

STERLING
A KOHLER COMPANY

**FAUCET
COLLECTIONS**

PERFORMANCE PRICED RIGHT

Versatile styles. Built to last. Backed by Kohler.

The STERLING® kitchen and bathroom faucet collections were built with the pro in mind. We designed each one for versatility, value, and simplicity. The collections provide you with the opportunity to easily expand your specification options with high-quality products that fit a wide range of styles and won't break the budget.

STERLING FAUCETS

With three design options and a range of configurations, these faucet collections fit any job, from remodeling to new construction and developments and more. You and your customers can count on dependable performance, attractive pricing, and versatile style.

Ludington™

Medley™

Valton®

As a Kohler company, Sterling manufactures its faucets to Kohler's single level of exceptional quality, regardless of price. STERLING faucets are backed with our Lifetime Limited Warranty* for residential applications and 10-Year Limited Warranty for multifamily developments. STERLING faucets include features rarely found on faucets in their price range, including ceramic disc valves and incredibly durable finishes. Plus, they're made to be compatible with KOHLER® products, providing a simple way to combine solutions or upgrade a design.

Manufactured to Kohler's single level of exceptional quality.

*For as long as the original consumer owns their home.

Medley™ Pull-Out Kitchen Sink Faucet 24275-CP

Medley Single-Handle Bathroom Sink Faucet 27371-4-BL

KITCHEN FAUCETS

THE EASY CHOICE FOR THE PROFESSIONAL

Featuring outstanding quality and durability at an affordable price point, Ludington™, Medley™, and Valton® kitchen faucet collections make installation easy while adding style options for your customers' kitchen designs.

Versatility

With designs that easily complement traditional and transitional aesthetics, all three faucet collections are available in finishes and configurations to make specification fast and easy.

Performance & Innovation

STERLING® pull-down and pull-out kitchen sink faucets feature ProMotion® technology, which allows the sprayhead to swivel for increased comfort, and MasterClean™ sprayfaces to prevent mineral buildup and wipe clean easily. Plus, dual-spray functionality includes a circular ring spray for efficient cleaning.

Easy Installation

Designed to save time and increase productivity, all STERLING kitchen faucets come preassembled in the box with the supply lines included. All faucets with a spray hose use quick-connect mechanisms to further reduce installation time.

Quality & Reliability

Unlike many kitchen faucets in their price range, STERLING faucets feature high-quality ceramic disc valves. This helps ensure longer life, improved performance, and customer satisfaction.

BATHROOM FAUCETS

NO-NONSENSE STYLE. NO-HASSLE INSTALLATION.

Available in three timeless designs that easily coordinate with a wide range of STERLING® and KOHLER® fixtures, the Ludington™, Medley™, and Valton® bathroom sink faucet collections complement a variety of decors while simplifying the specification process.

Durability

All STERLING bathroom faucets come with high-quality ceramic disc valves, a feature that increases their longevity and is rarely found on faucets at this price point.

Versatility

STERLING bathroom sink faucets and bath and shower trim sets can be paired with a wide variety of bathroom designs within traditional and transitional aesthetics, taking the guesswork out of choosing the right faucet for a given sink, vanity, or shower design.

Compatibility

Sterling and Kohler use the same shower valves, which means that all STERLING bath and shower trim sets fit seamlessly over KOHLER valves, reducing the hassle of dealing with multiple parts and simplifying future upgrades to KOHLER trim.

Easy Installation

All STERLING bathroom sink faucets come preassembled in the box for fast, simple installation and increased efficiency.
