

Innovative Technologies

REVOLUTION 360®

Toilets with Revolution 360 swirl flushing technology with CleanCoat™ stay clean twice as long as conventional toilets.*

CONTINUOUSCLEAN

KOHLER® toilets with ContinuousClean and CleanCoat stay cleaner five times longer than conventional toilets.†

AQUAPISTON®

Kohler's patented flush engine, AquaPiston delivers high-octane power for our toilets. Water enters the canister from 360 degrees for a flush that packs a powerful punch to eliminate clogs without wasting water.

THREE-BOLT INSTALLATION

Three encapsulated preinstalled bolts save installation time and provide more options for adjustment.

OMNIDIRECTIONAL INSTALLATION

The patent-pending two-bolt and gasket system allows for greater adjustability but provides the same security as a standard three-bolt installation.

DRYLOCK™

The KOHLER® DryLock system saves installation time and helps prevent water leakage. It requires only a socket wrench to secure the tank to the bowl and eliminates bolt holes drilled into the tank.

READYLOCK®

Making it easy to install a skirted toilet, our innovative installation system doesn't require drilling, caulk, or special tools.

CLEAN CAPS®

Available on KOHLER concealed trapway toilets—also available as a kit—Clean Caps low-profile bolt caps make it easier to keep the toilet clean.

PRO FORCE® PLUS

Pro Force Plus flushing technology features a jetted bowl, delivering greater flushing power than previous models and virtually plug-free free performance.

Product Attributes

BOWL HEIGHTS

Standard Height
Traditional height ideal for many users.

Comfort Height
Makes sitting down and standing up easier.

Tall Height
Provides accessibility and ease of use.

BOWL SHAPES

Round-Front
A good solution for small spaces.

Compact Elongated
Compact footprint with added comfort.

Elongated
Provides added room and comfort.

TRAPWAY STYLES

Exposed Trapway
Traditionally designed, exposed trapways can be seen from the side of the toilet.

Concealed Trapway
This feature provides a smooth trapway surface that's easy to wipe clean.

Skirted Trapway
A skirted trapway offers an easy-to-clean, smooth surface from front to back.

ROUGH-IN

Most bathrooms have a standard 12" rough-in (the measurement between the wall and outlet pipe). We also offer 10" and 14" options.

WATERSENSE®

WaterSense-labeled toilets meet strict EPA flushing guidelines, including using at least 20 percent less water than 1.6-gallon toilets.

DUAL-FLUSH

An innovative technology combines water savings with a powerful flush by offering lower and higher gallons per flush options.

Betello® Comfort Height® two-piece elongated skirted toilet K-20197-0

Reveal® Quiet-Close™ toilet seat K-4008-0

*KOHLER toilets with CleanCoat compared to KOHLER toilets without CleanCoat, based on consumer perception study.
†KOHLER toilet with ContinuousClean compared to KOHLER toilet without ContinuousClean, based on consumer perception study and bacterial counts.
