Place products provide comfort and security. They may not meet the same requirements as ADA-compliant products, which allows more design flexibility.

ADA What Is ADA-Compliant?

Designed to meet stringent public-access standards regarding load-bearing capacity, force actuation, and/or accessibility, our ADA-compliant products accommodate a wide range of abilities. Install them per the applicable requirements of the Americans with Disabilities Act—2010 ADA Standards for Accessible Design, and they will be compliant.

Beautiful, yet practical, **STERLING® straight grab bars** can be installed on a shower or bath/shower with backerboards. Or install these bars on a new or existing wall by simply securing the grab bar to a stud. Our innovative assembly system allows flexible bracket positions for placement that works around tile patterns or wall features.

Designed to perfectly complement the modern design of **STERLING Accord®** showers, **STERLING curved grab bars** deliver elegance while providing an extra measure of security when you need it.
