

DTV+™ With KOHLER Konnect™ Voice Commands

Use this document as a guide to understanding how to use voice commands to control your DTV+ with KOHLER Konnect shower system. This is not meant to be a comprehensive list of all commands but rather examples of tasks that can be completed. Start by waking up your smart device and then activating a command.

Note: When using Google Assistant or Amazon Alexa, you must “ask Kohler to” complete your action.

Amazon Alexa: “Alexa, ask Kohler to start my shower.”

Google Assistant: “Ok, Google, ask Kohler to start my shower.”

DTV+ Showering System
